

During the storm of Tuesday evening last, the barn of Mr. Robert Travis, of the 3rd concession of Whitechurch, was struck by lightning and burned. He succeeded in getting out his horses and also a threshing machine; but a quantity of wheat, barley and all his crop of hay was consumed.

The return of the first French vessels engaged in the Newfoundland fishery, the *Corier du Golf*, took place at Marcellus on the 11th of August. She left Newfoundland on the 6th of July, and had a cargo of 124 tons of codfish.

On Sunday last Mrs. Gregg, residing on the 5th concession of the township of Innisfil, was thrown from a waggon and killed on the spot.

A cotemporary states that "Mr. Wait was run over and killed on the Cleveland road the other day," and adds that a "similar misfortune" occurred to him about two years ago! A few more such "similar misfortunes" will be the death of him.

Humours of the War: Private No. 83. "They're coming, dar'um—be you scared?" Private No. 84—(mathematically inclined) "No; there's only one man killed to every six hundred shots fired in battle, and there ain't over five hundred rebels in that crowd."

In Bangor, Me., there resides a certain Wm. S., a teamster, who is noted for his jollity, and also for keeping late hours, as he usually goes home at two o'clock in the morning. Well, one stormy night, about a year ago, William concluded to go home early, and accordingly, at just midnight, in answer to his knock, his mother opened the window and inquired: "Who is there?" "William," was the reply. "No," said she, "you can't come that over me; my William won't be home for two hours yet." Poor Bill had to wait till his usual time.

"Woman," says a literary hermit "might have some reason to be proud of being the more beautiful half of the human race, if the other half was not so confoundedly ugly."

A western editor was recently requested to send his paper to a distant patron, provided he would take his pay in trade. At the expiration of the year he found that his new subscriber was a *coffee maker*.

PINKLE & LYON SEWING-MACHINE COM'Y., 538 BROADWAY, NEW YORK.

No person who contemplates purchasing a Sewing Machine for family or manufacturing purposes should fail to send for one of our Circulars, which contains cuts and full descriptions of the several styles, prices and samples of work, all of which we send by mail free. We claim to have the best Sewing Machines in the World
For either Family or Manufacturing purposes.
And all we ask is a fair trial. Read the following: **IMPORTANT FACTS.**
FACT No. 1.—This Company being daily licensed, their Machines are protected against infringements or litigation.
FACT No. 2.—These Machines make the lock-stitch—like on both sides—and use a little less than half as much thread and silk as the chain or loop-stitch machines.
FACT No. 3.—These Machines are better adapted than any other sewing-machines in the market to the frequent changes and almost endless variety of sewing required in a family. They will sew from one to twenty thicknesses of Marseilles without stopping, and make every stitch perfect. They will sew even from the finest gauze to the heaviest cloth, and even stout, hard leather, without changing the feed, needle, or tension, or making any adjustment of machine whatever. Is not such a machine best adapted to family use? and if best adapted to family use, why not for every variety of light sewing manufacture? For work on all our Family Machine, we recommend our larger sizes.
FACT No. 4.—These Machines make the most elastic goods, or goods of any kind, on a bias.
FACT No. 5.—No Machine is more durable or more simple in its construction, or more easily understood. The reputation of these Machines, without changing the feed, needle, or tension, or making any adjustment of machine whatever, is the most important fact of all.
FACT No. 6.—These Machines took the highest Premium at the Franklin Institute, Philadelphia.
FACT No. 7.—These Machines took the highest Premium at the New Jersey State Fair.
FACT No. 8.—These Machines took the highest Medal at the American Institute, in the City of New York, together with the highest Premium for fine Sewing-Machine Work.
FACT No. 9.—These Machines took both the highest Premiums at the Mechanics' Fair, Utica, N.Y.
FACT No. 10.—These Machines can do the same thing generally whenever properly exhibited in competition with other first-class Sewing-Machines. But we have space for only one fact more—it is the most important fact of all.
FACT No. 11.—We warrant every Machine we sell to give better satisfaction than any other Sewing-Machine in the market, or money refunded.
Send for a Circular. AGENTS WANTED
Address, PINKLE & LYON SEWING-MACHINE CO., No. 538 Broadway, New York, September 5, 1861. 145-6m

BULL'S RUN. Advice to Canadians!

Canada! Canada! heed the sound
That comes to you 'cross your southern bound,
Southern, Northern, Beuregard, Scott,
Englishman, Scotchman, Irishman hot;
If others fail, follow, ye Magog and Gog,
We can compare it to nothing but dog eating dog.
Two hundred thousand kinsmen with knives,
Seeking thought else but each other's lives,
Met one Sunday morning at the Bull's Run,
And aimed at each other their rifles and guns;
A thousand fell nobly, the rest ran away,
Vowing they'd show 'em some other day.
Turn, Canada, turn your eyes from the right,
Revolving as this to all that is right,
From your neighbours' folly learn to prepare
In time of sweet peace for winter and war
A long six months' winter, you have seen to
meet—
Have you calculated where to get light & heat?
If not, we entrust you, repair every man
To our store, & our Store, as soon as you can.
Our Rock Oil, and Coal Oil, and Fluid for
burning,
The sun to a bluish for a month has been turn-
ing,
If Goggles, Wicks or Chimneys, you should out
of them run,
You can always recruit these things at soot
& soot,
Or if you burn Gas, and your pipes have got
leaking,
Or if you do not, but do so are thinking 'em,
Just give us a chance, we'll do the thing that
is right,
And doubt not, we'll prove, we can give to you
light,
But in heat—Yes in HEATING, our fame lies in
this,
To give satisfaction we were not known to
miss,
We have STOVES that would turn to a tropic
the pole.
To convince you of this we'll call over the roll,
We've the Standard, Emporium, Cupid
and outpour,
The Nugget, the Snow-Bird, and Railway
Coal-burner,
The Art of the Magic, Viola, and Solway,
And last but not least, the splendid Albanian
In short, we have stoves of every shape, make
and kind,
For coal, wood, both or either in stock 'em will
burn,
Pipes, Elbows and Dumb Stoves, nooks,
Shelves and Sitters,
Pots, Kettles and Spiders, 'em down to the
Lifters,
We assure you, dear friends, you need not go
elsewhere,
For Plumbing and Gas-Fitting, hardware or
Tinware,
Opposers we've routed, the roads strewn with
knives,
Swords, muskets and bayonets, bolts, bolts and
brevets,
The field now is our's, and second Bull's Run
is seen at the charge made at soot & soot!
—Leaving joking aside, a kind welcome to all
if fought in our line you want, give us a call.
