Go ahead-and do not tarry, Nought is gained by standing still; What though you at times miscarry,
Let not fears your bosom fill.
Bearch the causes of your errors,
Gather wisdom from the past, To the wind give the terrors And you'll get ahead at last.

Go ahead-in useful doings, Let your mette be " I'll try;" He who ever is despairing, Bankrupt hearts and hopes are nigh What though you and wealth be stranger Onward, upward, be your aim, And those real or fancied dangers Moon you'll put to flight or shame.

Go ahead-the world reforming, In civil, moral, freedom's name And those forts and and outposts storming Which your enemies may claim. Wield no bulwark, take no quarter Compromise no cherished right, Freedom's treasure never barter, But stand for them with all your might

Go ahead, then-don't defer it, Life's short span soon flits away;
If you'd finish aught of merit, You must ply your task to day. Set the ball in constant motion To keep it going strain each nerve, For doubt that ultimate promotion Will yield the laurel's you deserve.

Miscellaneous,

Value the friendship of him who stands by you in the storm; swarms of insects will surround you in the sunshine.

A Disciple of Lavater .- A you applying for the appointment of school-master in a Highland parish, sent, along with the usual certificates, a photograph of himself. The circumstance caused some

"Sire, one word," said a soldier to Frederick the Great, when presenting to him a request of a brevet of lieutenant." "If you say two," answered the Prince, "I will have you hanged." "Sign!" replied the soldier. The monarch, surprised at his presence of mind, immediately granted him his request.

Something between the Two.—At the Strathbogie Farmers' Club dinner, at Huntley, lately, Sir Andrew Leith Hay, the chairman, in replying to the toast of his health, said he thanked God he had never been a Radical, and he hoped he never would. Having been once asked by a party if he was a Radical, and, thank God I am not a Tory."

'Don't put too much confidence in a lover's vows and sights,' said Mrs. Partington to her niece; 'let him tell you that you have lips like strawberries and cream checks like tarnation, eyes like an aster-lisk; but such things oftner come from a tender head than a tender heart.

The London Critic says: "We have heard that Mr. Hughes, the author of 'Tom Brown,' holds the professorship of boxing at the Working Man's College. Mr. Hollingshead's accomplishment in the acrobatic way are not unknown to fame and Mr. Dickens is said to pride himself as much upon his excellence as a pedestrain as upon the authorship of 'Pickwick."

of the World.—What says Monon i—The deepest deposit of guano known is seventy feet. According to Momboldt, a deposit of three centuries world not exceed more than one third of an inch in thickness. By an easy mathematical calculation, it will be seen that at this rate it would take almost countless centuries to form the deepest guano bed. Such a calculation enries us back towards a former geological period, and proves that in past ages a much greater number

The Wrong Road.—A reverend and charitable divine, for the benefit of the country where he resided, caused a large causeway to be begun; and as he was one day overlooking the work, a certain nobleman came by. "Well, Doctor," sail he, "for all your great pains and charity, don't take this to be the highway to heaven' Very true," replied the minister, "for if it had, I should have met your Lordshiphere!"

How to Refuse a Loan .- A young eity clerk, who felt inclined for a trip to the seaside, called upon a friend. "Hall, my dear boy," said he, "I'm off for my holiday, and I find I'm a trifle short—lend me an X, will you!" Hal, after a pause, the holy property is called a more than the short of the which apparently included a mental ex-

A certain couple had trudged on together in the pilgrimage of life for about a quarter of a century; but Ellie, the weaker vessel, instead of being a helpmate for her husband, was cross-grained, and al-ways seated herself on the cross-benches when any domestic bill was brought in by the head of the house; even in the upbill bills of life she was apt to put on the 'drag' on the laudable exertions of John. The connection was at last abruptly terminated Aurora, Nov. 2, 1860. by John's death, who was drowned in attempting to cross a ford when the river was swollen. The widow, as may be conceived, was inconsolable, and went to her father -- as crusty an old cake as ever was fired io the oven of social life. "Father, my man's drowned!—John's dead! and l'ill never marry again in this world." "Sare us!" quoth old crusty, "wilt thou not hand thy tongue? you're unco soon thinking about it—wha's seeking thee."

GEORGE SQUIRE,

125-t

Markham, April 19, 1861.

FINKLE & LYON SEWING - MACHINE COMP'Y. 538 BROADWAY, NEW YORK.

NO person who contemplates purchasing a Sewing Machine for family or manufacturing purposes, show it fail to send for one our Circulars, which contains cuts and full descriptions of the several styles, prices an annives of work, all of which we send by mail free. We claim to have the best

Sewing Machines in the World For either Family or Manufacturing purposes.

And all we ask is a fair trial. Read the following IMPORTANT FACTS.

FACT No. 1.—This Company being duly li-censed, the r Machines are protected against infringements or litinion.

NACT No. 2.—Those Machines make the lock-

infringements or hit a.ion.
Aver No. 2.—Those Marbines make the lockstick—alike on beth side —and use a little
less tran half as much th o.d and silk as the
clain or loop stitch machines.
Aver No. 3.—Tho.e Mac ires are better adapted than any other sewing-machines in the
market to the frequent changes and almost
endloss variety of tewing required in a family. They will tow from one to twenty
thicknesses of Marseilles without stopping,
and make overy stich perfect. They will
even sew from the finest geuze to the heaviost cloth, and even stout, hard leather,
without changing the feed, needle, or ton\$z_0, or making any adjustment of machine
whatever. Is not such a machine best
dapted to family use? Sud if bost adapted
to family use, why not for overy variety of
light sewing immufacture? For work too
heavy for our Family Machine, we recommend our larger sizes.
Aver No. 4.—These Machines make the most
clastic seam of any sow ing-machine in use—
a fact of very great importance in
size.

Are No. 5.—No Machine is more durable or cles, or the march of an army, does not in the slighest degree affect the talking of these view. They are said for \$3.00 per dazen.

We have also on hand and an unfacture it largest assortions of STEI EOSCOPE.

PHOTOGRAPHIC ALBUMS, and

Acr. No. 5 —No Machino is more durable of

Septombor 5, 1861.

est Frem. in at the Frankin Institute, considelyhia.

Fact No. 7.—These Machines took the Highest Fremium at the New Jorsey State Fair.

Fact No. 8.—These Machines took the highest Model at the American Institute, in the City of New York, together with the Highest Premium for fine Sowing-Machine Work

Fact No. 9.—These Machines took both the Highest Premiums at the Mechanics' Fair, litter NY.

Highest Fremants as Unice, NY.—These Machines can do the same thing generally, whonever properly exhibited in competition with o or first-class Sewing-Machines. But we have space a only one fact more—it is the most important Fact of all.

Fact of all.

AUT No. 11.—IVe warrant every Machine we sell to give better satisfaction than any other Sewing-Machine in the market, or money refunded. Sond for a Circular. AGENTS WANTED
