Sewing Machines in the World For either Family or Manufacturing purposes.

And all we ask is a fair trial. Read the following:

IMPORTANT FACTS. IMPORTANT FAC'S.

FACT No. 1.—This Company being duly licansed, their Machines are protocted against
infringements or litigation.

Nact No. 2.—These Machines make the lockstick—nlike on both sides—and use a little
less than half as much thread and silk as the
clinium cloop-attich machines.

FACT No. 3.—These Machines are bottor adapted than any other sewing-machines in the

chain or loop-stitch machines.

Fact No. 3.—These Machines are better adapted than any other sewing machines in the market to the frequent changes and almost endless writing of sewing required in a family. They will sew from one to twenty thicknesses of Marsalles without stopping, and make every stitch nerfect. They will even sew from the finest gauze to the heaviest cloth, and even stout, hard leather, without changing the feed, needle, are ton-sion, or making any adjustment of mechine whatever. Is not send a machine best adapted to family use 7 and if one every variety of light sowing manufacture? For work too heavy for our Family Machine, we reacommend our larger sizes.

Fact No. 4.—These Machines make the most elastic soam of any sewing-machine in use—a fact of every great importance in ewing elastic goods, or goods of any kind, on a bias.

Fact No. 5.—No Machine is more durable or more simple in its construction, or more assirt.
