FINKLE & LYON

SEWING MACHINE COMPANY. 538 BROADWAY, NEW YORK,

TO parties little acquainted with the Finkle & Lyon Sewing Machines the careful per-usal of the Company's Circular is specially commended. This Circular can be had on ap-plication. It is very specific, and will be found highly instructive, having been prepared with much care, and we will aside by all statements

therein made.

The following brief quotation is characteristic of the antire Gircular:

"This Machine is better adapted than any other Sewing Machine in market to the frequ't changes and simply forest waivity of sewing required and in the control less waivity of sewing required to the control of the contr

It was no ordinary triumph. Defiantly can we say, "No other Machine compares with it in this respect," Hence have we uniformly—al-most without exception—taken the highest pramium, when the Machine has been properly pramium, when the Machine has been property exhibited in composition with other first-class Sewing Machines. Hence is it that we are able to effer the following guarantee, viz:—

"We Warrant every Machine we sell to give hotter satisfaction than say other Sewing Machine now in market, or mency refunded."—
We never sell a Machine on any other terms. The guarantee is an reliable as the note of any business man in the land. For more than five years here we relied upon such facts for the reputstion of our Machine; and without a single travelling agent in the field, there is scarcely a neighborhood on the continent where the Machine is not favorably known. We prefer such a reputstion to one based on mere "talking points," as they are technically called in the trade. Hence we make but one kind of stitche viz; the lock-stitch, slike on both sides, requiring ranly one-third the thread of other kinds o stitches.

stitches.

N. B. Local agents wanted in every county throughout the West. Special inducements

Testimonial.

We, the undersigned, have carefully examined the new Copper Plate Map of Cansua West recently published by you, and find it to be very accurate and reliable. We cannot speak too highly of the artistic skill displayed in the execution of the work, which needs but to be seen to be appreciated. As subscribers for the Map, we are well satisfied. You have added to the state of the companied.

To all wishing a really good Map of Upper Cannds, we can recommend this work, as being all the publishers claim for it.
