commended. This Circular can be had on application. It is very specific, and will be found highly instructive, having been prepared with nuch care, and we will abide by all statements

The following brief quotation is characteris tic of the entire Circular :

ice of the entire Circular:

"This Machine is better adapted than any other Sowing Machine in market to the frequ't changes and almost en 'less variety of sewing required in a femily; for it will sew from one, to twenty thicknesses of Marseilles without stopping, and making overy stitch perfect. Will sew from the finest gause to the heaviest cloth, and oven to the stotuest harvess leather, without changing he loed, needle, or tension, or making any adjustment of machine whatever."

Thus have we successfully expressions the

Thus have we successfully overcome th most difficult point in the Sewing Machine Art It was no ordinary triumph. Defiantly can we say, "No other Machine compares with it in this respect." Hence have we uniformly—almost without exception-taken the highe most without exception—taken the highest pranium, when he Machine has been properly exhibited in competition with, other first-class Sewing Machines. Hence is it that we are able to effer the following guarantee, viz:—

"We Warrant every Machine we sell to give etter satisfaction than any other Sewing Ma thine now in market, or money refunded." We never sell a Machine on any other terms. The guarantee is as reliable as the note of any business man in the land. For more than five vears have we relied upon such facts for the eputation of our Machine; and without a single travelling agent in the field, there is scarcely a ueighborhood on the continent where the Machine is not favorably known. We prefer such reputation of our Machine; and without a singl or reputation to the basse of there "taking points," as they are technically called in the trade.
