Boyle preached a sermon in the open air to a large and attentive assembly, at the corner of Queen and Yonge streets, last night. After the sermon a considerable night. After the sermon a considerance number of the hearers joined in singing a hymn, and walked toward Alice street Primitive Methodist church, accompanie by a throng desirous of joining in further devotions. The service was then conductek on the 'union' system, members from different cturches, praying for the blessing of God on the city. The services will be continued.—Gtobe of Thursday.

CONSPIRACY TO DEFRAUD .-- A young man named Edward Moran was taken into custody yesterday evening by Sergeant Leith, on a charge of conspiracy to de-fraud a lurmer, of the name of Edward Morris, out of a quantity of beef. It ap-pears that Moran and another person, not yet in custody, were about to purchase a quantity of beef from the farmer, and while it was being weighed a piece of copper was put on the lever of the scale, thus defrauding Mr. Morris. The case will be investigated to-day by the police magistrate. Moran has been admitted to bail.—Globe of Thursday.

LORD PALMERSTON AND HIS TOW MANSION.—The London correspondent of the Moniteur is responsible for the fol-lowing bit of news:—" Lord Palmersten lowing bit of news:—" Lord Palmerston as busy just now in renewing the lease of his residence, Cambridge house, which is on the point of expiring. The Eremier wishes to keep that mansion for Lady Palmerston; the rent is £2300 a-year and the house belongs to Sir John Sutton, a gentleman of enormous wealth, who be came a convert to Catholicism a few years ago, and who lives at Barges in strict sectusion, engrossed by pious liberalities."

In Toronto, on the 26th instant, by the Rev P. Rooney, M. Henny Contin. eldest son of Councilman Coulin, to Miss Julia Ann Ro BINSON, daughter of Mr. George Robinson, al

THE Subscriber, in returning thanks to his numerous customers who have so libernumerous customers who have so liber-ally supported him for upwards of five years. would state that he continues to manufacture,

FINKLE & LYON

SEWING MACHINE COMPANY.

538 BROADWAY, NEW YORK. TO parties little acquainted with the Finkle & Lyon Sewing Machines the careful perusol of the Company's Circular is specially commended. This Circular can be had on application. It is very specific, and will be found highly instructive, having been prepared with much care, and we will acide by alletatements therein made.

The following brief quotation is characteris-e of the entire Circular : ic of the entire Circular:

'This Machine is better adapted than any other Sawing Machine in market to the frequ't changes and almost en 'less variety of sewing required in a femily; for it will sew from one, to twenty thicknesses of Marseilles without stopping, and making overy sitch perfect. Will saw from the finest gause to the heaviest cloth, and even to the stoutest harmess leather, without changing the feed, needle, or tension, or making any adjustment of machine whatever,"

Thus have we successfully overcome the

Thus have we successfully overcome the most difficult point in the Sewing Machine Art, It was no ordinary triumph. Defiantly can was say, "No other Machine compares with it in this respect." Hence have we uniformly-almost without exception—taken the highest premium, when the Machine has been properly exhibited in competition with other first-class Sewing Machines. Hence is it that we are able to offer the following guarantee, viz:—
"We Warrant every Machine we self to give better satisfaction than any other Sewing Ma-chine now in market, or money refunded."— We never sell a Machine on any other terms The guarantee is as reliable as the note of any business man in the land. For more than five years have we relied upon such facts for the reputation of our Nachine; and without a single travelling agent in the field, there is scarcely a ueighborhood on the continent where the Ma-chine is not favorably known. We prefer such a reputation to one based on mere "talking points," as they are technically called in the trade. Hence we make but one kind of stitchs viz; the lock-stitch, alike on both sides, requiring only one-third the thread of other kinds of
