HEALTH FOR SOLDIERS.

Radway's Radio Relief has been used by the sick soldiers in our army; it has saved the lives of hundreds that were rauidy sinking under the regular efficial treatment. If this remedy was freely dispensed among the troops, under the direction of the Government, not one in a hundred would be obliged to go to thoughtal as sick. Its use will prevent stekness, however exposed to fatigue, climate, and the disease breeding exhabitions from the awamps, marshes, rice fields, and buttom lands of the marshious South.

Ranway's Ready Relief has been used with marked success, both as a Fraventive and as a Crative of the malignant Yellow, Typhoid, Billious Fevers, Fluxes, Choleras, &c., of the South. At your request, I give my opinion of your "RELIER." Although opposed to empirical preparations, I used in the hospital a considerable quantity, and with very satisfactory results, especially in Rheumain: Pana. It supplies the place of many elaborate fermula, of the United States Tharmacopaia, which are not readily compounded in military services, Yours, &c.,

FINKLE & LYON

SEWING MACHINE COMPANY. 538 BROADWAY, NEW YORK,

TO parties little acquainted with the Finkle & Lyon Sawing Machines the careful per-usal of the Company's Circular is specially mended. This Circular can be had on ap plication. It is very specific, and will be found highly instructive, having been prepared with nuch care, and we will anide by all statements

The following brief quotation is characteris-

tie of the entire Circular;

'This Machine is better adapted that any other Sawing Machine in market to the frequit changes and a lines on 'lees wariety of sawing required in a family; for it will sew from one-to wonty thicknesses of Marseilles without stopping, and making every stitch perfect. When the finest gause to the beaviest cluli, and even to the studiest leather, without changing the feed, needle, or tension, or making any adjustment of machine whatever,"

Thus have we successfully overcome the nost difficult point in the Sewing Machine Art. It was no ordinary triumph. Defiantly can we say, "No other Machine compares with it in this respect." Hence have we uniformly—alnost without exception—taken the highest premium, when the Machine has been properly exhibited in competition with other first-class Sewing Machines. Hence is it that we are able to offer the following guarantee, viz :---"We Warrant every Machine we sell to give better satisfaction than any other Sewing Ma-chine now in market, or money refunded."— We never sell a Machine on any other terms The guarantee is as reliable as the note of any business man in the land. For more than five years have we relied upon such facts for the renutation of our Machine; and without a single ravelling agent in the field, there is scarcely a ueighborhood on the continent where the Machine is not favorably known. We prefer such a reputation to one based on mere "talking nts," as they are technically called in the trade. Hence we make but one kind of stitchs wiz : the lock-stitch, alike on both sides, requiring only one-third the thread of other kinds of
