Portry.

WHAT'S A WOMAN LIKE? A woman is like to-but stay ! What a woman is like who can say There's no living with or without one. Love bites like a fly, Now an ear, now an eye, Buz, buz, always buzzling about one. When she's tender and kind, She is like to my mind, (And Emma was so, I remember,) She is like to-Oh I dear1 She's as good, very near. ripe melting peach in September If she laugh and she chat, Play, joke, and all that, ith smiles and good humor she meet She's like a rich dish And with an

Of venison or fish, That price from the table " come online." Butshe'll plague and she'll vex you, Distract and perplex you, False hearted and ranging, Unsettled and changing, What then do you think she is like? Like a sand, like a rock, Like a wneel, like a clock ---

Ah, a clock that is always at strike iler head's like the island folks tell on. Where nothing but monkeys can dwell on,

Her beart's like a lemon- so nice, She carves for each lover a slice, In truth she's to me Like the wind like the sea. Whose raging will hearken to no man, Like a mill, like a pill, Like a nail, like a whale, Liko an ass, like a glass, Whose image is constant to no man Like a flower, like a shower, Like a fly, like a pis, Like a his, like a fies, Like a thief, like—in brief,

She's like nothing on earth but a woman

Miscellancous,

The bottle kills more than the sword Lawyer's mouths are like turupike gate - never opened except for pay. It is exceedingly bad busbandry to har-

tow up the feelings of your wife. It is far happier to be deceived than undeceived by those whom we love.

I'm perfectly open to conviction, as the criminal said at the assizes.

Sometimes it may not be unpleasant to have a jealous wife; she is always talking of what pleases her husband.

The best thinkers are those who are

not only thinkers but actors. Two lovers like two armies generally

get along quietly enough till they are engaged. Why is a musket in Africa like a horse-

them lest they he like silver bars to cross the way to heaven.

Rowland Hill said the wouldn't size a farthing for that man's religion whose ca and dog were not the better of it.?

"I haven't another word to say, sir, I acver dispute with fools ! - No,' was the reply, you are very sure to agree with POPULATION OF THE GLOBE.

A preacher once said -If you know anything that will make a brother's heart glad, run quick and tell it; but if it is something that will cause a sigh, bottle it

up-bottle it up. " Have you Watts on your Mind ? in

quired a customer of a booksellers appren-tice. • No, sir,' replied the young green, • but 1 have got warts on my hand.'

Test of good Humor .- Wake a man in the middle of the night and ask him to lend you live shillings.

A. Stunner .-- If you throw a stone into the water, what does it become before it reaches the bottom !- Wet.

If women lead men to the verge of a

A young lady of the deficate variety fainted the oth r day, when told that gun-barrels were often exhibited without breeches.

A Western paper says : "Young ladies who are accustomed to reading newspapers are always observed to possess winning ways, most annable dispositions, and invariably make very good wives.

city and forest like snowflakes to destruction before it.

And yet it is so mobile that we have lived in it for years before we can be persuaded that it exists at all, and the great bulk of mankind never realize the truth that they are bathed in an occean of air. Iis weight is so enormous that iron shivers before it like glass, yet a soap ball sails through it with impunity, and the finiest insect war-it aside with its wings. It ministers louch it not, but it touches us. Its warm south wind brings back color to the pale face of the invalid; its cool west winds refresh the fevered brow and make the blood manile to our checks; even its north blasts brace into new vigor the hardened children of our rugged climate.

The eye is indebted to it for all the magnificence of sunrise, the brightness of mid-day, the coastened radiance of the morning, and the clouds that cradle near the setting sun, But for it the rainbow would want its 'triumphant arch,' and the winds would not send the fleecy messengers on errands around the beaveus; the cold other would not shed feathers on the earth, nor would drops of dew gather on the flowers. The kindly rain would never fall nor storm nor log diver-sify the face of the sky; our naked globe would turn its tanned and unshadowed forchead to the son, and one dreary, monotonous blaze of light and heat dazzle and burn un

all mings. Were there no atmo-phere the evening sun would in a moment set, and without warning plunge the earth into darkness. But the air keeps in her hand a shield of I

rays, and lets them slip but slowly through her fingers, so that the sha-dows of evening are gathered by degrees, and the flowers have time to bow their heads, and each crea-ture space to rest and to nestle to In the morning the garish repose. son would at one bound berst from the bosom of the night, and blaze Why is a mushet in Africa like a horse-above the horizon; but the air while in England !--Because one is a earbine there, the other a carbineer. Be not proud of riches, but afraid of his approach, and then another, and then a bandful; and so gently draws aside the curtain of night and slowly lets the light fall on the

face of the sleeping earth, till her cyclids open, and like man she goes forth again to labor until evening .-Quarterly Review.

A professor of the Berlin University has been making curious researches respecting the population of the globe. The following is the result:-Population of Europe,272,-The total population of the globe is 1,283,000.000. The average number or deaths, per annum, in certain places, where records are kept, is about one to every 49 inhabitants. At the present time, the number of deaths in a year, would be about 32 000,000, which is more than the entire present population of the U. S. At this rate the average num It would lead men to the trend of the definition of the U. precipies, and the much then thow them over, the men do a very wrong thing, but only, pethaps, what the much have cance to expect. A young lady of the definite variety A young lady of the definite variety As the births considerable exceed the deaths, there are, probably, 79 to 60 human beings born per minute-
