PROSPECTUS
 OF THE
PETROLEUM OIL COMPANY!
 RICHMOND HILL

WHEREAS there exists in the neighborhood very strong indications that OIL exists in paying quantities in several localities, it is highly desirable that a Company should be established to test the matter, and obtain it if possible.

Since in the opinion of many well qualified judges, SIGNS OF a great and encouraging character exist in the great abundance on Mr. Klink's farm, 1 1/2 miles east of Gable's toll-gate. It is proposed to sink a well there, as being the place most favorable for operations.

The Land can be obtained for ten years, for one-tenth of the Oil. Ten acres have already been leased to secure the site. The probable cost of sinking the well will be about \$2,000, about one-half of which will be required to procure material, and go on with the work.

The capital of the Company is to be \$2,000, in 40 shares of \$50 each; two shares entitles any member to become a director.

As the successful prosecution of the enterprise will confer untold advantages of wealth and prosperity on our village and neighborhood, it is hoped that sufficient support and encouragement may be given to justify its prosecution.
