Bradford Foundry!

The undersigned is now manufacturing
Steel mould-board Ploughs!

On an extensive scale, and having tried the credit system, he finds that it is neither advantageous to himself or his customers that are willing to pay, as he has been obliged to charge about one-third more for his Ploughs than he could afford to sell for, in order to cover the expenses of peddling, collecting, and bad debts.

He has now come to the determination to
SELL FOR CASH, AND CASH ONLY
And reduce the price about one-third; see Ploughs that were sold for \$19, he now offers for \$13.

He is also manufacturing extensively
Wood Sawing Machines
With all the latest improvements, and is also prepared to repair almost every description of Thrashing Machines, particularly Halls of Oshawa. Having every description of Casting that may be required he has every facility for manufacturing and repairing Steam Engines, and every kind of Mill work will be carefully attended to, and turned out with dispatch at reasonable prices.
