The York Herald.

RICHMOND HILL, DEC. 14, 1866.

To be borne in mind.—Public Meetings of the electors in each Township under the new Municipal Law will be held on the last Monday but one in December, (the 24th) to nominate candidates for the offices of Reeve, Deputy Reeve, and Councilors to serve for the year 1867.

THE POISONING CASE.

From the Port Perry Standard.

We learn that the Coroner visited the County Attorney in regard to this case, on account of the dissatisfaction expressed by near relatives of the deceased. The Attorney states that nothing further can be done unless the dissatisfied parties take legal proceedings for quashing the verdict.

Are there no competent Magistrates in the Township of Beach, to take this melancholy affair in hand? Why is such a mysteriously sudden death by poison to be allowed to remain where the coroner's jury left it; and still the odious suspicion remain that poor DeGeer had not fair play.

Accident on the Northern Railway.

On Saturday night last, as the mail train of the Northern Railway was proceeding to Collingwood, it encountered a large tree, which within the preceding half hour had been blown across the track, a little north of the LeRoy station.

How the engine driver and fireman escaped unhurt is most unaccountable. A kind Providence was thrown over the event, so that, beyond a walk of six miles to Barrie, in the dark, and over the cattle guards, which a few of the passengers accomplished, the greater number of the passengers remaining in the cars until morning—and the unavoidable expenses of repair to road and engine, nothing more serious occurred.

MAXIMILIAN.—The rumour is again current that the clergy and a large portion of the most influential and wealthy citizens of Mexico have offered to raise twenty million dollars for Maximilian, if he will remain at the head of the government.

Vaughan Council.

The Council met at the Town Hall, on Monday, 10 December, 1866. All the members present. The minutes of previous meeting were read and approved.

A petition from John Garton, soliciting aid for Mrs. Dove, was presented. Also a communication from G. P. Dickson, acknowledging receipt of grant from the Council to defray costs of Walker's funeral.

Mr. Raeman moved, seconded by Mr. Webster, that the petition of John Garton requesting aid for Mrs. Dove, be not entertained, she not being a resident of the Township.—Carried.

Mr. Graham moved, seconded by Dr. Langstaff, that the amount of road appropriation that may remain at the close of this year, to the credit of any of the respective Wards of this Municipality and unappropriated, shall still remain & belong to such Wards for road purposes the ensuing year.—Carried.

The Council then took into consideration the several demands made for loss of sheep by dogs, and upon resolution moved by Mr. Graham and seconded by Mr. Raeman, the Treasurer was authorized to pay to Wm. Taylor the sum of \$16, and to Walter Fletecher \$42, the amounts of damages awarded to them respectively for loss of sheep by dogs.

The Legislature having passed an Act last session, for the division of Townships into Electoral divisions for the convenience of polling in the case of elections to the Legislature, the Clerk laid before the Council a By-Law to carry this into effect.

The By-Law was passed dividing the Township into three Electoral divisions, the first to consist of the 1st, 2nd, and 3rd Concessions. The second of the remaining Concessions from Lot 1, to 15, (inclusive), and the 3rd from Lot 16 to 35, (inclusive) of the same concessions.

A petition was presented from numerous inhabitants of Klineburg and vicinity praying that the Council would grant to them \$100, for the construction of side walks.

The Council considered this was a matter for the consideration of the Council in whose ward the village is situated, and if granted, the amount should come from his Road appropriation fund. Dr. Langstaff therefore moved, seconded Mr. Graham, that the petition of Wm. Sharp and others, in reference to an appropriation of a sum of money for side walks in the Village of Klineburg be granted, and that the Treasurer be hereby authorized to pay the amount prayed for, on certificate of the Reeve.—Carried.

Mr. Graham moved, seconded by Mr. Webster, that the Clerk be authorized to get the minutes of the proceedings of this Council for the present year, printed in pamphlet form, as heretofore.—Carried.

The Council then adjourned sine die.

DEATH FROM A BUR.

A sudden and singular death occurred in this village on the 7th inst. An infant, two months old, of Mr. Alexander Moody's was noticed by its mother while in its cradle to be choking, Mrs. Moody and neighbors endeavored to relieve it, but failed. Dr. Hostetter was then called in and finding the infant in a state of asphyxia, produced by some mechanical impediment to respiration, which could not be removed by ordinary means, decided at once to perform tracheotomy.

The afflicted parents at first objected to so severe a remedy, but at last gave their consent. The trachea or wind-pipe was then opened by the Dr. in a skillful manner, with the loss of not more than a drachm of blood. The operation took but a few minutes. The little patient after this breathed more freely, but it was of short duration, for the blood had become so poisoned with carbonic acid, from the want of oxygen of the air, that convulsions took place, and death soon put an end to its sufferings.

The following day a post-mortem examination was made, and a large bur, or nodule of the plant cynoglossum officinale was found in the larynx completely closing the air passage.

It is believed by the parents that the bur must have dropped off the children's clothes in the infants' mouth, or placed in it by one of them.

We understand that Dr. Hostetter has performed the above delicate operation with success in several instances, and in all probability would have saved this patient if the operation had been performed sooner.

Death of an old Toronto Printer

The Leader of the 6th inst., announced the death of Mr. James Lumsden, the oldest printer in Toronto,—he died on the 5th inst. aged 58 years.

The following extracts from evidence taken before a committee of the House of Assembly of Upper Canada, on "Privilege," will show how poor Lumsden was treated in the "good old days" of irresponsible rule!—b cause his father voted for the liberal candidate for the representation of the Town of York:—

JAMES LUMSDEN, EXAMINED. "Committee Room, House of Assembly 23 Jan. 1829.

"It is understood that you formerly held the situation of messenger in the House of Assembly?—I did, during the two last sessions of the Parliament before the last. What were your wages?—Twelve pounds ten shillings per session. From whom did you receive your appointment?—I was appointed by Doctor Powell. Was your removal from your situation or did you decline?—While a messenger in the Assembly I was an indentured apprentice to Mr. Fothergill, King's Printer, and there was a clause in my indenture providing that I should be allowed to fill the situation of messenger, during each session of the Legislature, during the continuance of the said indenture. But I was removed and another appointed.

Was any reason assigned for your removal?—Doctor Powell told my father he did not want me any longer, but that I had behaved to his satisfaction, and to the satisfaction of the House. My father had voted for the opposition candidate and against the Attorney General during the previous summer, and his reasonable belief is that vote was the only real cause of my losing the situation; I presume however he does not know this as a fact; Mr. William Gamble told my mother that that vote was the reason of my dismissal.

CHARLES FOTHERGILL, ESQ., M.P. EXAMINED.

Do you know any reason, or was there any cause assigned to you by Doctor Powell, for removing your late apprentice James Lumsden from the situation he held in the House of Assembly?—I know of no reason; Lumsden was a deserving well behaved boy; and as far as my memory serves me, Doctor Powell once told me that he (Lumsden) had behaved so much to his satisfaction, that there was a vacancy to occur he would have no hesitation in reappointing him."—Colonial Advocate 7 May, 1829.

School Examination

The examinations of the various departments of our Schools will commence on Thursday next at 9 a.m. We trust that all persons who profess to take an interest in the progress of education will manifest their sincerity by being present upon that occasion. It is discouraging to teachers to find that their efforts are but indifferently appreciated, we do hope to see a good attendance on Thursday morning next.

Mr. McGEE AND THE 'CHAMPION.'

The Montreal Gazette, of Friday, publishes following letter from the Hon. Mr. McGEE to Mr. Brown of the Toronto Globe:—"Sir,—You are a public man, so am I; and therefore, as you assail me, by name, in the Globe, I do not find any good reason why I should be deprived of whatever advantage I may be able to find in holding you personally responsible for those assaults.

Your text, this time, is Fenianism, upon which subject you accuse me, through the Globe, of having held language at a late Irish meeting in this city unworthy of a member of the government, and unfit and unbecoming in any member of society. You do this on the faith of an anonymous letter from this city, the author of which you either know or you do not know. If you do not know who your "Englishman" is, how much greater is your responsibility? If you do know, why not place that responsibility where it belongs? And if you will not do this act of common honesty,—if you will shelter the nameless calumniator,—then I appeal to the Canadian public whether I am not justified in holding George Brown accountable, just as completely as if he had written the falsehoods he published, with his own fingers?

"If the re is any ground on which any honest Canadian journalist ought not to have attacked me, it is precisely this ground—Fenianism. For if ever a public man with my antecedents had a bitter & painful duty to discharge, assuredly on that subject I had. Holding, rightly, or wrongly, that Ireland is cruelly misgoverned in two or three essential particulars, the duty was forced upon me, alike by my position and my conscience, to resist to the uttermost this new fanatical Fenian way of righting the wrongs of Ireland. It is now over two years ago, since I first sounded the note of warning on that subject, in answer to an address of the St. Patrick's society of Peterborough. Ever since—in season and out of season—through the American and Irish press, as well as near home, I have never ceased making war on that infamous conspiracy; and if the sympathizers with Fenianism in British America count to-day only by the dozen, or at most by the score, it is partly due, I say it fearlessly, to my labors in that behalf.

"At a time when, as is well known to my friends here, I have had to risk even my personal safety in doing battle against the miserable delusion; at a time when the secret enemy who never sleeps as is perfectly well known here, has tried every resource of intimidation against me in vain, at such a time, you, Mr. Brown, with whom I have acted for many years as a friend, and for many months as a colleague; you choose this time to throw in your testimony against me as being untrue to Canada on the subject of Fenianism. In the past you have made some mistakes as we all have; but you never made such a mistake in your life as when you felt or fancied that you could attack me with impunity on this ground.

"Having done so—having sought me out as an opponent—having cancelled all past obligations by your own act,—I now take you up as an undisciplined enemy. In the presence of the people of Canada, especially of that people of Upper Canada, whose name you so often invoke and abuse, I say and I shall maintain, that your conduct of which I complain is not that of an honest man.

"On the eve of leaving this great city for three or four months—this city in which I have endeavored for ten years to promote peace and concord among all men I thought it politic to throw out a salutory menace to the handful of Fenian sympathizers we have here, unfortunately living among us. And you, instead of backing me up—whatever you may think of the government of which I am a member—you volunteer to play the Fenian game, and run me down, rather than lose the opportunity of damaging a person, whom you happen, just at present, to consider a political enemy. If the electors of South Oxford, if the habitual readers of the Globe, willfully choose to be represented by a man who cannot stand the temptation of damaging an opponent, at the expense of the country, there is nothing further to be said on that point; but I am pretty tolerably certain that there are a good many people in this country to whom Mr. Brown and Mr. McGEE may be mere names, but for whom truth, and right, and fair play have not yet wholly left their meaning.

"I will not stoop to verbal criticisms, that you the broad fact alone is of consequence, that you, in the Globe, have made a speech for me, which I never made. That you have distinctly stated that false speech was made here, on a certain night, in a certain hall. Now there were from four to five hundred persons present, and I here, where the speech you have manufactured was said to have been spoken, I call upon any one of the four or five hundred to say, over his own name, that the Globe report, or anything at all resembling it, was ever spoken by me. And, failing that verification or withdrawal, I, in the meantime, respectfully propose to the people of Upper Canada, in whom this letter may reach, to hold the Editor-in-chief of the Globe (viz., the Hon. George Brown), accountable for the baseness of publishing utter falsehoods concerning one of his former friends and supporters, and an ardent cowardice of refusing to meet them when he was convinced they were falsehoods.

LONDON, Dec. 10.—Mr. Gladstone is expected to return here at the beginning of January.

The ex King of Hanover will, it is believed also arrive here about the same time, on a private visit. His Majesty will continue to reside on the Continent.

LONDON, Dec. 10.—The Cabinet Council has not yet come to any definite decision with reference to Reform. Several of the Ministers are opposed to any kind of a Reform Bill, and others again advocate the introduction of a Bill, but under reserve that no debate shall ensue thereupon until the session of 1868. Earl Stanley and Lord Russell are in favour of a more liberal measure of reform than was proposed by the Russell Cabinet. Earl Derby and Sir John Stafford Northcote are among those who consider that the question of Reform should be postponed.

FLORENCE, Dec. 10.—The King will open Parliament on the 15th. His speech is awaited with a great interest, as he will probably speak of the evacuation of Rome and the negotiations with the Pope.

DUBLIN, Dec. 10.—A large number of Irishmen propose to go to be enrolled in the Roman Zouaves, who will shortly, it is expected, number 2,200 men.

ROME, Dec. 10.—An Austrian man-of-war is shortly expected to arrive at Civita Vecchia. This fact has, however, no political character, being only intended for the protection of the Austrian ambassador and Austrian subjects in Rome during any disturbance.

PEEL.—The first step in the arrangement of affairs for the administration of justice in the new County of Peel, took place yesterday. After the adjournment of the Quarter Sessions, the Selectors for the United Counties consisting of Judge Harrison, and Sheriff, the Treasurer, and the Clerk of the Peace, with A. Law, Esq., met in the Court-room, and selected the panel of Grand Jurors in the Superior Court, for the ensuing year. Today the new panel in the other Courts will be selected.—Globe.

FIVE MINUTES DELAY MAY BE FATAL.

In apoplexy blood rushes in a torrent to the brain. The circulation must be equalized immediately or the patient dies. Rudway's Ready Relief restores the equilibrium with wonderful celerity, determining the blood from the sensorium back to the heart, and thence to the surface and the extremities. Alonzo T. G. Cow, Bowditch Street, New York, testifies that in the year 1862, he fell down in a fit of apoplexy when writing at his desk, and was restored to consciousness by a dose of the Ready Relief administered by a neighbor, but for which, as he verily believes, he must have died. Keeps the article always by him now, and is of opinion that it is an absolute specific in every species of fits and spasms.

PREVENTIVE MEDICATION is the best and cheapest.

There is no disease, however malignant or inflammatory, but that gives warning of its approach. Asiatic Cholera, Yellow Fever, Typhoid Fever, Fever and Ague, Small Pox, Inflammation of the Bowels, and Rheumatism give timely warning of their presence in the system before they become fully developed; if Radway's Ready Relief and Pills are used when the first sign of uneasiness is experienced, the disease will be immediately arrested. One 50 cent bottle of Relief and 25 cent box of Radway's Pills will not only save you fifty dollars, for medical attendance, but your life. Let every family procure these medicines—they are at all times useful.

A Card to Invalids

A Clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the Cure of Nervous Weakness, Early Decay, Diseases of the Urinary and Siminal Organs, and the whole train of disease that ensue on by mental and physical debility. Great numbers have been cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recipe for preparing and using this medicine in a sealed envelope, to any who will send it free of charge.

When the crime had been traced to Great ex immediate steps were taken with the intent of securing him, but he had evidently, ascertained that the detectives were on his track, and he suddenly and quietly left his family, and, taking with him a young woman who had been in his employ, he fled to Southampton, where he embarked for this city, assuming the name of Parker and passing the young woman off as his wife.

Mr. McCall, Superintendent of the Glasgow police, did not relish the idea of allowing the accused to get off so easily, and he accordingly obtained the necessary papers from the British government, under treaty with the United States, for the return of the accused, and taking passage in the steamer Bremen resumed the chase. Arriving in this city Mr. McCall repaired to the central office of the Metropolitan Police, and on explaining the nature of his mission, detective Joseph Eustace was detailed to assist in ferreting out the criminal. Mr. McCall had brought over with him an excellent likeness of Greatrex, which the detective carefully studied.

On Tuesday afternoon Mr. Eustace observed a man in Canal street who, he thought looked very much like the fugitive, and, stepping up to him, he accosted him, saying, "How do you do, Mr. Greatrex?" This was evidently the man, for as soon as Mr. Eustace addressed him by his right name he was so taken by surprise an apparently dumbfounded, that the officer had but little difficulty in securing him and escorted him to the central office. The officers visited the house at which Greatrex was stopping, and in his trunk they found eighteen hundred of the spurious notes, which they seized and will hold, together with the prisoner, who in a few days, will be brought before United States Commissioner Newton for examination.—New York Herald 29 Nov.

Auction Sales

SATURDAY, Dec. 15.—Sale of Stock and Implements, on Lot No 4, 5th Concession the property of Mr. Joseph Butten. Sale at 11 a.m. H. Smeiser, Auctioneer.

FRENCH TROOPS IN MEXICO.—NEW ORLEANS, Dec. 10.—A French man-of-war, bound from Vera Cruz, on Dec. 1st, has arrived.—She reports that 17 or 18 transports are daily expected at Vera Cruz to carry the French troops away. The Austrian and Belgian troops were to remain in Mexico.

LATEST FASHIONS DEMAND

J. W. BRADLEY'S CELEBRATED PATENT Duplex Elliptic (OR DOUBLE SPRING) SKIRT.

The Wonderful Flexibility and great comfort and pleasure to any lady wearing the Duplex Elliptic Skirt will be experienced particularly in all crowded Assemblies, Operas, Railroad Cars, Church Pews, Arms Chairs, for Promenades and House dress, as the Skirt can be folded when in use to occupy a small space as easily and conveniently as a Silk or Muslin Dress, an invaluable quality in a Skirt, not found in any single Spring Skirt.

A lady having enjoyed the pleasure, comfort and convenience of wearing the Duplex Elliptic Skirt for a single day, will never afterwards willingly dispense with their use. For Children, Misses and Young Ladies they are superior to all others.

They will not bend or break like the Single Spring, but will preserve their perfect and graceful shape when three or four ordinary Skirts will have been thrown aside as useless. The Hems are covered with Double & Triple Buttons, and the Bottom Hems are not only doubling Springs, but twice (or double) covered preventing them from wearing out when dragging down stairs, stairs, &c.

The Duplex Elliptic is a great favorite with all ladies and is universally recommended by the Fashionable Magazines, as the Standard Skirt of the Fashionable World.

To enjoy the following inestimable advantages in a Skirt, viz: Superior quality, perfect manufacture, stylish shape and finish, flexibility, durability, comfort and economy, enquire for J. W. Bradley's Duplex Elliptic or Double Spring Skirt, and be sure you get the genuine article.

CAUTION.—To guard against imposition be particular to NOTICE that skirts offered as "Duplex" have the r. d. initials, viz., J. W. Bradley's Duplex Elliptic Skirt Springs, upon the waistband—none others are genuine. Also Notice that every Skirt will admit a pin being passed through the centre, thus revealing the true or double-spring, branded together or therein, which is the secret of their flexibility and strength, and a combination not to be found in any other Skirt.

For Sale in all Stores where First Class Skirts are sold throughout the United States and elsewhere.

Manufactured by the Sole Owners of the Patent. W. B. BRADLEY & CARY, 97 Chambers & 81 Trade Sts., N. Y.
