URING the year 1868 very important Sessions will be held of the Parliament of Ontario, and of the Dominion, and very interesting discussions will take place on subjects of the deepest interest to the Canadian people. The foundations of the New Gov-ernment have been laid, but the superstructure will demand all the care of the people, and the public journals will necessarily be called upon to discuss at length many questions, upon the right settlement of which the future welfare of the country will depend.

In all the matters which will be brought before the Legislatures "THE GLOBE" will take a deep interest, and both by

It has been for some time impossible to supply in time for the morning mails the number of copies called for by the public.
