You begin your legislative labors with ernment in motion on the most economic resources at your disposal large enough to justify the hope that they will prove adeprinciple. No other public man in Ontario quate not only for the actual requirements has served the public so long and as faithof the Government, but also to satisfy the wants of this rapidly improving country.

It will devolve upon you to consider the best and most appropriate means of husbanding these resources, and of augmenting as far as possible, the public wealth, 1 would earnestly press upon your attention the expediency of encouraging immigration and the occupation of your public lands, by affording to the working classes of Europe, and to the young men of our own Province additional inducements to settle and remain amongst us. The enactment of a liberal Homestead Law, with a free grant of land to bona fide settlers, would, I apprebend, prove of inestimable advantage in adding to the number and quality of our resident nonulation.
