**1868. THE 1868. "GLOBE" NEWSPAPER.**  
DURING the year 1868 very important Sessions will be held at the Parliament of Ontario, and of the Dominion, and very interesting discussions will take place on subjects of the deepest interest to the Canadian people. The foundations of the New Government have been laid, but the superstructure will demand all the care of the people, and the public journals will necessarily be called upon to discuss at length many questions, upon the right settlement of which the future welfare of the country will depend.  
In all the matters which will be brought before the Legislature the "GLOBE" will take a deep interest, and both by  
**FULL REPORTS OF PARLIAMENTARY PROCEEDINGS**  
and by editorial discussions will strive to inform the public of the progress of events, and guide them to a right judgment on the points at issue.  
Early in the year 1868, THE DAILY GLOBE WILL BE VERY CONSIDERABLY ENLARGED, and will be printed on a Rotary Lighting Press, ordered from Messrs. Hoe & Co., of New York, capable of printing 10,000 impressions an hour. The outlay of this press about \$15,000 IN GOLD, has been rendered necessary by the large and increasing circulation of THE GLOBE. It has been for some time impossible to supply in time for the morning mails the number of copies called for by the public. The increase of size is rendered necessary by the pressure of advertisements, which have already caused the publication of a large supplement twice a week, and which will be continued as long as useful until the permanent enlargement takes place. At the same time as the enlargement, THE PAPER WILL BE PRINTED ON NEW TYPE.  
Early in the year we shall commence the publication of a NEW STORY BY WILKIE COLLINS, author of the "Woman in White".

**LET INFRINGERS BEWARE.**  
THE validity of the Patent, having been recently disputed by interested persons, after two days investigation in Chancery, his Lordship the Chancellor has given Judgment fully sustaining the claims of C. Powell, and speaking highly of the MERITS OF THE PUMP, and with just severity on the base and fraudulent conduct of the infringer, ordering him to pay the costs of the suit, and forbidding him to make the Pumps. The Patentee feels, that the sense of justice prevailing the community generally will be sufficient to prevent its giving countenance to spurious imitations whose conduct, the Chancellor says, is "a fraud on the Public."—S. Judgment.
