Table Customs of Abyssinia.—The guests take their bread and sauce and mix them together into a sort of paste, of which they make balls, long and rounded like small puddings. These they consider it polite to poke into the mouths of their neighbours; so that if you happen to be a distinguished character, or a stranger to whom they wish to pay attention, which was often his case. you are in a very disagreeable position; for your two neighbours, one each side, cram into your mouth these large and peppery proofs of their esteem so quickly one after the other, that long before you can chew and swallow the one you are obliged to make losing the skin of your mouth, lips, and throat, from the fiery effects of the pepper, you dare not ask for water, as that would be considered rude; and the mead is seldom served till the dinner is over .-- Hotlen's Abyssinia Described.

A DESPERATE LOVER ATTEMPTS TO SHOOT HIS LADY LOVE.—The London Advertiser says:-The steady going residents of the antiquated little town of St. Thomas have been thrown into a fever of excitement by an attempted tragedy brought about by des peration resulting from unrequitted love. It appears that a clerk in the dry goods store of Mr. A. C. Brown, named Beattie, had been paying his addresses to a daughter of Mr. I. V. Thompson, formerly lumber mer chant in this city, and that Mr. Thompson objected to his visits. The young lady quainted her lover with the facts, and de sired him to discontinue his attentions in short gave him the mitten. He declared he would not deny himself the pleasure of her company, and if she persisted in refusing 10 see him he would shoot her. Miss Thomp son's father hearing of the young man's threat, kept a strict watch upon the movements of his daughter, and on Sunday night last, as she was walking out. Beattie was observed to overtake her and enter into con versation. Mr. Thomps'n and Judge Hughes hastened up and seized him before he had time to do the young lady any seri ous injury-'even had he so intended-and upon searching him a loaded revolver was found in his possession. He was warned of the consequences of such rashness, and allowed to go. The following evening he called at Mr. Thompson's and asked to see Miss T. Her father, dreading to allow her to meet him, went out and seized the lovesmitten youth, and in his pocket again found a loaded revolver. Beattie declared his firm resolve to shoot the girl, so he was taken into custody, and on examination before Mayor Arkell, on Wednesday, was committed to gaol for trial. The affair causes great excitement in the town. The general belief is that Beattie is not in his proper mind. There seems to be little doubt of his fixed intention to take Miss Thompson's life.

Boots & Shoes Cheap At their New Store,

No. 90

Yonge Street, - - Toronto. FOR DRILL AND DRILLING.

NOR the information many of my fellowfarmers are asking for, respecting the Drill and Drilling, I can but give my individual opinion, ie the penny saved is a penny gained. Half bushel of wheat and other grain in proportion per acre is an item, and the seed is deposited directly into moisture; also, at a uniform depth, and covered consequently every seed germinates, grows, and matures alike, therefore I find it a protection against drought, &c. I have used a cultivator and drill combined, called the Farmer's Friend (which deposit the grain in a different position to cordinary Drills, not so condensed in the row) for two years, and feel satisfied of its advantages, and when all is considered and understood

concerning the drill, it must appear almost

without experiment, if properly managed a

great benefit to Canadian farmers, as well

as in England, and other countries where

all kinds of grain and seeds are drilled:

is a trial,

there is much to be said on the subject, but a few hints will do just now, the best proot Yours, &c., JAS. DUNTON.
