RICHMOND HILL, FEB. 21, 1868.
TORONTO UNIVERSITY.

We regret to find that there are indications of another attempt being made in parliament to create an agitation, with a view to strengthen sectarian institutions at the expense of our Provincial University. It will be the duty of every man, who feels interested in maintaining Toronto University and University College intact, to prepare to defend them from the assaults that are contemplated—it is only fair and just that our representatives in parliament should be given to understand that the people are not willing that the endowment of these institutions should be taken for sectarian purposes, even though it be education. We trust that Mr. McDonald and his colleagues will not be led into any mistake in regard to this University matter, it is a subject upon which strong feeling exists throughout the Province of Ontario, and the man who will openly declare himself at the polls as in favour of dissolution will be certain of defeat. We shall keep a close watch upon the movements of those who design to raise another agitation on this question, and shall do what we can to assist in defeating any attempt that may be made—irrespective of the quarter it comes from—to impair the usefulness of our Provincial University and College.

RICHMOND HILL MECHANICS INSTITUTE.
Under the auspices of the above society, the Rev. J. Bredin delivered an excellent lecture on 'Irish character,' on Friday evening last. The 'Irishman,' his origin, his originality, and other peculiarities were treated on with exceeding good taste by the Rev. gentleman, who evinced much tact and ability in the selection and arrangement of the many illustrations which were pressed into service in the denotation of his subject. The Hall was well filled by an attentive audience, who were evidently well pleased with the lecture. On motion of a member of the Institute a vote of thanks was unanimously given.

THE NEXT RE-UNION.—We beg leave to remind our readers, that the next Re-union of our popular Mechanics Institute, is to take place on Tuesday, the 25th inst., commencing at 8 p.m. We understand that several new Stars are to appear along with the old favorites; and so far as arrangements are completed, the entertainment promises to be more than equal to its famous predecessors. We advise our friends from a distance, who want to be both charmed and tickled, to put in an appearance. As for the public of the immediate neighbourhood, we suppose it will be 'Everybody and his wife,' as usual.

W. C. KEELE AND THE PREMIER.

The late 'Law Clerk' of our local legislature understands 'Provincial Justice' better than provincial politics; he appears to have 'put his foot in it' by becoming indignant and resigning; the most provoking part of the business is that the premier appears to be pleased at the result. Verily, whatever may be Mr. Keele's qualifications, he is but a tyro in politics!

LECTURE.—The Rev. Henry Webbe will deliver a lecture in the English Church here, on Wednesday evening next—the subject is 'London.' We hope Richmond Hill will put in an appearance that will meet the lecturer's expectations.

Not long since a savings bank in Memphis failed. A party of depositors followed the president through the streets and shot at him, while six others went to the house of the cashier with a rope intending to hang him, but did not find him at home.

LATEST FROM EUROPE.

London, Feb. 18.—The examination of prisoners arrested on suspicion of being connected with the Clerkenwell explosion, has terminated. All prisoners have been remanded to confinement, except Allen, against whom no evidence has been elicited, and has been discharged.

London, Feb. 18, evening.—Bulletins in regard to the condition of Lord Derby report he is improving.

Berlin, Feb. 18.—The Upper House of the Diet passed the convention made with the proposed Prussia, whose territories have been annexed to Prussia. The King engages to suspend all payments of money to the Princes, and to confiscate their property in case of disloyalty.

Paris, Feb. 18.—The *Mondeur du Soir* reports that there has been a stop in the advance of the British in Abyssinia and Gen. Napier is calling for reinforcements.

M. Maxeupier, agent and Consul-General at Cairo, Egypt, has been appointed Minister of Finance to Japan.

In the Corps Legislatif today an amendment to the bill for the regulation of the press, permitting free admission of foreign papers and unrestricted sale of French journals, was rejected.

Berlin, Feb. 18.—Count Von Bismarck proposes the establishment at the different ports of Germany of a Board of Federal officers, to examine into the condition of vessels bound to America. An effort to prevent the repetition of the *Leizitz* horror is the immediate cause of this salutary step on the part of the Government.

London, Feb. 18, evening.—In the House of Commons this evening, Sir Stafford Northcote, Secretary of State for India, said that at the request of the English Government the Pasha of Egypt had agreed to recall his auxiliary force from Abyssinia, and the reports which have since been received that Egyptians still remain in the country and were advancing with the British, have not yet been explained by the Government. The Secretary also stated that the expedition was no longer suffering from scarcity of water.

London, Feb. 18, midnight.—The House of Commons to-night in Committee of the Whole, agreed to renew the suspension of the privilege of the writ of *Habeas Corpus* Act in Ireland.

London, Feb. 19.—Allen, the Fenian prisoner who was discharged from custody yesterday, after being examined on the charge of causing the Clerkenwell explosion, was soon after rearrested and imprisoned on the charge of murder.

Berlin, Feb. 19.—In the Prussian house of deputies yesterday, the Government was asked to explain why the United States Consul at Jerusalem was allowed to procure the arrest of one Markus, a Jewish subject of Prussia, with whose ward, a young girl, the American Consul sought to elope; and why after her guardian had been thrown into prison, to facilitate the attempt, the Prussian Consul at Jerusalem refused his demand as a subject of the King of Prussia for protection. The case creates much feeling among the Jews, who regard it as involving rights and principles similar to those violated in the Mortara affair at Rome, and who represent that the outrage is an insult to Prussia. Baron Von Der Heydt, finance minister, replied the German Consul at Jerusalem was a Prussian representative, and first consequently the application for information must be made to the Chancellor of the North German Confederation.

ENGLAND AND MEXICO.
New York, Feb. 18.—The *Herald's* Washington telegram says, private advices from London state that the receipt of intelligence from Mexico, that the Government determined to repudiate all debts of foreign countries except the United States has given rise to intense indignation on the part of the English Government. The reason assigned by Mexico for the adoption of such a course is revenge upon the nations of Europe for the recognition of Maximilian. England however not having followed the rest of Europe in this hasty proceeding is consequently doubly affected by this new Mexican policy. The Government, it is said, is now seriously contemplating the fitting out of a fleet to take possession of the ports of Mexico and hold them until satisfaction is given. It is thought this can be done without infringement on the Monroe doctrine, as the expedition will not be permanent in its nature, and does not contemplate the acquisition of territory, but will be merely a species of reprisal against the Government, as an indemnification for debts due to British subjects. It is also understood that France has declined for the present to participate.

BRITISH COLUMBIA.
San Francisco, Feb. 15.—In consideration of the attempt of the English Government to unite British Columbia with the Dominion of Canada, resolutions were today introduced in the Legislature, stating that it is of the utmost importance to the Pacific States that the British Columbia be annexed to the United States, and that our Senators and Representatives be requested to urge the Government at Washington to use all honorable means to acquire said Territory, and that the Government be instructed to telegraph these resolutions to the President of the United States and the members of Congress from the Pacific States.

NEWS FROM AFRICA.
The *Herald's* *Suez* (Egypt) special says—'King Theodorus is at his camp near the palace of Magdala, where the English captives are confined. The Abyssinian Monarch is said to be in a bad strait in a Military point of view. An engagement between the two armies is imminent, and may take place at any moment. Very few of the disaffected native chiefs now acknowledge any fealty to Theodorus. The Chief Kassa, ruler of the Tigre district, openly took the favour of General Napier. General Napier fears that this chief, whose political character is bad, aims at making a secret attack on him and consequently seeks to arrange and perfect a binding treaty of alliance with him so as to hold him answerable for his future acts. Thirty-five thousand British troops have been landed at Zoula and an advance of the Queen's army has reached to within two days' march of Antallo, half way towards Magdala from the shore line, where it is very probable the expected battle will take place. The Egyptians with a contingent embracing many Turks, are very near Magdala; but they use no caution and still march on in a reckless manner without the sanction of the superior officers of the English army. The English in the interior number 20,000. The troops suffered considerably from the heat of the weather.'

MISCELLANEOUS.

Great distress exists among the agricultural population of Yorkshire.

A correspondent of the *Morning Post* says that the Prince of Wales rides a trifle over thirteen stone.

Lord Derby, according to some of the papers, is threatened with gout in the stomach, which is generally fatal.

The ex-King of Naples is said to have been reduced to the necessity of selling a portion of the Queen's diamonds.

More war material has been conveyed from Toulon to Civita Vecchia. This certainly forebodes a permanent French occupation.

Ottawa Lake in Michigan has a strange fashion of draining itself wholly away by a subterranean passage and then filling up again as mysteriously.

In California the tax upon Chinese miners of \$4 per month, it is said, has driven thousands from the places, and their departure has led to a decrease in the production of gold.

Two ingenious mechanics, in Bridgeport, Connecticut claim to have invented a machine for cutting files, which will cut one hundred a day, so fine and regularly as to defy criticism.

Some of the members of the new Bachelor Club in Lexington avenue, New York who became members because they could not 'afford to marry,' are said to have incomes of \$20,000 or \$30,000 a year.

A New York prophet predicts that this will be a fearful year for storms, inundations and earthquakes, and will be the most unfortunate ones who live under the line of the central attraction influences.'

Polgany is permitted among the Abyssinians, but as an expensive luxury, rarely practised. In the village of Senafe there are some sixty married men, but only three or four have more than one wife.

The Empress Charlotte.—Letters from Brussels say that it was only a few days back that the Empress Charlotte was informed of the death of her husband, Maximilian. She raised a loud cry, and then shed a flood of tears. Afterwards she said she had suspected the sad event, and had ordered mourning.

The Island of Java must be a pleasant place to live in. According to the latest official statistics published, 148 persons were devoured by tigers in one year; and in another the same fate befel 131 persons. The crocodiles during the same period ate about 50 people a year, and between 30 and 40 a year were killed by serpents.

The Memphis *Academy* announces that its editorial rooms will be temporarily moved to the county jail. The editor takes his revenge by styling Judge Hunter, who sentenced him for contempt, a 'swindling vagabond,' and announcing that he intends, 'with our editorial pinchers, to make the putrid flesh that covers the rotten bones of our persecutor quiver like a worm in hot ashes.'

FIRE AT WHITBY.—Whitby, Feb. 18. At 10 o'clock last night, the Glendhu Homestead, a fine brick building about two miles from Whitby, occupied by Mrs. John Dowd and family, and also John Thompson, was consumed by fire. Furniture mostly saved. Value of premises burned, about \$6,000, which there is insurance to the amount of \$2,000.

INSANITY AND SUICIDE.—Pendroke, Feb. 18. Yesterday afternoon, between four and five o'clock, the insane woman Weaver confined in goal here for the murder of her five children, hanged herself to the grate over the cell door, and when discovered was entirely lifeless. A few days since, one of her former neighbors, a German, visited her in the goal, and told her she was going to be hanged, and this, in connection with her other troubles, is supposed to have driven her to self destruction.

Deplorable accounts have been received at Paris from Cannes respecting Lord Brougham. He is represented to have lost the power of speech; he can only stammer, and he has been deprived of the use of his limbs. At the same time, his fine robust intellect survives this physical ruin, save at rare intervals, when it is manifest that his mind is wandering. The noble and learned lord was born on the 19th of September, 1778.

GOLD HUNTING.—The *Ottawa News* says: 'The people of Pakenham are getting up a joint stock company for the purpose of digging for gold. The farm of Mr. Daniel Keith, about two miles from the village, is the scene of operation. The villagers are sanguine of finding another Eldorado.'

The Annprior *Times* of the 7th inst., records the death of James F. Taylor, Esq., an old and respected resident, at the ripe age of 72 years. The deceased came to that locality when it was yet but partially reared from the wilderness. He held the office of Registrar for the District since its establishment; he was also Justice of the Peace for many years, and was widely known in every relation of life, public and private, for his sterling integrity.

HEAVY FIRE IN OSHAWA.—On Sunday morning, the 9th inst., Oshawa was visited with the largest fire from which it has suffered for many years. The fire broke out in the large finishing and warehouses of the E. Miall & Co's cabinet factory. The buildings burned were the finishing and warehouses and office of E. Miall & Co. The building was nearly new. It was insured in the Provincial, but only to the amount of \$600. There was nothing on the furniture and unfinished stock, but the quantity was said not to have been large, the most of the furniture having been removed to the new show rooms at the station. The principal books were saved. The double house belonging to the Hall estate, occupied by Messrs Daniel Drew and John Toot: upon this there was an insurance of \$200 in the Loyal and Liverpool and London. The most of the furniture of the occupants was saved, but damaged in the removal. They had no insurance. The brick house of Mr. Frank Taylor, occupied by Mr. Kerr, of the Ontario Bank. The walls still stand, but at least one must be taken down, as it is in a dangerous state. It was insured in the British American for \$800. Mr. Kerr also had an insurance of \$800 in the Provincial, on his furniture, a considerable portion of however, was saved. The house of Mrs. Meek was burned, and also her furniture and the furniture of Mr. Breeze, who occupies one portion of the house. Mrs. Meek's loss is fully covered by insurance.—*Victorian*.

The Toronto, Gray & Bruce Railway bill did not come up before the committee yesterday as expected, the Whitty and Port Perry bill taking precedence and occupying all the time. Mr. Brydges was present in committee, and although on being interrupted, he gave the weight of his opinion in favour of the broad gauge system; he said he was there simply as a spectator and not with a view of offering opposition to any particular charter. The Whitty & Port Perry bill passed through with the exception of the clause relating to gauge, the committee refusing just then to grant the privilege of a departure from the provincial gauge, as was asked for. The Toronto, Grey & Bruce bill will come up to day.

A New View of the ALABAMA CLAIMS. The *Pall Mall Gazette* publishes the following letter:—

'SIR.—In the discussions on the above subject I have had occasion to mention the following fact, which I think is worthy of notice: A very large amount of the destruction caused by the Alabama fell on and was paid for by London underwriters and insurance companies. Glasgow suffered somewhat, but Liverpool almost entirely escaped. The underwriters at Paris, Rotterdam, and Hamburg also contributed in respect of amounts insured with them. I am preparing a statement (which will be tolerably exact) of the amounts so paid, with the names of the ships, which I will send you in a future communication. Without in any way depreciating the loss which the famous cruiser undoubtedly caused to America, I think it should be borne in mind that the English and other European pockets shared the loss.

I am, sir, your obedient servant.
ARTHUR J. DUMAS.
Clapham Common.'

A COW THIRTY NINE DAYS WITHOUT FOOD ON WATER.—The *Whitty Chronicle* says:—Some two months ago Mr. Joseph Moore, of the village of Upton, was called to a sickly milk cow, and for days and weeks made search for her in every direction without success. A few days ago on going to the ice house, (which had not been entered since the cow was missed), what was his astonishment on discovering the missing animal—and still alive, after having been immersed without food or water for thirty-nine days! The story appears incredible to believe, nevertheless the facts are vouched for, and further the cow is still alive, and will in all probability recover from the effects of her long fast.

FRANK'S FIRST LECTURE IN CORK.—Train lectured to an enormous audience in Cork, on the 27th of January. He commenced by stating that he had sent invitations to the detective police of the city to attend. He went on to praise Ireland, referring, of course, with disapproval, to Mr. Roebuck's recent speech at Sheffield; and as a proof of Irish greatness, he recited a list of distinguished Irishmen. After this he called for reasons for 'Mr. Roebuck's slanders,' and the appeal was very heartily responded to. Mr. Train then spoke of himself. He said that he was born in Boston, which he characterized as one of the meanest places in America. He was sorry for that piece of ill fortune, and begged to apologize for it. His ancestors, however, were very distinguished people, and one of them had been second coach on the *Mayflower*. All the Americans who had come here, he said—Mr. Everett, Mr. Bancroft, and Mr. Adams—were bottled up, on getting to London, by Lord Russell and Mr. Gladstone. As suming that he should get the £100,000 he claims as damages from the British Government, he said he would give it all for a single hour to speak for Ireland in the British Parliament. He concluded amid immense cheering, and afterwards bore away in triumph on the shoulders of some of his admirers. On the following evening Mr. Train lectured on Female Suffrage.

NINETEEN FENIAN SYMPATHISERS CASHERED FOR THE POPE'S SERVICE.—The Roman correspondent of the *London Weekly Register*, a Roman Catholic organ, of January 4th gives the following remarkable statement of the dismissal of Fenian sympathisers from the Pope's service:—'I am sorry to have to close with what will give every lover of the good cause. But the truth may better be told as once, lest it may later have difficulty in appearing, when a false color has been given it, and prejudices awakened against it. For it is no unenviable matter; and what I have to chronicle will contain both a warning and advice. Corporal Shea conducted nineteen Irishmen yesterday to the station en route for the pines they came from. Five of these were men who left Glasgow after and in no connection with Gordon's party, and made their way here without bringing any recommendation whatever, and their conduct since their arrival has not been such as to justify any supposal that they deserved any. Their misdemeanors, frequent during the few weeks of their stay, culminated on the day of the review, when they instigated some of their brethren to join in a Fenian demonstration, which was to begin in the morning by attending a mass at some church in the Corso, got up by a Fenian resident here for the repose of the three men executed at Manchester, and to conclude by a display of ribbons and other proceedings to be gone through on the Piazza of St. Peter's during the distribution of military rewards. The Colonel got the hear of it, and on the very morning sent an order round to all the barracks that all the Irish were to be compelled to keep the houses all day. Mutilation and dissection followed, but the Pope's government were firm; the civilian who attends a well known book shop on the place of Spain was ordered to quit the city for promoting disaffection among the troops and the chief grumblers availed themselves of the permission, sent round by Dr. Charette, that those who wished to return home could sign their names and depart. They all belong to a party of sixty men, who came home out from Scotland a few weeks after Gordon's.'
