The York Herald. RICHMOND HILL, JUNE 11, 1869.

Don't forget to secure a copy of the Political Correspondence, between T.M. and the Rev. John Bredin, now published in pamphlet form and for sale at the Herald book store. Price 15 cents.

"HARD TIMES: THE CAUSE—THE CONSEQUENCE—THE CURE."

"A paper currently, perfectly secured, and above suspicion, is as much a condition of good and impartial government as is the great principle of equal justice to the poor man as to the rich."—Hon. Isaac Buchanan.

In the month of April last, an article headed "Hard times, the cause, the consequence, the cure," went the rounds of the press: it contained some startling truths—revealing facts which, however unpalatable, cannot be denied. The writer of the article referred to, is a member of the well-known Commercial Agency of Dun, Wiman, & Co.; we consider him good authority on commercial questions, and have no doubt, but when he penned that article, he wrote "by the way," when we reflect upon the fact, that farmers are receiving 98 cents for Fall wheat, and 95 cents for Spring; we contrast these prices with those of this time last year, and find Fall wheat \$1.50—Spring wheat \$1.40; on the top of this great falling off in prices of the staple products of the country, comes the suspension of the Royal Canadian Bank; it becomes every man once more to enquire "whither are we drifting?"

Dun, Wiman, & Co. assert that "beyond all question, the primary cause of the difficulties under which the trade of the country is now labouring, will be found in the enormously increased importations of goods." This is a fact, beyond dispute; and is one of the evils arising out of the much-talked-of "expansion" of our banking system. Owing to the absence of any control over the circulation of bank paper currency, the importer obtains excessive accommodation; he purchases as largely as he can in the English and French markets; he induces country customers to purchase freely; the country store-keeper, in his turn, induces the farmer, and particularly his wife and daughters to buy the "latest fashions" which have "just arrived." The consequence is, frequently, that a large store bill is run up, the bulk of which is comprised of "fancy goods." A season of short crops come on; and, perhaps, exceedingly low prices, as at present, and hence follow hard times for all round. The farmer must sell at low prices to pay his store bill, but finds he has a short crop. The store-keeper must be satisfied if half the account is paid this year, and the balance lay over. The importer must, in turn, have patience on his customer. Drafts upon the importer must be honored, and and the banks—in consequence of an inflated circulation—are in a position to help their customers to stave off the pressure for a season, with a view to farmers having better crops and higher prices. Our readers, at least some of them, may say "well, what of all this, who is the loser?" We reply, the farmer, the mechanic, and the labourer—in fact, consumers. This commercial circulo-

more store bills, but pay as they went on; pay their blacksmith, their shoemaker and all others the moment their work was done, they could get what they required much cheaper; the shoemaker could purchase his leather cheaper; the blacksmith could buy his stock of iron to afford to sell much cheaper for ready pay, because he could buy from the importer on better terms when he could pay cash down for his stock; in fact, all would find it to their advantage, but more particularly the consumer. "If the Canadian Farmer is right, Canada is right," is a principle laid down by the Hon. Isaac Buchanan, and we believe in his theory.

There is a constant drain upon the industry of this country by these excessive importations; which are several millions of dollars annually in excess of the amount of our exports—this excess has to be paid in cash—which is so much money expended for luxuries and fine clothes that might be done without. The true cause of all our difficulties, in our opinion, is the present banking system, with its uncontrolled power of inflation, or—as bankers prefer to term it—"expansion"! some of which have expanded a little too much. The more we reflect upon this vital question, the more we are satisfied of the absolute necessity for Government to see to it that our banks are compelled to keep their circulation within the bounds of their legitimate means, and insure the public in a certain and safe currency, sufficient to meet the reasonable wants of the country, but not such as will encourage extravagance, and bring about general bankruptcy.

TORONTO & NIPISSING RAILWAY. A large and influential meeting of the friends of the above undertaking was held at Markham Village, on Saturday last, in Wooten's large hall. This meeting was called for the purpose of giving the freeholders in the neighborhood an opportunity of taking up stock in the enterprise, and to receive a deputation of the Provisional Directors of the Railway. James Robinson, Esq., Reeve of the Township, was called to the chair. After several of the members of the Deputation had explained the very encouraging position of this Railway scheme, it was announced that the required stock had been taken up for the first section of the road, but that fact need not deter the people from subscribing for stock. Several of the inhabitants of the village addressed the assembly, and showed their good will to the enterprise by taking stock to the amount of \$4,100—making the amount of stock taken up on Saturday evening, in all, \$156,000. A committee was appointed to canvass the Township so as to secure as many stockholders as possible from the country. The Provisional Directors of the Road have despatched a telegram to Sir Charles Fox, & Son, engineers, requesting one of the firm to come from England and make arrangements for the construction of the Road immediately, so that before many weeks have expired, we may expect the Narrow Gauge line through this fine section to be commenced.

MARKHAM COUNCIL. Met at Unionville, on the 5th inst., as a Court of Revision. Members all present. Reeve in the chair. An appeal of overcharge on personal property was taken up and disposed of, when the Assessment Rolls were passed as finally revised and corrected, and the court adjourned. The Council then proceeded to general business. Minutes of last meeting were read and confirmed. PETITION. By Mr. Button, from Mr. Lapp and others, praying for a grant to build a Bridge in front of lot No. 2, in the 10th concession.

Petition received and read. Mr. Padget, seconded by Mr. Lane, moves that the sum of \$8 be granted to Thomas Trann, to purchase a road shovel, in road division No. 32.—Carried. Mr. Lane, seconded by Mr. Milliken, moves that the sum of \$5 be paid to Thomas Martin, an indigent person—said sum payable to the order of David Eyer, Jr.—Carried. Mr. Button, seconded by Mr. Milliken, moves that the name of David Burk be inserted as Road overseer, for Division No. 62, in place of John Hamilton, who has left the Municipality.—Carried. Mr. Button, seconded by Mr. Milliken, moves that the sum of \$20 be granted to erect a culvert on the 10th concession, opposite lot No. 2, and that David Lapp, David Whaley and John Milroy, be commissioners to expend the same—said sum payable to the order of the mover.—Carried. Mr. Lane, seconded by Mr. Padget, moves that the sum of \$3 be paid to Wm. Cerech, for making a coffin for George Loughbottom, a pauper.—Carried. Mr. Robinson, seconded by Mr. Padget, moves that the sum of \$12 be granted to build a Bridge on side line between lots 30 and 31, in the 5th concession—said sum payable to the order of Thomas Demison, Road overseer of that Division.—Carried.

Mr. Robinson, seconded by Mr. Padget, moves that the sum of \$40 be granted to erect Bridges in Road Division No. 21, and that George Forrester, Wm. Doynton, Jun., Benjamin McDonald and John Doner be commissioners to expend the same—said sum to be payable on the order of the commissioners.—Carried. Mr. Button, seconded by Mr. Padget, moves that the sum of \$30 be granted in the 7th concession, for repairing Bridges, &c., and that John Eckardt, Edward Eckardt, James Eckardt and Robert Armstrong, Sen. be commissioners to expend the same—said sum payable to the order of the commissioners.—Carried. Mr. Button, seconded by Mr. Lane, moves that the sum of \$30 be granted on the Town line, in the village of Stouffville, providing that Whitechurch grant a like sum, and that Richard Knill, Thomas Shaw and Calvin Yake be commissioners to expend the same—said sum payable to the order of the mover.—Carried. Mr. Milliken, seconded by Mr. Padget, moves that the sum of \$100 be granted towards improving the side road between lots No. 10 and 11, in the 6th concession, and that John Eckardt, Edward Eckardt, James Eckardt and the mover be commissioners to expend the same.—Carried. The Council then adjourned to meet at the call of the Reeve.

Correspondence.

PATERSON, JUNE 1st, 1869. To the Editor of the York Herald.

DEAR SIR,—At a regular communication of the Vaughan Lodge of Free Masons held at Maple, May 25th, 1869, the enclosed resolutions of condolence and sympathy were unanimously adopted. By giving them a place in the columns of the York Herald, you will confer a favor upon Yours, respectfully, H. Hurst. Secretary.

"WHEREAS, Almighty God, in his providence, has been pleased to remove, by death, from among us, our much esteemed and very worthy brother, J. Eaton Davis, Worshipful Master of this Lodge; therefore

"RESOLVED—That, while we deeply deplore the loss of our Lodge, we sustain, by being thus deprived of the wisdom and counsel of its chief head, the presiding Officer—we bow with that reverence and humility, to the will of our Heavenly Father, that is due from the creature to his Creator.

"RESOLVED—That, in his death, this—his mother Lodge—has been bereft of one of its most active, zealous and consistent members. The Fraternal mind of a Brother, whose example was every such as to command the highest respect and confidence of his Fellows, and well worthy their imitation; gentlemanly and virtuous in his intercourse with those who were not Masons, his influence was widely felt, and his untold prejudices which the uninitiated so generally entertain for our ancient and time-honored Institution.

"RESOLVED—That, while we are not ungrateful of the extent of our afflictions, we trust the remembrance of his many virtues will remain ever green in our hearts, prompting us to a faithful discharge of the various duties and obligations we owe to God—the supreme governor of the universe—to our fellow men and to ourselves.

"RESOLVED—That, while we commingle our tears over the loss of a departed brother, we tender our united and heart-felt sympathies to her, who, by the dispensation of Divine Providence, is bereft of a kind, affectionate and devoted husband; and would invoke, in her behalf, the tender compassion and protection of Him, who is our Father of the fatherless and the widower's God." And

"RESOLVED—That the Family who are thus called to mourn the loss of an obedient, dutiful son, a fond and much loved brother, in whom centered so many bright hopes and happy anticipations, are entitled to our sincere condolence and sympathy; and, while we would not trespass upon the sanctity of their grief, for consolation, would commend them to His merciful and compassionate Father in mercy; and will not break the bruised reed."

LATEST FROM EUROPE. FLORENCE, June 8.—There have been some quite serious disturbances at Carniola hence the papers are full of complaints in mercy; and will not break the bruised reed."

MADRID, June 8.—It is reported that the Duke of Genoa is now the prominent candidate for the Spanish throne.

BERLIN, June 8.—King William and Count Bismarck will go to Bremen on a visit on the 10th inst.

It is said that the Austrian Government have refused to receive the matter of the neutrality of the Swiss Cantons without the advice and co-operation of France.

LONDON, June 8.—The Regency Bill was read for the first time in the Constituent Cortes yesterday.

LONDON, June 7.—Letters from Paris state that strong pressure is brought to bear in undecided elections, to prevent the return of Opposition candidates. The contest between their allies, and between Favre and Henri Rochefort are regarded with much interest. The Emperor, it is asserted, views the probable election of Rochefort as a personal if not deadly insult. The ultimate result of the elections, and their effect on the Government are regarded with great curiosity, for it is fully alive to the difficulties it will meet in the future.

LONDON, June 9.—The Archbishop of Canterbury has counselled the Bishops in the House of Lords not to oppose the Irish Church Bill. A banquet was given tonight to the deputation from Ireland, now in this city bearing their petition against the Irish Church Bill. Many Tory Peers and clerical members of the Established Church were present. It is said that 25 Conservative Peers will declare to follow the policy of rejection announced by the majority at their meeting last Saturday, and a defection of others is probable.

VIENNA, June 9.—The project for a Regency was debated at great length in the Cortes yesterday, and at last referred to an appropriate committee. During the discussion, Senor Oleazza, in reply to a question, stated that the election of a King at the present time was impossible.

VIENNA, June 9.—It is reported that a treaty has been concluded by the Commission appointed by the Turkish and Persian Governments to arrange a boundary between the two countries.

MADRID, June 9.—General Cabellero de Rodas will sail for Havana to-morrow on the steamer San Antonio. He will stop at Porto Rico on his way to Cuba. The want of harmony in the present ministry is becoming more and more apparent, and a change is expected.

MISCELLANEOUS ITEMS

Everybody uses or should use Dr. Colby's Pills. LAST Sunday week a large quantity of snow was exposed to view at Bolton, County Brome, in a ravine where it had drifted last winter to a depth of 40 feet. It was from these depths of snow that the flood came down upon Granby.

The railroad fare for the entire distance from New York, or Boston, to San Francisco, is now nearly \$200; meals and sleeping charges amount to about \$30 more. Another year, at least, will reduce the sum of the trip as low as \$150.

The Baron De Camin while driving over a bridge near Kilmory in the Township of Vaughan, was violently thrown from his gig and received a severe fracture of the collar bone. The Baroness who was with him had a narrow escape but was not injured. The Baron was taken to Kilmory in an insensible condition, but is now doing well. The cause of the accident was the washing away of some planks by the spring freshets.

HAMILTON, June 8.—A little before 11 o'clock, a fire broke out in Messrs. Magill's hardware store, King street. The firemen were quickly on the spot; but so rapid was the spread of the flames that the whole interior was past saving. Before the water was turned on, several explosions of powder and cartridge ammunition took place. The fire burned with extraordinary fierceness, and the contest between it and the firemen, and the volume of water thrown from the hydrants was something the like of which has not probably been seen in Hamilton before. The word was in everybody's mouth "What would have happened if we had not the water-works?" The premises were, of course, completely gutted; and the fire spread into the adjoining store eastward, lately occupied by Mr. Smith, merchant tailor. It only touched the top store, however, having caught from the roof. The fire came through the hardware store premises to Hughson St. and the goods of Mr. Adam, plumber, and of Messrs. Hutton & Wood, tailors, were removed, doubtless with much loss and damage, though it does not appear that the fire actually seized upon these premises. The night has been perfectly still; and but for this catastrophe, most have been still sleeping.

The quantity of water thrown into the fire around the area of the fire was extraordinary. Nothing like as much water has ever been thrown on any fire in Hamilton before. The water triumphed at last, however, and it is fairly considered that the efficiency of the water-works has been proved by a very severe test. I have no information as to insurance.

TORONTO MARKETS. Toronto, June 10, 1869. Flour, 77 barrel, \$3.90 @ 4.25 Wheat, 35 bush, .0.35 @ 0.38 Spring Wheat, 35 bush, .0.30 @ 0.34 Barley, 35 bush, .0.80 @ 0.85 Oats, do, .0.74 @ 0.73 Hay, 100 tons, .3.00 @ 3.40 Butter, 100 lb., .0.15 @ 0.16 Pork mess 100 lb., .24.00 @ 25.00 Wool 100 lb., .0.30 @ 0.32
