

LATEST FROM EUROPE.

LONDON, Sept. 21.—The Governments of England and France have, after diplomatic consultation, come to the conclusion that the status quo of Government and Executive relations existing between Turkey and Egypt must be maintained.

The Paris correspondent of the Times writes as follows: "The note of the American Minister to the Spanish Government, in regard to Cuba, varies both in its tone and conclusions from the diplomatic communications between the Spanish Minister at Washington and the Government of the United States."

A letter from a Madrid correspondent to the Standard says, Gen. Sickle's note, intimates that the Government at Washington might, under the force of public opinion, be compelled to recognize the Cuban insurgents.

The Pall Mall Gazette reviews the idea of the Chinese policy put forth by Mr. Browne, late American Minister to China. It says the sum of his argument is the opening of new markets to Christian traders.

A PERSECUTED MAN.

An immense concourse of people assembled at the Cornwall Wharf on Sunday last, in order to escort the Mayor up to his residence (Sunday being the only day for the present that Dr. Allen could, with safety avoid the warrant in the hands of the Sheriff, as no arrest can be made on that day according to law) and afterwards to enter one thousand names in the Cornwall Hall to hear some explanations from Dr. Allen, who for two hours and upwards, addressed the audience.

OUR ASSESSORS.

As our country progresses in wealth and intelligence, it becomes necessary that care should be taken in the selection of Township Assessors. The necessity for this suggestion has frequently occurred to us on looking over and comparing the various statistics of the County, as contained in the yearly statements published by the council.

By this table, we regret to find that the Township of Vaughan is making retrograde strides in wealth, as well as in area; how this comes to pass is what our Township Fathers should enquire into.

Table with 4 columns: Year, Value, Acres Assessed, and Taxable. Data for years 1862-1868.

NEURALGIA.—If your nerves seem to snap and crack, jerk and jump, and play all sorts of pranks, from the top of your head to the tips of your toes, now shooting forth like lightning along one unfortunate nerve, and now trying to tie another into a thousand knots, then attempting to make a bowstring of another, sometimes in the region of the heart, again in the face, head, neck, &c.; in short, if you have neuralgia in its worst form, with all the agony distilled to its most excruciating degree, use Dr. J. Briggs' All-veinor, and in a trice, your neuralgia, with all its demons has departed, and once again you will know how to live without it.

Dr. J. Briggs has established a branch office at No. 6 King Street, West, Toronto. His wonderful remedy for corns, bunions, ingrowing nails, &c. The Modern Curative, is sold by druggists and country merchants.

SIR FRANCIS HINCKES.

We confess we were taken by agreeable surprise, when we read in the columns of the Toronto Telegraph—a short time ago, but before any other paper gave the slightest intimation of what was in the wind—that it was probable that Sir Francis Hincks would take office under Sir John A. McDonald, as Finance Minister.

THE BRADFORD ABORTION CASE.

Our readers will, no doubt, remember that we noticed this melancholy case some weeks ago. At that time, there appeared to be a similar failure of justice to that which we witnessed here, about eighteen months since.

We copy the proceedings of the Magistrate's court, from the Bradford News of the 16th September:

"On Monday afternoon last, the following information was laid before A. Campbell, Esq., J.P., of this village, and a warrant was issued and the person named therein arrested, and brought before Messrs. Campbell and Boddy, J.P.s, when bail to the amount of \$1000—himself \$500, and two securities in \$250 each—was taken for his appearance."

"The information of Elizabeth McBrien of the village of Bradford, in the County of Simcoe, married, taken upon oath, before me, the undersigned, one of Her Majesty's Justices of the Peace, in and for the said County of Simcoe, the 13th day of September, in the year of our Lord, 1869, who saith that Angus Sutherland, of the Township of West Gullibility, farmer, did some time in the month of January, February or March, in the year of our Lord, 1869, procure an abortion upon the person of one Jane McBrien, formerly of the village of Bradford, but now dead, contrary to the form of the statute made and provided."

"On Tuesday evening the Court again met, Messrs. Parker, Campbell, Boddy and Manning, Justices of the Peace, sitting on the case."

"Mr. McLean appeared for the plaintiff, and Mr. J. McL. Stevenson for the defendant."

"Mr. Scanton applied to have the case postponed until the 21st inst., stating that his witness lived at such a distance that he would be unable to procure them before that time."

"The Magistrate after due consideration, postponed the proceedings until Tuesday evening, 21st inst., at half past seven o'clock. The bail, not being considered sufficient, was enlarged to \$2000; A. Sutherland in \$1000, and two securities of \$500 each. B. Sutherland, Esq., and Mr. D. Small, became his bondsmen."

MARKHAM COUNCIL.

The above Council met at Size's Hotel, Unionville, on Saturday the 11th inst. Members all present. Reeve in the chair.

Mr. Lane, seconded by Mr. Padget, moved that the sum of \$20 be granted to repair the hill at the German Mills Creek, on the township between the townships of Markham and York, provided the Municipality of York grant an equal sum, and that W. Mr. Lane introduced a by-law, which received the three several readings and passed, authorizing the municipality to levy and collect \$2,500 for general township purposes, and \$4,617.34 for county purposes, for the year ending December 31st, 1869.

A desultory conversation occurred relative to the Reeve signing the Toronto and Nipissing debentures. It was finally decided to let the matter lay over until the deputation from the Company should meet with the Council Board on the 15th inst.

Mr. Buton, seconded by Mr. Milliken, moved that the Reeve be and is hereby instructed to return the bond of the provisional directors of the Toronto and Nipissing Railway Company; the Council having received a duplicate bond from the present board of said Company.—Carried.

AMBITION.

To the Editor of the York Herald.

How widely men differ in the cultivation of this talent? Some have more ambition than common sense, and will sacrifice every other virtuous principle to satiate their thirst for fame and power; others will live an upright career, with one grand object in view, until they attain it—still their ambition does not stop there—very soon some other object or position in society presents itself, which must be obtained before tranquility of mind is restored.

Ambition has been a remarkable talent among the employees at the Patterson Agricultural Works ever since their establishment. Some have worked there—aspiring to be Ministers of the Gospel; some to join in the mercantile business of our country; while others have sought after the hand of an heiress and obtained the object of their aspiration. But aspirants have not ceased coming yet, as the following will show: a discussion arose among a party of workmen, as to how he would act if he were made king. Some, by their arguments, showed they would make cruel tyrants; while others seemed disposed to show fair play. There was one person among them, which, with more earnestness than nonsense in his face, attracted my attention: says he, "Look here, gentlemen, if I were king, my ambition would extend thus far, to have the power of banishing all hens from my kingdom: for if I were to see any of my subjects hens pecking another's Tomatoes; I would consider it foul play, and banish them accordingly. I would raise the d— with them. What a noble ambition!

Yours, etc., PATTERSON, Sep. 20, 1869.

THE "LOCAL" begs to tender an expression of his gratitude to Dr. Briggs, the Chiroprapist, for having relieved him of a corn, which people in a crowd had an ugly habit of treating upon. It was of no use whatever, except as a natural barometer, for it always made vigorous leaping before a storm. On this account it may be missed, but its absence will not be regretted. The operation was quick, painless, and was not succeeded by any inconvenience. All who are corned, not in the head but in the feet, will find that Dr. Briggs is the man for their money.—Guelph Mercury.

With the issue of the Northern Light, our friend, the Expositor, has ceased—and transferred its interest to its successor. We can hardly form our opinion as to what politics our new confere will advocate, but the public are assured that the following principles will be strictly adhered to:

"1st. Allegiance to the British Throne.

"2nd. The Confederation of all British North America.

"3rd. The encouragement of Immigration by Free Grants of Land to Actual Settlers; and a most liberal Land Policy.

"4th. The development of the country by Parliamentary grants of lands and money towards the construction of Railways and Canals."

GENEVICE, Sept. 20.—The trial of Nicholas Melady and Jas. Kehoe, for the murder of the father and step-daughter of the former was concluded late on Friday evening. The jury in Nicholas Melady's case after an absence of eight hours, returned a verdict of "guilty," and the prisoner was sentenced to be hanged on the 7th December. Thos. Donohoe, who was indicted with Melady, became a witness for the Crown. Kehoe was tried during the absence of Melady's jury, and found "not guilty." Donohoe was called for the defence in this case. The prisoner Melady received his sentence without any visible emotion. C. Robinson, Q. C., acted for the Crown, and Messrs. Doyle and Squier, and R. A. Harrison, Q. C., for the prisoners.—Globe.

A WRITER in the Times, who has, at all events, studied the statistics of the question, states his belief, founded on experiments, that the wheat yield this year will be about the average, but 27 bushels to the acre all round, good and bad land included. Last year there were 3,700,000 acres under wheat, and if the quantity has not been greatly altered the yield of the year will be 12,487,000 quarters. The people, however, require 5½ bushels a head a year, and as their number will this year be 31,000,000, they will want 21½ million quarters. Add to this 1,000,000 quarters for seed, at 2½ bushels to the acre, and we shall want 93 million quarters from abroad, costing us at the very least £19,000,000, and more probably £21,500,000. In fact we buy half the corn we eat, and as population increases, while land is limited, the proportion will become greater. If permanent peace were certain, or if the English speaking peoples were so united as to rule the ocean, it would pay us to turn the United Kingdom into a vast grazing farm, and grow no corn at all.

LADY Palmerston, widow of the late Lord Palmerston, died on Sept. 11th, aged 83. She was the daughter of the Hon. TREATMENT DEATH.—I never have heard a more striking instance of strong men "dying hard" than one that is given in last night's papers. A well known wrestler and athlete of Avignon, bearing the illustrious name of Meissonnier, caught, a few weeks ago, his death illness by carrying a little girl across a swollen ford, which she was obliged to traverse in order to take to her father his dinner. This was performed in the most hurried way. Meissonnier, seeing the child, who was to him an utter stranger, trembling and weeping on the brink, said to her, "Take heart, little one, I'll serve as a ferry for you." Swinging her on his shoulder, he carried her over. On returning to the side whence he started, he slipped, and was thoroughly submerged. A cold, which led to a virulent fever, was the result. As his end approached, Meissonnier literally struggled with the malady, and his last words were, "Oh, Death, if you were a man who should work I'd make of you!"—Correspond. Daily News.

FIRE.—Between 9 and 10 o'clock on Tuesday morning, a fire broke out on Lumley st., owned by Mr. James Finnigan and tenanted by his father-in-law, Mr. Robertson. Sufficient time elapsed before the engines arrived to permit of the total destruction of the building and the one adjoining it, which was also the property of Mr. Finnigan, and occupied by one Mrs. Kingston, whose husband is at present in gaol for assaulting and robbing Robertson. The cottages had been bought by Mr. Finnigan, from Mr. James Moffatt, to whom he still owes a considerable balance on the purchase, pending the payment of which Mr. Moffatt held a policy for \$400 upon the houses in the Western Insurance Company, which, we are informed, is the only insurance on the buildings or furniture. Mrs. Kingston, who is known to the police as a violent and disorderly character, was arrested upon suspicion of having fired the premises; but she alleges that the fire must have originated from an adjoining hay-rick, which was set fire to last night and quietly extinguished. The matter will no doubt be thoroughly investigated, Mrs. Kingston being lodged in No. 3 Police Station in the meantime.

BIANCONI ON THE IRISH LAND QUESTION.—The special correspondent of the London Times in Ireland says:—"Being at Cashel, I have been induced to visit the well-known Charles Bianconi, the successful founder of the 'public cars,' which for forty years were the chief vehicles for cheap passenger traffic in Ireland. I wished to see a personage on whose great experience of Irish character and energy and skill it would be unnecessary for me to dwell, and who I hoped would give me valuable information. Mr. Bianconi, who has been a large landed proprietor during many years, and who lives at a handsome place near Cashel, enjoying in a still green old age the ample reward of an honorable career, explained his mode of managing his own estate, and made some striking remarks on the general question. Mr. Bianconi gave me a remarkable instance of what he had found to have been the effect of merely substituting a durable for a precarious tenure, of enlarging tenancies at will into leaseholds. In 1855 he purchased two lots of the Portharlington estate. The rental of the lands was £205; they were held 'by tenants-at-will, who formed a lazy and beggary population,' and the rents were in ordinary seasons in arrear. Mr. Bianconi increased the rental to £473; but he gave the occupiers leases for 31 years, and the result has been that, without the expenditure of a shilling upon the part of the landlord, except in the repair of farmsteads, the higher rent has always been paid, 'and the tenants are now a contented yeomanry.' This seems astonishing; but, after all, only illustrates the truth that security is the first condition of social progress; that as Arthur Young remarked 93 years ago, 'the having leases creates industry in Ireland; and that, give him a fair field and a certain title, the Irish tenant can accomplish wonders.' Mr. Bianconi thinks that the land question which have never arisen had the Irish landlords improved their estates wholly at their own cost, and been liberal in giving leases.

SCHOOL REQUISITES. OF ALL KINDS, AT THE HERALD BOOK STORE.

Pure Wheat and no Humbug!

FARMERS! FARMERS!! ATTEND TO your own interests; bid good bye to Midge proof, Treadwell, and Kentucky, and secure the best variety of wheat for your seed, and the best, undoubtedly, is the kind known as the DEERH WHEAT.

Both for quality and productiveness. Why grow kinds of wheat which will at best only produce 20 or 25 bushels per acre? when you may, with the same labor and care, have that which will yield between 4 and 50 bushels per acre.

The subscriber, on the 26th day of August, threshed the wheat grown on 2 and 1-16 acres; and the product by measurement—no guess work—was 95 bushels, or over 45 bushels per acre, and this was grown in a field which has been cropped 11 years without the application of one single forkful of manure.

Who can test this? The subscriber also has the crop of 5 acres of this kind of wheat set; so that those who wish to obtain this variety will send in their orders in time—it will be on hand in time for sowing this fall. A limited quantity on hand at present.

The above crop was sown between the 10th and 15th of September, 1868. There is neither Chalk, Coakle or Thistle seed in it. PRICE PER BUSHEL, REASONABLE. Address, JOSEPH KEFFER, Carville P. O., Ont. Residence—Lot 14, 3rd con. Vaughan, August 28th, 1869. 581-3
