## Poetry.

### THE PRINTER'S TOIL.

Blow, ye stormy winds of winter,
Drive the chilly, drifting snow,
Closely housed, the busy printer
Heeds not how the winds may blow.

Click, click, his type go dropping,
Here and there upon his case,
As he stands for hours popping
Every letter in its place.

Heaven send the useful printer
Every comfort mortals need,
For our nights were dull in winter
Had we not the news to read.

Sad would be the world's condition,
If no printer boys were found;
Ignorance and superstition,,
Sin and suffering would abound.

Yea, it is the busy printer
Rolls the car of knowledge on,
And a gloomy mental winter
Soon would reign if he were gone.

Money's useful, yet the winters
Fill not half so high a place
As the busy, toiling printers,
Fingering type before the case.

Yet while the type they're busy setting,
Oft some thankless popinjay,
Leaves the country, kindly letting
Printers whistle for their pay,

Oh! ingratitude ungracious!
Are there on enlightened soil—
Men with minds so incapacious
As to slight the printer's toil?

See him! how extremely busy,
Fingering type before the case,
Toiling, till he's almost dizzy,
To exalt the human race.

### ODDS AND ENDS.

THERE is a paper in Madrid 175 years old.

MAN is like a potato, never sure when he will get "into hot water."

WHY is the road of transgressors so hard? Because it is so much travelled.

CHARLES Kean said a bad horse was like a poor play—it can't run, and won't draw.

WHY are hogs the most intelligent animals in the country? Because they *nose* every thing.

GIRLS of a marriageable age need so little courting now-a-days that they may be classed as readymade articles.

WHY are babies like stars? Because "there is no speech nor language where their voice is not heard."

PILES.—Use Dr. J. Briggs' Pile Remedy for internal, external, bleeding and itching Piles. It gives immediate relief and is reliable. Sold by druggists. 582Q

My first is what lies at the door; my second is a kind of corn; my third is what nobody can do without; and my whole is one of the United States. Mat-ri-mony.

"WHY did Joseph's brethern cast him into a pit?" asked a school teacher of his class "Because," said a young lady, "they thought it a good opening for a young man."

ADDING INSULT TO INJURY.—A young lady, being charged by a gentleman with having trifled with his feelings, very funnily, as she thought, exclaimed, "Well I plead jilty."

"WHAT are wages here?" asked a laborer of a boy. "I don't know." "What does your father get every Saturday night?" "Get?" said the boy, "Why, he gets as tight as a brick."

WHAT IS A MAN?—The man whom I call deserving the name is one whose thoughts and exertions are for others rather than himself—whose high purpose is adopted on just principles, and never abandoned while heaven or earth affords means of accomplishing it. He is one who will neither seek an indirect advantage by a spacious road, nor take an evil path to gain a real good purpose. Such a man were one for whom a woman's heart should beat constantly while he breathes, and break when he dies.—*Sir Walter Scott.*

TIT FOR TAT.—Dr. M'Knight, of Edinburgh, when minister of a country parish, was asked by the parish blacksmith for the loan of a theological work. The doctor, who was afraid of finger-marks on his expensive volume, stated that he never lent books out of the house, but that the smith was welcome to come to the manse and read it there. Shortly after, the Rev. Doctor was about to proceed to a neighboring parish to officiate for the incumbent, when it was discovered that the key of the stable was missing. The doctor sent for the blacksmith to force open the door, but received the reply that he was welcome to the use of his tools in the smithy, but that he never lent them out of his house.

POVERTY.—Alas! and alas! poverty, has no heavier evil in its train than its power of perverting the fairest gift of our nature from their true channel, making the bright sides of our character appear dark, gloomy, and repulsive. Thus the high souled pride that, in our better days, sustains and keeps us far above the reach of sordid thoughts and unworthy actions, becomes, in the darker hour of our destiny, a misanthrope selfishness, in which we wrap ourselves, as in a mantle. The caresses of friendship, the warm affections of domestic love cannot penetrate through this; even sympathy becomes suspected, and then comes that terible struggle against the world whose only termination is a broken heart.

### HOW TO ADVERTISE.

THE *Inside Track*, says some good things in the following articles which may be of practical value to some of our readers:

An advertisement is not always valuable in proportion to the space it occupies.

A short advertisement four times is better than a very long one once. "Brag is a good dog, but Hold-fast is a better."

A prominent advertisement once or twice will be effective, if followed up by a steady card giving your business and address.

Don't take down your sign in dull times. People read newspapers at all times of the year.

If business admits of it, several small advertisements, with your name repeated every time, will avail more than the same collected, with your name in only once.

Don't fear to have a small advertisement by the side of a larger competing one. The big one can't eat it up.

Small advertisements, and plenty of them, is a good rule. We were all babies once, yet we made considerable noise.

Don't advertise unless you have something worth advertising.

The easiest way in the world to throw away money is to advertise injudiciously.

The easiest way in the world to accumulate a fortune is advertise judiciously.

A double-column once a year is not so good as a square fifty two times a year. A furious shower does not soak in so well as a steady rain. The highest praise Artemus Ward had for George Washington was that he "never slopt over."
