AN ACT RESPECTING VAGRANTS.

(Assented to 22nd June, 1869.)

Her Majesty, by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:

1. All idle persons who, not having visible means of maintaining themselves, live without employment, -all persons who, being able to work and thereby or by other means to maintain themselves and families, wilfully refuse or neglect to do so - all persons openly exposing or exhibiting in any street, road, public place or highway any indecent exhibition, or openly or indecently exposing their persons. - all persons who, without a a certificate signed, within six months, by a Priest, Clergyman or Minister of the Gospel. or two Justices of the Peace residing in the municipality where the alms are being asked, that he or she is a deserving object of charity, wander about and beg, or who go about from door, or place themselves in the streets highways, passages or public places to beg or receive alms,-all persons loitering in the streets or highways and obstructing passengers by standing across the foot-paths or by using insulting language, or in any other way, tearing down or defacing signs, breaking windows, breaking doors or door-plates, or the walls of houses, roads or gardens, destroying fences, causing a disturbance in the streets or highways by screaming, swearing or singing, or being drunk, or impeding or incommoding peaceable passengers,-all common prostitutes, or night walkers wandering in the fields, public streets or highways, lanes or places of public meet ing or gathering of people, not giving a satisfactory account of themselves,—all keepers of bawdy houses and houses and houses of ill-fame, or houses for the resort of prostitutes, and persons in the habit of frequenting such houses, not giving a satisfactory account of themselves-all persons who have no peaceable profession or calling to maintain themselves by, but who do for the most part support themselves by gaming or crime or by the avails of prostitution,—shall be deemed loose, idle and disorderly persons within the meaning of this Act, and shall upon conviction before any Stipendiary or Police Magistrate, Mayor or Warden, or any two Jus tices of the Peace, be deemed guilty of a misdemeanor and be punished by imprisonment in any gaol or place of confinement other than the Penitentiary, for a term not exceeding two months and with or without hard labour, or by a fine not exceeding fifty dollars, or by both, such fine and imprison being in the discretion of the convicting Ma gistrate or Justices.

2. Any Stipendiary or Police Magistrate. Mayor or Warden, or any two Justices of the Peace upon information before them made, that any person hereinbefore described as vagrants, loose, idle and disorderly persons, are or are reasonably suspected to be har-bored or concealed in any bawdy-house, house of ill-tame, tave n and boarding house, may by warrant authorize any constable or other person to enter at any such house or tavern, and to apprehend and bring before them, or any other Justices, all persons found therein so suspected as aforesaid.

STARTLING OCCURRENCE.

Yesterday morning about 4:30 o'clock, when Private James Lafferty, No. 3 Company of the Queen's Own, (Captain Bennett), was on duty at the drill shed, he was fired a from behind by some person unknown. Lafferty was on the west side of the shed, some twelve yards distant from the sentry box, which stands at the corner of Welling ton street and the lane leading into the Parliament Buildings when the ball was fired He heard the ball whiz past him, and hearing footsteps retreating in the direction of Front street, he fired after the fugitive but without effect. The guard inside the Drill Shed, on hearing the double shot, immediately rushed out, and on learning the cause, surrounded the grounds connected with the Shed, but failed to discover any one. It was pitch dark at the time, and the little light that might have been forthcoming from the lamps in the neighborhood, was non est, ow ing to the economical theories of the Gas Company. At davlight the fact that an attempt had been made on Lafferty's life was made evident by the marks the ball had left in its course. After passing Lafferty it struck the panel of the sentry box on the south, passed through the box, through the boarding on the north side and then through the upper railing of the fence on Wellington street. Regarding the weapon used a difference of opinion prevails; at first it was thought to have been a Snider rifle, but a cartridge having been procured it was found to be too large to correspond with the holes made by the bullet. The general opinion is that the weapon was a heavy Colt's revolver. Whatever it was it has evidently been in the hands of a dastardly assassin.

The occurrence has brought out at least one thing: If keeping guard is to be of any real use at all, the practice must be amended. It is absurd to place one sentry to protect the whole grounds round the drill shed. Now he is on the west side and now on the east. Had there been a sentry on each wall of the building, such a thing as happened this morning would have been an impossibility. Besides, there are large stores of amunition at the shed, and any one so in clined might fire the whole affair and cause destruction and desolation over the whole locality. In fact the amunition should not be there at all.

Col. Gilmour, Major Boxall, and Captain Bennett, have been busy during the forenoon investigating the occurrence, and no doubt the Adjutant General will see fit to make some substantial arrangements which will effectually preclude the recurrence of such

LATEST FROM THE NORTH WEST.

Sr. PAUL, Minn. Nov. 15 .- The St. Paul Press has letters from reliable parties at Pembina which confirm the rumors of the expulsion of Governor McDougall and party

from Red River Territory.

He had advanced two miles beyond the frontier and stopped at the Hudson Bay Company post, sending Mr. Provencher forward for a parley with the insurgents, who

were five hundred strong. Mr. Provencher was made prisoner, and Mr. McDougall beleagured in the fort. No resistance was attempted, and on the 2nd Nov. the Governor was escorted across the line, and is now encamped near Pembina, in

Dakota teritory.
No violence was offered. The insurgents were French. They have organised a Provisional Government.

It is reported that Gov. McDougall has applied to the Ottawa authorities for troops. His family will return to Canada.

There is an influential party in the settlement consisting of the Hudson Bay Company officers and the Scotch who support the Gov ernor, but whether they will organize a military force in his support is uncertain.

RICHMOND HILL, Nov. 19, 1869.

HIS FATHER'S SON.

In old times-of Downing Street domi-

rule of the "Family Compact"-Peter Perry's name was a tower of strength to the "Reform" party; the Hagermans, Robinsons, Sherwoods et hoc genus omne, were often made to feel that he was as nuch "at home" in the Legislative Assembly as at "the corners," in Whitby township. We have read his speeches in Parliament, as well as proclamations" he used to issue from "his office, Radical Corner!" and have always been impressed with the idea that Peter Perry was an extraordinary man. These reflections occurred to us on reading in the Whitby Chronicle of 11th Nov., a speech made by our friend Mr. John Ham Perry, at a Railroad Meeting held at the Town Hall of Whitby, on Monday evening, the 8th inst. A Mr. Holden and Dr. Gunn figured prominently at the meeting, as being opposed to having an Act passed to legalize certain acts done by Messrs. Holden, Gunn and others, while they were directors of the Port Perry and Port Whitby Railway. We do not recollect having read as able a speech for a very long time; Mr. Perry handles Messrs. Holden and Gunn in a way that makes them appear to very great disadvantage before the public, and leaves them hors de combat. If it was the intention of Holden and his party to damage Mr. Perry's prospects at the approaching Municipal election, they have made a fearful mistake, and have reason to know that John Ham is a chip of the old block-and that he, also, is "at home" in Whitby. As very many of our readers have taken an interest in Mr. J. H. Perry, ever since he canvassed King's Division, and as many who then opposed him are row sorry for what they did then-and would cheerfully reverse their vote, if we had not been deprived of our Elective Legislative Council, by George Brown and others - we purpose publishing Mr. Perry's speech at the Railway meeting in our next issue, and feel confident our

We have looked over a copy of the Act now before the Ontario Legislature. There appears to be some misapprehension as regards Grammar Schools that are in villages not incorporated, such as Richmond Hill, Markham, Weston, and other places similarly situated; this will, no doubt, be brought under the notice of Mr. Cameron, who has charge of the Bill. For our part, we consider the old Grammar School Law much better than the one now proposed; we believe that the introduction of elective strife into the management of our Grammar School Boards will prove to be an injury to the cause of superior education; and if this turns out to be the result of the present bill, we, and those who are anxious to preserve the advantages of first-class schools, will have reason to reproach the promoters of the present change. There is a pretty wide spread feeling pervading the community in regard to the present legislation on School matters—we trust government will be cautious and guard the rights of the people.

READ OUT OF THE PARTY.

The Hon. James Cox Aikins, a Reformer of some standing-that is, when speaking of a new generation of politicians—has joined the Macdonald-Cartier- us several Parliamentary papers. Hincks administration at Ottawa, and thereby caused much tribulation in the clear-grit wigwam. We were much amused at the wry-faces made by some of our more pure grit (for there is a difference between grits and clear grits!) friends, when it became known that J. C. Aikins took the shilling: "What, thought it; there's no trusting man; oh! the weakness of poor human nature !" and "we're sold," were the exclamations that fell from the more pure and unadulterated grits of the Brown type. But, there are other grits who chuckle over learn, we believe that he will be a source of strength to the government, and a powerful ally of the old Reform chief, now Finance Minister. Sir John A. Macdonald is deserving of the highest praise for his recent ministerial arrangement; and he will find that the country will approve of his course; we believe that the Hon. J. C. Aikins is the best selection that could have been made out of the various names spoken of. The only remark the Globe has to make on Mr. Aikins joining the government, and accepting Sir Francis Hincks as the legitimate reform leader, is to deny that he (Mr. Aikins) is a reformer, and read him out of the party!

ON THE WAR PATH.

The Globe's Ottawa correspondent, in his usual malicious way, insinuated that nation, and the high-handed irresponsible the Hon. D. Reesor was down at Ottawa, with a view to taking a seat in the Cabinet! There is no truth in this calumny: far more patriotic. He recently recommended himself, and has been gazetted Lieut.-Colonel of Militia. Hearing of the insurrection at Red River, Colonel Reesor is said to have went down to Head Quarters for the purpose of rendering military service to his country, and carving a name for himself in the future history of this great dominion, by marching an army against the discontented "French" half-breeds at Red River. but see nothing very objectionable in A., or fight the French !
