This oil excells all others for Lubricating purposes, both animal and vegetable.  We are prepared to have the merits of this oil tested against all oils now being used on machinery—both light or heavy; from a clock or sewing machine, to the heaviest of Steamboat shafts.  The following are the points in which it excells all other oils:  It will not gum; hence machinery can be kept clean with but little trouble, and it will clean machinery that has been gummed by other oils. It will not congeal or thicken in the coldest of weather—this is a quality of the highest importance, from the fact that an oil not having this quality will not bubricate a cold shaft; such an oil may be applied in a heated state; but the moment it touches a cold shaft it is congealed, and it will not begin to lubricate until the journal, by friction, acquires that temperature necessary to reduce it to a liquid state. In acquiring a higher temperature by friction, the journal expands, and the box is injured. It is as impossible to use oil that will chill on a cold shaft without this result, as it is fixed to a cold shaft without this result as it is connected to a cold shaft without this result as it is	Newcastle, St. John and Halifax, on and after Monday, the 11th day of April next; for Sections Nos. 5 and 6, at the same offices, on and after Wednesday, the 20th April next, and for Sections Nos. 17, 18, 19 and 20, at the same offices, on and after Tuesday, the 10th day of May next.
