FLOUR AND FEED,  All of which will be	express prepaid.  Address orders to  P. G. LAURIE,  Windsor.  Windsor, April 6, 1870. 612-1  POETICAL WORKS  OF THE DIFFERENT POETS, AT THE  HERALD BOOK STORE.  IMPORTANT TO PARTIES USING MACHINERY.  STOCE'S EXTRA MACHINE OIL.  This oil excells all others for Lubricating purposes, both animal and vegetable.  We are prepared to have the merits of this oil tested against all oils now being used on machinery—both light or heavy; from a clock or sewing machine, to the heaviest of Steamboat shafts.  The following are the points in which it excells all other oils:  It will not gum, hence machinery can be kept clean with but little trouble, and it will clean machinery that has been gummed by other oils. It will not congeat or thicken in the coldest of weather—this is a quality of the highest importance, from the fact that an oil not having this quality will not lubricate a cold shaft, such an oil may be applied in a heated state; but the moment it touches a cold shaft it is congealed, and it will not begin to lubricate until the journal, by friction, acquires that temperature necessary to reduce it to a liquid state. In acquiring a higher temperature by friction, the journal expands, and the box is injured. It is as impossible to use oil that will chill on a cold shaft without this result, as it is to mingle oil with water. Stockes' oil will lubricate the coldest machinery the moment it is applied; it is now used in over two hundred establishments, and all unite in saying the prefer it to Refined Sperm, or pure olive oil; it is free from all objections urged against all other oil as it neither gums or freezes.  Now, as the public are aware that many worthless things are pased into notoriety, in order to prove that this is no humbug and at the same time to secure ourselves against the operations of unscrupulous oil agents; many of whom will not hesitate to palm off the mere offal of oil refineries, as being identical with Stocks extra machine oil; we prepose to those who are largely interested in the truth of those sta	A. Windsor, April 6, 1870. 612-1  DOETICAL WORKS  OF THE DIFFERENT POETS, AT THE HERALD BOOK STORE.  IMPORTANT TO PARTIES USING MACHINERY.  STOCK'S EXTRA MACHINE OIL.  This oil excells all others for Lubricating purposes, both animal and vegetable. We are prepared to have the merits of this oil tested against all oils now being used on machinery—both light or heavy; from a clock or sewing machine, to the heaviest of Steamboat shafts.  The following are the points in which it excells all other oils: It will not gum, hence machinery can be kept clean with but little trouble, and it will clean machinery that has been gummed by other oils. It will not congear or thicken in the coldest of weather—this is a quality of the highest importance, from the fact that an oil not having this quality will not lubricate a cold shaft, such an oil may be applied in a heated state; but the moment it touches a cold shaft it is congealed, and it will not begin to lubricate until the journal, by friction, acquires that temperature necessary to reduce it to a liquid state. In acquiring a higher temperature by friction, the journal expands, and the box is injured. It is as impossible to use oil that will chill on a cold shaft without this result, as it is to mingle oil with water. Stockes' oil will lubricate the coldest machinery the moment it is applied; it is now used in-over two hundred establishments, and all unite in saying the prefer it to Refined Sperm, or pure olive oil; it is free from all objections urged against all other oil as it neither gums or freezes.  Now, as the public are aware that many worthless things are pased into notoriety, in order to prove that this is no humbug, and at the same time to secure ourselves against the operations of unscrupulous oil agents,; many of whom will not hesitate to palm off the mere offal of oil refineries, as being identical with Stocks extra machine oil; we prepose to those who are largely interested in the truth of those statem	A.
