PARCELS DELIVERED.	shaft, such an oil may be applied in a heated state; but the moment it touches a cold shaft it is congealed, and it will not begin to labricate until the journal, by friction, acquires that temperature necessary to reduce it to a liquid state. In acquiring a higher temperature by friction, the journal expands, and the box is injured. It is as impossible to use oil that will chill on a cold shaft without this result, as it is to mingle oil with water. Stockes' oil will lubricate the coldest machinery the moment it is applied; it is now used in over two hundred establishments, and all unite in saying the prefer it to Refined Sperm, or pure olive oil; it is free from all objections urged against all other oil as it neither gums or freezes.  Now, as the public are aware that many worthless things are pased into notoriety, in order to prove that this is no humbug, and at the same time to secure ourselves against the operations of unscrupulous oil agents,; many of whom will not hesitate to palm off the mere offal of oil refineries, as being identical with Stocks extra machine oil; we prepose to those who are largely interested in the truth of those statements, to send to them on application by express, or otherwise free of charge, a sample of the oil that it may speak for itself, we will with the sample furnish applicants free of charge, with a few simple tests as effective, as those tests by which Gold is known from the base metals, and which will enable parties ordering to secure themselves against imposition, by enabling them to determine at once, whether the oil forwarded is as good as sample. All parties interested in the lubicating oil trade, before purchasing elsewhere will do well to communicate with  G. B. STOCK,  Agent for the Dominion.  Brougham, Ontario.  H.
