## Jannette.

Like the sun that in the morning Gives sweet Nature joyous birth. With its glowing garb adorning All the new awakened earth: Sunbeams flashing, dancing, darting, Like a lustrous diamond shower. To the human heart imparting Joys that wield a mystic power-Giving gladness, mocking sadness, With its ever-radiant face.

So she came, and all my sorrow Fled like clouds before the sun, While my spirit seemed to borrow Thoughts that wayward Fancy spun; Soon dispelling, all repelling, Clouds that hovered near my heart. Never to my bosom telling
Words so mournful, "We must part" Giving gladness, mocking sadness,

With her ever beauteous face. Like the sun, when evening rushes Mady at the heels of day, Sinking slow, 'mid roseate blushes, With his beautiful array— Then from out our earthly prison Pleasure seems for ever hurled,

When the sun, so lately risen. Wanders to another world-Giving sadness, mocking gladness, With the absence of its face.

So she vanished from my vision, Leaving naught but gloom behind, Mocking, with its wild derision, Pleasure fleeting as the wind-Gone, like summer flowers that perish When the autumn wind is rife-Gone, yet still my soul will cherish-Gone to lead a happier life.

MR. C. CHAPMAN,

Dear Sir,—I had been informed by interested parties that the Wheeler & Wilson Sewing Machine was not to be depended upon, which for a time induced me to defer purchasing one. After your description of said machines, and we have a paid Mrs. Fawcett who is well purchased one, and Mrs. Fawcett, who is well acquainted with other machins, states that after a year's trial in various kinds of work, she can confidently recommend it as a useful family sewing machine, and as all that you stated it to be.

Mr. C. Chapman, Dear Sir,—We have used the Wheeler & Wilson Sewing Machine about nine years, and during that time it has cost nothing for repairs. during that time it has cost nothing for repairs.
We sew heavy fulled cloth with coarse linen thread, stronger than can be done by hand: while all fine stitching on light fabrics gives the best satisfaction. We can with confidence recommend the Wheeler and Wilson Sewing Machine as the best for family use.

IMPORTANT TO PARTIES USING MACHINERY.

STOCK'S EXTRA MACHINE OIL.

This oil excells all others for Lubricating rposes, both animal and vegetable. We are prepared to have the merits of this oil tested against all oils now being used on machinery-both light or heavy; from a clock or sewing machine, to the heaviest of Steam-The following are the points in which it ex-

ells all other oils:

It will not gum, hence machinery can be kept clean with but little trouble, and it will clean machinery that has been gummed by other oils. It will not congear or thicken in the coldest of weather—this is a quality of the highest importance, from the fact that an oil not having this quality will not lubricate a cold shaft, such an oil may be applied in a heated state; but the moment it touches a cold shaft it is congealed, and it will not begin to lubricate until the journal, by friction, acquires that temperature necessary to reduce it to a liquid state. In acquiring a higher temperature by friction, the journal expands, and the box is injured. It is as impossible to use oil that will chill on a cold shaft without this result, as it is to mingle oil with water. Stockes' oil will lubricate the coldest machinery the moment it

is applied; it is now used in over two hundred establishments, and all unite in saying the pre-

er it to Refined Sperm, or pure clive oil; it is

free from all objections urged against all omer

oil as it neither gums or freezes.

Now, as the public are aware that many worthless things are pased into notorlety, in order to prove that this is no humbug, and at the same time to secure ourselves against the operations of unscrupulous oil agents,; many of whom will not hesitate to palm off the mere offal of oil refineries, as being identical with Stocks extra machine oil; we prepose to those who are largely interested in the truth of those stalements, to send to them on applica-tion by express, or otherwise ce of charge, a sample of the oil that it may speak for itself, from the base metals, and which will enable parties ordering to secure themselves against imposition, by enabling them to determine at once, whether the oil forwarded is as good as sample. All parties interested in the lubicating oil trade, before purchasing elsewhere will
