Interesting to Ladies

In this rapid age it is absolutely necessary for ladies to keep au courant of what is pass ing in the world around them. For this purpose, no medium is so good as

a first class m: gazine.
We recommend to ladies, who desire one useful and sensible as well as fashionable. DEMOREST'S ILLUSTRATED MONTHLY as the very best parlor periodical that we know. It is more complete in its departments

than any other. Its fashions are more unique, because they are authentic and original, and not blind copies of French and German models. It gives with every number full-sized pat terns, which supply, during the year, all that any lady needs for the cutting of her

own and her children's wardrobe. It is always high toned, and its contributors include some of the finest talent in the country.

Its Ladics Club affords valuable teresting information upon every subject. It is the best magazine for the utilities and ornamentation of the household; the best magazine for floriculture, original music architecture, and other topics interesting to ladies-all calculated to assist in making organ. The horses, cattle, sheep and our homes attractive and happy.

It is the most enterprising of all magazines, and gives more than twice as much for the of the best animals in the province were money.

It also offers a large and magnificent

The Expelled Germans

gince the present war began, is, if the published estimates be correct, without a para Iell in completeness. The French retur sol population before the war gave the number of Germans in France as 106,600. The recent German official statement makes the total of the German refugees who have actually been driven out of France 102,000. The approximation of these numbers indicates a prompt and thorough enforcement of the French enactments that could not bave been accomplished except at the price of great suffering and loss to the Germans expelled and tends to confirm the statements received here of extreme destination and misery among them. They we in proportion working people; 40,000 of them are believed to have came from Paris. It is highly probably that France in sending these Germans across the frontier has the peated her grave mistake of the seventeenth century in exiling to other lands those who within her borders have acquired peculia efficiency in the mechanical arts. Skilled workmen carry not alone their handicraft with them; commercial enterprise and trade is their manufactures fellow them. The revocation of the elict of Nantes, and the emigration of working people from France in the latter part of the reign of Louis XIV, was one of the most costly experiments ever made in political economy.

MARKHAM FALL FAIR. The Fall Fair of the East Riding of York and Township of Markham Agricultural Societies was held at Markham village, on Thursday and Friday of last week. The weather was beautiful and mild, especially on Friday the second and principal day of the fair, and, as a consequence, the concourse of people was very large. The show was held as usual in the commodious grounds adjoining the Wellington hotel, to the south of the village. We will not attempt to notice all that came under our observation, but will mention some that seemed worthy of special attention. The west side of the grounds was devoted to implements, buggies, waggons, etc. among which we observed a Johnston self-rake Reaper from the works of Patterson & Bro. of Patterson: this attracted great attention from the farmers; it has taken the first prize at the various fairs this fall, and the manufacturers claim for this Reaper some important improvements not to be found in others. Ever & Bro, Glideing Works, Richmond Hill, had on exhibition one of their Ditching machines and a new and improved harrow, which elicited many enconiums from the farmers. A. & W. Wilson, of Richmond Hill, exhibited their celebrated fanning mill. In waggons, buggies and cutters, there was a good display: Eakin & Stevenson, of Unionville, made a good display, and took the prize for a light platform spring waggon, and for cutters; both vehicles showed great pains in their get up, and would be a credit to any carriage shop in the country. Wales, of Markham, showed a number of carriages and cutters of beautiful workmanship. Messrs. Speight, of Markham, were great on heavy waggons Mr. Peter Phillips, of Richmond Hill, showed two of his excelsior pumps, and excelled four competitors by taking the first prize .--In the hall the show of vegetables was first rate, surpassing in some things that of former years. The grain was good. In home and factory made cloths there was a fine exhibition. The quilts and counterpanes, rugs and mats made a good display. In the fine arts the show was very fine. Mr. C. Chapman, of Markham, exhibited some of the celebrated Wheeler & Wilson Sewing Machines; they are certainly a marvellous triumph of art, will do any kind of work required and are almost noiseless in operation. The Wheeler & Wilson is certainly the most perfect machine in the market. Mr. Chapman also exhibited

BALLOU'S MAGAZINE FOR NOVEMBER. We have received the November number of Ballou's Magazine, and have read it with interest, as we always do every month that Ballou is issued. It has the best variety of contents of any magazine in the country. Its romances are always well written, its sea stories such as only true-hearted sailors can write, and all the reading is original and and of the best quality. There are 100 pages, 16 of them with illustrated subjects, and all for the small sum of 15 cents, or \$1.50 per year. Great improvements are promised for the coming year. All periodical depots sell Ballou's. Thomes & Talbot, 63 Congress street, Boston, are the publishers.

I can testify to the high therapeutical value of Fellows' Compound Syrup of Hypophosphites, and consider it deserving of attention by the profession generally.

RE-OPENING SERVICES.

The trustees of the Wesleyan Church in this village, have recently given their Bible and infant class-rooms for their and, we believe, money well invested; for we are sure that there are no churches which prosper better than those whose vitality is kept up by the influx of warm-hearted, earnest and intelligent youthful labourers from our Sabbath Schools. At half-past ten Heifer calf, Spring, 11 entries-1st prize, o'clock, last Sabbath, the re-opening services began by the Rev. E. Wood, D.D. preaching from the 55th chapter of Isaiah, and 11th verse. The sermon was terse, logical and appropriate. At half-past two, the Rev. S. Rose, delivered an interesting sermon from the 17th chapter of St. John, 4th and 5th verses, characterized by simplicity and clearness, and eminently practical. In the evening, the Rev. Wm. Gregg, gave 5th chapter of Revelation; it was rich in thought, full of suggestive hints, and replete with instruction.

On Tuesday last, the Rev. W. Morley Punshon, M. A., President of the Conference, delivered an eloquent sermon, from Revelation, 8th chap., 3rd and 4th verses.
