TESTIMONIALS.

MR. C. CHAPMAN,
Dear Sir,—I had been informed by in terested parties that the Wheeler & Wilson Sewing Machine was not to be depended upon, which for a time induced me to defor purchasing one. After your description of said machines. The Close of day.

I purchased one, and Mrs. Fawcett, who is well the mosquito, as a public singer, draws acquainted with other machins, states that after a year's trial in various kinds of work, she can confidently recommend it as a useful family WHEN women come to sit in the jury box possibly infants may get to be criers in be.

sewing machine, and as all that you stated it to be.

M. FAWCETT.

Wesleyan Minister. Markham March 18th, 1870.

Mr. C. Chapman,
Dear Sir.—We have used the Wheeler &
Wilson Sewing Machine about nine years, and Why is a Catterpillar like buckwheat cakes? Because it is the Grub that makes Wilson Sewing Machine about nine years, and during that time it has cost nothing for repairs. We sew heavy fulled cloth with coarse linen thread, stronger than can be done by hand: while all fine stitching on light fabrics gives the best satisfaction. We can with confidence re-commend the Wheeler and Wilson Sewing Machine as the best for family use.

IMPORTANT TO PARTIES USING MACHINERY.

STOCE'S EXTRA MACHINE OIL.

This oil excells all others for Lubricating urposes, both animal and vegetable.

We are prepared to have the merits of this oil tested against all oils now being used on machinery—both light or heavy; from a clock or sowing machine, to the heaviest of Steamboat shafis. The following are the points in which it ex-cells all other oils:

It will not gum, hence machinery can be kept clean with but little trouble, and it will clean machinery that has been gummed by other oils. It will not congear or thicken in the coldest of weather—this is a quality of the highest importance, from the fact that an oil not having tois quality will not lubricate a cold shaft, such an oil may be applied in a heated state. In acquiring a higher temperature by friction, the journal expands, and the box is injured. It is as impossible to use oil that will chill on a cold shaft without this result, as it is to mingle oil with water. Stockes' oil will lubricate the coldest machinery the moment it is applied; it is now used in over two hundred establishments, and all unite in saying the prefor it to Refined Sperm, or pure clive oil; it is free from all objections urged against all other oil as it neither gums or freezes.

Now, as the public are aware that many worthless things are pased into notoriety, in order to prove that this is no humbug, and at he same time to secure ourselves against the perations of unscrupulous oil agents, ; many of whom will not hesitate to palm off the mere offal of oil refineries, as being identical with Stocks extra machine oil; we prepose to those who are largely interested in the truth of those statements, to send to them on applicasample of the oil that it may speak for itself, we will with the sample furnish applicants free of charge, with a few simple tests as effective, as those tests by which Gold is known from the base metals, and which will enable parties ordering to secure themselves against imposition, by enabling them to determine a ouce, whether the oil forwarded is as good as sample. All parties interested in the lubicating oil trade, before purchasing elsewhere will

Lovell's Directories.

TT IS INTENDED TO MAKE THESE DIRECTORIES the most complete and correct ever issued on this continent. They are not being prepared by correspondence, but by PERSONAL CANVASS from door to door, of my own Agents, for the requisite information. I have now engaged on the work in the several Provinces Forty men and Twenty horses. These are engaged mainly on the towns and villages off the Railway and Steamboat Routes, important places on the lines being held till the completion of the former, to

admit of correction to latest date.

I anticipate issueing, in October next, the
Canadian Dominion Directory, and six Provincial Directories, which will prove a correct and full index to the Dominion of Canada, Newfoundland, and Prince Edward Island and combined Gazetteer. Directory and Hand Book of the six Provinces.
