

THE JOSEPH HALL MACHINE WORKS, Oshawa, Ontario. ESTABLISHED 1851. THE JOSEPH HALL MANUFACTURING COMPANY, PROPRIETORS.

We desire to call attention to our No. One and Two Buckeye Combined Reaper and Mower, with Johnson's Self-Rake Improved for 1871.

We believe this machine, as we now build it, to be the most perfect Reaper and Mower ever yet offered to the public of Canada.

It has no gears on the Driving Wheels!

Enabling it to pass over marshy or sandy ground without clogging up the gearing, thereby rendering it less liable to breakage. It is furnished with

FOUR KNIVES! Two for Mowing and two for Reaping, one of which has a Sickle Edge for cutting ripe, clean grain, the other a Smooth Edge for cutting grain in which there is grass or seed closer.

NEW PATENT TILTING TABLE

For PICKING UP LEGGED GRAIN. This is the only valuable Tilting Table offered on any combined Reaper and Mower.

ANY ONE ON ALL OF THE ARMS OF THE Reel can be made to act as Rakes at the option of the Driver, by a Lever readily operated by his foot.

ON THE SHORTEST NOTICE! ROE & BROTHER, Proprietors Woodbridge Woolen Mills.

The Rakes are driven by Gearing instead of Chains, and, therefore have a steady uniform motion,

Making them much less liable to breakage on uneven ground, and more regular in removing the grain. The Gearing is very simple, strong and durable.

BABBIT METAL.

THE PARTS ARE ALL NUMBERED, so that repairs can be ordered by telegraph or otherwise, by simply giving the number of the part wanted.

Raise the Con so far above the Grain Table that the Grain does not interfere with the Machinery

OF THE REELS OR REELS. We make the above Machine in two sizes—No. One, large size for Farmers who have a large amount to reap—No. Two, medium size for farmers having more use for a mower than for a reaper.

Guarantee that all machines shipped this season shall be equal in Quality and Finish to samples exhibited by our Agents.

We invite the public to withhold giving their orders until they have had an opportunity of inspecting our Machines, as we believe that they are unsurpassed by any other machines ever yet offered on this continent.

- Johnson's Self-Raking Reaper, improved for 1871, with two knives, smooth and sickle edge, and mangle guards. Wood's Patent Self-Raking Reaper. Buckeye Reaper No. 1, with Johnson's Self-Rake. Buckeye Reaper No. 2, with Johnson's Self-Rake. Ohio combined Hand Raking Reaper and Mower. Caugh's Chief Jr. Mower. Buckeye Mower No. 1. Buckeye Mower No. 2. Ball's Ohio Mower No. 1. Taylor's Sulky Horse Rake. Farmers' Favorite Grain Drill, Champion Hay Tedder. And our celebrated

HALL THRESHER AND SEPARATOR. Greatly improved for 1871, with either Pat's, Ballan, Planer, Woodbury, or Hall's 8 or 10 horse power.

We shall also offer for the Fall Trade a new Clover Thresher and Huller, very much superior to any heretofore introduced.

All our Machines are warranted to give satisfaction, and purchasers will have an opportunity of testing them both in Mowing and Reaping before they will be required to finally conclude the purchase.

F. W. GLEN, PRESIDENT, OSHTAWA, ONTARIO.
