

NEW ADVERTISEMENTS.

Stray Sheep—James Dooch. Card—J. Segsworth. Diehl Wheat—Joseph Keffer. Astray—John Graham. Corn Crusher for Sale.

The York Herald.

RICHMOND HILL, SEPTEMBER 1, 1871.

The members of the Temperance Lodge of this town are requested to be present at the Hall on Wednesday evening next, as some special business is to be brought forward.

DIEHL WHEAT.—Mr. Joseph Keffer, of Lot 14, 3rd Con. Vaughan, advertises this week that he has a quantity of Diehl wheat suitable for seed. It is a beautiful sample, and true to its kind. A sample may be seen at this office.

HOME AND HEALTH.—We have received the September number of this valuable family magazine. It is replete with sound and practical articles suitable for every household, and is rapidly becoming an authority on matters concerning health.

SABBATH SCHOOL PIC-NIC.—The Episcopal Church Sabbath School of our town, joined with that of Thornhill, held their annual Union Pic-nic in Mr. Warren's bush, on Wednesday last. The party had a good time, every one seeming to enjoy themselves.

The Yonge Street Sabbath School Teacher's Association will hold their next meeting on the 4th of September next, in the Lecture Room of the Wesleyan Church, Richmond Hill, at 7:30 P.M., on which occasion the Rev. C. Fish has kindly consented to deliver a lecture on Sabbath School Teachers, their manner and motives.

PIC-NIC.—Arrangements are being made to hold a grand Pic-nic on Wednesday next, the 6th inst., in Mr. Edward Seagar's grove, Thornhill. Games and athletic sports, for which valuable prizes are provided, will be perhaps the leading features of the day's amusements. A good Quadrille band has also been secured for those who wish to engage in the mazy dance. Tickets 30 cents; children 15. The profits will be given to the Thornhill R. C. Church.

PHOTOGRAPHS.—Mr. R. A. Gray, Photographer of our town, has this week published three beautiful Photos of buildings in the town. They embrace the Wesleyan Church, Wesleyan Parsonage, and the Masonic Hall. Mr. Gray has, during the short time he has been at the business, proved himself a natural artist, and he has already produced a few splendid pictures. The church, the parsonage and the hall may be purchased at 10 cents each, either at Mr. Gray's studio or at the Herald book store.

It is now reported that Victor Emmanuel has appointed Count Selopis as an *Atabaman* arbitrator.

The Emperor Napoleon has given a *faite* at Chishurst, at which telegrams were received from the Czar of Russia, the King of Sweden, the Emperor of Austria, the King of Holland, the King of Portugal, the King of Prussia, the Prince of Wales, and others.

Edward Bayer, Esq., Horton, Kings Co., N. S., writes that an astonishing cure has effected on his daughter by the use of *Johnson's Anodyne Liniment*. The whole spine became diseased, she lost the use of her limbs, and her back was rounded up like a bow, in consequence of taking cold after having been inoculated for the knee pock. She is now well.

Another terrible slaughter of human life had occurred across the border, on Saturday last, under circumstances which a rigid investigation will most probably demonstrate were of a most criminally careless character. The disaster occurred on the Eastern Railway, at Revere, some seven miles from Boston, where a delayed accommodation train was overtaken by a heavy lightning express. The latter came thundering along at full speed, and they were "telescope" shut up as a telescope—conveys perhaps the most concise and vivid description of the effect of this iron "courier of death," upon the four cars of the accommodation train, crowded with living freight, vainly endeavouring to move away as it crushed down upon them with terrific force. It cut its way nearly through the cars, dealing death and destruction, and to add to the horrors of the scene, the locomotive was thrown over, casting scalding water upon the wounded and dying. The debris was set on fire by the same agency. An attempt to describe the horrible scene would be almost superfluous. Twenty-five bodies were taken up dead and dying, and so terribly mangled that their identification was very difficult and in some cases impossible. Fully forty persons received wounds varying in severity. The greatest exertions were put forth by the neighbouring citizens to succor those for whose recovery hope could be entertained.

DESTRUCTIVE FIRE IN BRAMPTON.

\$10,000 WORTH OF PROPERTY DESTROYED.—WHISKEY THE CAUSE! Special to the Herald.

It seems that Brampton is to be no exception in the almost universal visitation of fire to the towns and villages of Western Canada. On Sabbath evening, the 27th inst., about eleven o'clock, the fire bells tolled the alarm of the destructive element, and soon dense clouds of smoke were seen issuing from the stable loft of the hotel on Main street. It was quite evident that danger was imminent, for very soon the columns of smoke were changed to immense sheets of flame, shedding lurid light all over the town. The fire spread eastward, catching the outbuildings of Welsh's hotel, on the north side of Queen St. East. The utmost efforts of the fire engines could not stay its progress until it reached the hotel. It then became evident that the whole block must go. The houses yet shut up were immediately broken into, and the inmates most unceremoniously awakened, and the furniture and *et cetera* thrown promiscuously into the street. By this time Hurst's liquor store was on fire, the flames spreading with amazing rapidity, and soon the whole block consisting of Hurst's grocery store, Welsh's tavern, McCombs' grocery and some other houses, together with their stables and carriage houses were one mass of flame. The scene was grand in the extreme, and really enjoyable were it not for the consciousness of the immense loss of property sustained by those whose buildings were consuming. The light from the fire could be seen for miles around, and made the streets as light as day. It revealed also one of the most praiseworthy crowds it has been our privilege to witness. From the grandfather in his gray hairs to the little boy hurriedly awakened from his crib; from the matron in her dressing gown to the maiden in her curl papers; all were out and all were anxious, until the fire was mastered by the untiring energies of those who worked, pumping and carry water as best they could. Monday morning revealed a gloomy sight. The whole block was a blank—a heap of smoking ruins. Two horses were burned alive, and their half-consumed bodies lay steaming in the ruins of the stable. Ten thousand dollars worth was destroyed, and it is more than probable that whiskey did it all. A worthless fellow, half drunk, (so they say) was sleeping in the stable loft, and in all likelihood set fire to the hay while lighting his pipe. When will people learn wisdom? The families unhoused have found lodgings elsewhere in town, and are made as comfortable as circumstances will allow.

ONTARIO TEMPERANCE UNION.

The executive officers of the Ontario Temperance Union, in accordance with the instructions of the last meeting, hereby announce that the Annual Convention of this important organization will commence in the Temperance Hall, in the city of Toronto, on Tuesday, the 5th day of September next, at 2 o'clock P. M. The great design of this institution is the practical co-operation of all forms of the Temperance enterprise for the ultimate attainment of the complete prohibition of the Liquor Traffic, and therefore it is the earnest wish of Executive of the Union, that this Convention should be well attended, by delegates from all the different Temperance Societies throughout Ontario. All Ministers of the Gospel, who approve of the principles, are invited to be present and aid us with their countenance and counsel. The subjects which will come under consideration are of vast importance, viz:—The present License System,—its incongruities and dangers. Total Prohibition,—its necessity and safety. Petitions and action regarding the next session of the Ontario Legislature. Temperance Societies,—their multiplication and union. How best attained. The Hon. Neal Dow, of Maine, has kindly consented to be present, and will, in the Convention, and at Public Meetings, explain and defend "The Principles and Results of Prohibitory Legislation."

The Hon. Malcolm Cameron, President of the Union, will attend, and again give his powerful assistance in the discussion of great questions together with many other distinguished speakers. This Convention will be one of great interest; the platform of Prohibition proclaimed, and the practical work of the Union determined. All friends of Prohibition are invited who are prepared to co-operate whether as delegates or individuals. The work requires the hearty and practical union of all. Let us have a Convention that shall rouse the whole country to immediate action.

The Toronto Local Committee, consisting of the Rev. Alexander Sutherland, Messrs. J. Gavin, E. M. Morphy, J. Thompson, E. Coatsworth, M. Nash and T. Caswell, will arrange for public demonstrations in suitable places for the evenings of Tuesday and Wednesday the 5th and 6th of September, having in view the unity and prosperity of the work in Toronto, as a great centre of influence.

Again urging our friends from all parts of Ontario to attend in large numbers the approaching Convention, the Executive have pleasure in stating that the following arrangements have been made with the Northern Railway: Delegates by the Northern Railway will pay Full Fare to Toronto, then receive a Certificate of Attendance, enabling them to procure at the Toronto Depot, a return ticket at one-third fare.

W. S. WILLIAMS, Secretary. REV. WM. SCOTT, Secretaries. Napanee, August 30, 1871.

News Summary

In consequence of a vessel arriving at Hull, on board of which deaths from cholera had occurred, an Order of Council, applicable to England, has been published relative to shipping, which is substantially the same as the regulations issued by the Board of Supervision in July, 1867.

The total production of pig iron in the United States in the year 1870 was 1,800,000 tons. In addition to which 200,000 tons were imported, almost exclusively from England—making the total consumption in the country 2,000,000 tons. The production and consumption of pig iron in the civilized world is stated at 9,500,000 tons.—*Leader*.

In the year 1870 the exports from the ten chief ports of the United States amounted to something over \$471,000,000, and of the sum the five Southern ports of New Orleans, Savannah, Mobile, Galveston and Charleston exported to the value of \$185,000,000. New Orleans exported more than three to one more than San Francisco, Savannah more than twice as much as Philadelphia, and Galveston a third more than Boston.—*Leader*.

Of the 38,555,983 population of the United States, it is now reported from the Census Bureau only 4,968,994 are black, copper coloured, and yellow. Of these only 63,254 are Chinese, so that the prospect of the proud Caucasian race being swamped by Mongolians or negroes is very remote indeed. The grand total foreign born population, as compared with that of native birth, seems small, but it must be recollected that no allowance is made for children of foreign parents born in the United States.—*Leader*.

Every one knows that tobacco was first brought into repute in England by Sir Walter Raleigh. At first he smoked in private, not wishing it to become common; but sitting one day absorbed in meditation, with a pipe in his mouth, he called his servant to bring him a mug of beer. The fellow, as soon as he entered the room, was seized with terror, threw the contents of the mug into Sir Walter's face, and running down stairs, bawled out, "Fire! fire! fire! help! Sir Walter has studied till his head is on fire, and the smoke is bursting out of his mouth and nose!"

The first teetotaler in the Kingdom of Great Britain, it appears from an English paper is still living. His name is John King, and he is a Quaker, seventy-five years of age. He has been for many years an employee on the Lancashire and Yorkshire Railroad, but he is now superannuated. He has received a silver medal for his merit as first teetotaler, and now it is proposed that all the brethren of that ilk in the United Kingdom should contribute a penny a piece as a testimonial to the old king of teetotalers, thereby providing liberally for his declining years the "cup that cheers, but not inebriates." The worthy old Quaker has not been equally abstinent in all things, having been married four times, and living now with a young wife at Ainsdale.

The following are returns of population of the several provinces of New Zealand as shown by the census taken this present year: Auckland, 62,335; Taranaki, 4,480; Hawke's Bay, 6,059; Wellington, 23,982; Marlborough, 4,235; Nelson, 22,438; Westland, 15,337; Canterbury, 46,401; Otago, 60,578; Southland, 8,769; and Chatham Islands, 133. Total, 256,167, of which 150,211 are males, and 105,956 females. The population in 1867, the date of the last census, was 218,658, so that the gain per cent. in four years has been 17.4. It will be seen that there is a difference of nearly fifty per cent. between the male and female population, which the colonial authorities endeavor to counterbalance by offering free passages in Great Britain to all single young women of good character. The satisfactory financial condition of the colony is evidenced by the receipts and expenditures for the quarter ending 31st March last, the receipts being £850,676 19s. 4d., and the expenditures £563,236 19s. 6d. In reading over the list of imports for the Province of Auckland for the six months ending 30th June last, we find it includes 4,495 tons of flour, principally from South Australia and Tasmania.—*Leader*.

BIRTH.

At Richmond Hill, on the 27th ult., the wife of Mr. Asa Wilson, of a son.

Special Notices.

\$500 Reward. BY SECURING THE BEST AND PUREST DIEHL WHEAT FOR SEED.

Every farmer may in a short time secure the above reward. This best of all good varieties of Fall Wheat, after a fair trial of four years, has proved to be THE MOST PRODUCTIVE

And consequently the most REMUNERATIVE. Farmers of Ontario, do not swindle yourselves out of the above reward by sowing Diehl wheat that is mixed with perhaps a half-dozen other kinds when, with a little care you can obtain an article that is nearly pure, a true sample of which may be seen at the Herald Office, Richmond Hill.

The subscriber has a large quantity of this variety of wheat on hand, which is well adapted for seed, being entirely free from smut, chaff, cockle, or any other rubbish. Call and examine for yourselves. JOSEPH KEFFER, Hillside Farm, Lot No. 14, 3rd Con. Vaughan, September 1, 1871. 684

J. SEGSWORTH, DEALER IN FINE GOLD AND SILVER Watches, Jewellery, &c., 113 Yonge Street, Toronto. September 1, 1871. 684

Richmond Hill High School. THE NEW LAW REQUIRES THAT all pupils desiring to be admissible for the current half year, should be in attendance before the 8th day of September. The public will take notice accordingly. JAMES DICK, Chairman U.B.S.Y. August 23, 1871. 693-2

Full cases, from \$25 upwards extra.

Terms—Cash, or approved Notes with interest.

Wheeler & Wilson Manufacturing Co. great as they were, have been inadequate to supply the unprecedented demand of this favorite machine. Recent extensive additions to the company's manufacturing resources, however, enable them now not only to supply the demand of the world, but at a much cheaper rate. The public in Canada will now reap the benefit of these changes, and it is expected the present large reduction will increase the sale still more extensively. The privilege of showing any person the remarkable simplicity of construction and consequent ease of management of the Wheeler & Wilson, always affords us great satisfaction. We therefore invite all interested, (and who is not?) to call and see, and try for themselves. Those who cannot call at the warehouses will be waited on at their residences.
