The York Berald.

RICHMOND HILL, OCTOBER 27, 1871.

LECTURE.-" Switzerland, and across the Alps," is the theme of a lecture to be delivered next Tuesday evening, in the Weslevan church in this place, by the Rev. Charles Eby, B.A. The land and its associates are full of interest in the present day, and the gifted and eloquent lecturer is just fresh from a tour of the European continent.

The British Medical Journal of the 7th instant says: "Her Majesty has been suffering quite recently from a sharp rheumatic attack in the foot and head, and the brief notices of indisposition in the Court Journal have caused some anxious misgivings; but we are happy to state upon the best authority that the Queen is doing very well and that there is no cause for anxiety."

The expedition to Red River for the purpose of protection from the Fenians, embarked from Collingwood for Thunder Bay on the steamer Chicora, on Saturday last, at four o'clock, P.M. The men. some 300 in number, were in good spirits. The weather was mild, and they expect to have a pretty fair voyage. direct to Thunder The Chicora is to 2 Buy, without w any way with the med

Sabbath School 1 will hold their and neeting in the lecture-room of the Wesleyan church, in this place, on Monday evening next, the 30th inst., at half-past seven o'clock, for the purpose of electing officers for the ensuing year, and other business. A lecture will also be delivered on the oceasion by the Rev. Wm. Read; the subject of which will be "The model Sabbath School Tcacher. All are invited to

In the last Canada Gazette is a general order respecting the formation, equipment and maintenance of two batteries of garrison artillery, denominated "A" and "B" respectively, with headquarters at Kingston and Quebec, and furnishing detachments in Toronto and Montreal. These batteries will also be schools of gunnery for such officers and men as may wish to avail themselves for any convenient period of the facilities for obtaining practical instruction. The batteries will have the guardianship of the forts and all war material in the two provinces. It is the intention of the militia authorities to establish schools of gunnery at St. John. N.B., and Halifax, N.S.

Successful Operation .- A young man residing in the township of York, had received a severe burn in the sole of his foot when a child about five years old: after a time it healed, leaving a dense cicatrix, which contracted until the toes were drawn down so much that their upper surface formed a part of the sole of the foot. After arriving at the age of manhood, the increased weight produced so much irritation as to seriously interfere with his locomotion. Several eminent surgeons were consulted, who advised the removal of the toes. An operation had already been performed without relief. Dr. McMaster, of Yonge Street, was consulted, who was of opinion that the contraction might be overcome and the parts restored to their natural position and usefulness by what is termed a "plastic operation," which was accordingly performed by him in the following manner: The dense band or cicatrix was divided, across the sole of the foot; this was not sufficient to allow the toes to be straightened, as the bones had grown downwards and had to be brought up to their natural position by being forcibly extended, which left a gap of an irregular shape about three inches by two: in order that the parts might not contract again, a piece was taken from the calf of the opposite leg and carefully adjusted into the place described, where it united. The foot is now perfectly straight and in all respects the same as

BUSH FIRES .- During the latter part of last week and beginning of the present, large fires prevailed up the 2nd and 3rd concessions of Vaughan and GREAT SUCCESS King, destroying great quantities of valuable timber and cordwood. So alarming had these fires on Monday become, that, at the village of Patterson, the firm gave orders to have scaffolding erected around all the workshops of the establishment, and windlasses for raising water; so near had the fire approached that great anxiety was felt for the safety of that village. We are thankful to

learn that the fires have since gone down

and no particular cause of alarm is at

present felt.

The Fenian "scare" in the North West has vanished in smoke, with the | This success is Unmistakeable Evidence exception of trouble and cost to the governments of the Dominion and Manitoba. Gov. Archibald issued a "call to arms" to the Manitobans, which was heartily responded to by the male population, both old and young of French as well as English, in fact the enrolment was all but universal. With such an enthusiastic people, Manitoba need not fear the occasional displays of valor (?) of "Gin'ral" O'Neil and his handful of deluded execrable followers. The Fenian leaders were, of course, arrested by the United States authorities, and will, no doubt, go through the usual farce of a trial, imprisonment, pardon and liberty in time for the next periodical "demon-

A Missionary, just returned, says he re gards Johnson's Anodyne Liniment as be yond all price, and efficacious beyond any other medicine. It is adapted to a great variety of special cases, and is the best pain killer in the world.

For years and years past we have been familiar with Polar expeditions, but have heard very little of their success. The last one, the German expedition, claims to have succeeded in discovering a Polar sea, free from ice and swarming with whales. If this prove correct, further particulars will be most interesting.

For several months past I have used Fel lows' Compound Syrup of Hypophosphites | Everything Good & Cheap in the treatment of Incipient Phthisis, Chronic Bronchitis, and other affections of the Chests, and I have no hesitation in stating that it ranks foremost amongst the nedies used in those diseases. Z. S. EARLE, Jr., M.D.
