

Telegraphic.

Great Britain

London, Dec. 27.—The noon bulletin from Birmingham to-day reports that his Royal Highness the Prince of Wales passed a quiet night, but that convalescence is retarded by a painful affection above the left hip, accompanied by feverishness, but no inquietude is felt as to the Prince's condition, but regret and disappointment at the slowness of his recovery are generally expressed. Hopes had been entertained that the prince would be able to go out before the end of the holidays, and preparations for public rejoicing had been made. The non-realization of these hopes has thrown a damp on the festivities of the season. The Queen returns to Sandringham to-day.

Spain

Admiral Topeto, Minister of the Colonies, has announced his intention of making a reform in the volunteer organization in Havana. Reinforcements continue to go forward to Cuba, to aid in the suppression of the insurrection on that island.

France

Paris, Dec. 25.—The members of the Right Centre in the National Assembly having made overtures to the Legitimists for coalition, the latter, in reply, say they will usually coalesce, but, at the same time, will preserve their independence. They also announce their disapproval of Orleanist princes as leaders. Paris, Dec. 26.—M. Thiers delivered a powerful speech in the National Assembly to-day in opposition to the levying of an income tax.

The Vancouver Island papers say that recently as high as \$1-50 per dozen was paid for island eggs in the market. Subsequently \$1- and \$1-25 per dozen was asked and paid in the stores.

The Princess of Wales has sent a donation of fifty guineas to the North London College, feeling, she says, the "importance of giving a better education to girls of the middle classes."

The Company of New Testament Revisers have completed the first, and provisional, revision of the first two Gospels, and a commencement has been made in the revision of the Gospel of St. Luke.

Drying the year in which the marriage of the Prince of Wales took place about fifteen hundred female children received the name of Alexandra, and nearly three thousand boys were registered Albert Edward.

For loss of cud, horn ail, red water in cows, loss of appetite, rot, or murrain in sheep; thick wind, broken wind, and roaring, and for all obstructions of the kidneys in horses use Sheridan's Cavalry Condition Powders.

A maritime province exchange says that the post-masters in that part of the country have been instructed to demand a cent from the person who receives a postal card. Is this new rule to be general, or confined to the Lower Provinces?

An Irishman called at a drug store to get a bottle of Johnson's Anodyne Liniment for the rheumatism; the druggist asked him in what part of the body it troubled him most, "Be me soul," said he, "I trouble it in every houl and corner or me."

Messrs. Trubner & Co. will shortly publish a catalogue of dictionaries and grammars of the principal languages and dialects of the world. There will be upwards of 250 languages represented in this catalogue.

I can safely and consistently recommend Fellows' Compound Syrup of Hypophosphites in a variety of cases, especially for Chest diseases, having successfully prescribed it in Bronchitis, Asthma, Debility from Liver Complaint, Debility from Fevers, and Debility from impoverished Blood.

JAMES SALMON, Practising Physician and Surgeon. Trouble of a more serious nature promises to arise between the German forces occupying certain eastern departments of France and the inhabitants, in consequence of the stern determination of the conquerors to punish those in the army connected with the murderous attacks on isolated German soldiers. The French will, in some cases, bitterly resent such severe treatment, and sanguinary consequences may be expected.

Somewhat late in the day, considering the outrages which have been committed, the new Spanish Colonial Minister announces his intention of giving his attention to the volunteers of Havana with the object of reforming that unruly organization which has long and really ruled in Cuba whenever its interests happened to differ from those of the Captain-General of the day. It is high time that the power of this cruel Prussian band should be broken, and until its downfall has been assured the authority of King Amadeus will remain a mere figure of speech, and the increased measure of liberty which, under the changed order of things, might be naturally considered the inheritance of the "Ever faithful Isle" will continue a mocking delusion. A step in the right direction will have been taken by the brave Admiral, should he actually carry out the task he is reported to have undertaken; but he will find it a work of great danger and difficulty. The mere attempt to administer justice sternly in regard to the late threatening demonstration, resulting in the sad death of the students, would arouse the passions of the volunteers to such a pitch that a rebellion might be at once effected. As the Cortes had been adjourned to the 20th of January, it will probably be some time before we receive the details of the Admiral's scheme. In the meantime, however, reinforcements are continually leaving Spain for the trouble island, to crush entirely the remainder of the insurrection, and to hold in check the rebellious volunteers.

Correspondence.

NOMINATIONS FOR THE TOWNSHIP OF YORK.

To the Editor of the York Herald. Sir: At the late meeting held at the Prospect House, Eglington, for the purpose of nominating candidates for Municipal honors, the following gentlemen were proposed.

Messrs. Tyrrell and Jacques for Reeve. Messrs. Bull, Duncan, Franklin, Jacques and Watson, for Deputy Reeves. Messrs. Armstrong and Francis for Councillors.

After the nominations were over, the nominations were over, the nominees proceeded to address the meeting. Mr. Tyrrell having been proposed first for Reeve, requested to be allowed to speak at a later stage of the meeting, so that he might be able to correct any mistakes or settle any disputes which might arise during the proceedings.

He was then followed by Mr. Bull, who spoke much of past errors during the years previous to which he had been in the Council, but of judicial management during the past year, owing I suppose to him being a member of that body of men.

Mr. Jacques, in the course of his remarks, referred to a trap that was set for him last year by a gentleman, the name of whom I need not mention, and said that a similar one was laid this year. He (Mr. Jacques) was nominated for Reeve, as stated above, by a gentleman not at all a friend to himself, for the purpose of getting him to run as such, and thus get him out of the road for being elected as Deputy Reeve; but that gentleman miscalculated this time, for Mr. Jacques is sure of his election as Deputy. The gentleman aforesaid, the name of whom I have no need to mention, has himself canvassed the greater part of the township for support as Reeve, and after completely failing, openly declared that he never had any idea of running for the Reevship; the gentleman who acts thus ought not to be elected as a Deputy Reeve.

Mr. Franklin next spoke long and eloquently, but little to the point. He spoke of the vast amount of good he does the township, by dealing in cattle, and does not see why he has not as good a right to be elected because he is a butcher as a farmer has. He also flattered No. 4 Ward a great deal because he did not get a vote there last year for councillor, and regrets that the wards do not elect their members as they did formerly, because he would easily be elected in his own (No. 1 Ward).

Mr. Watson then spoke, assuring them that if they elected him he would not as heretofore, honorably and to the best of his ability.

When Mr. Duncan solicited support, he said he had been in the Council two years already and they did not seem to find much fault with him, he thought he would be elected again.

Ms. Armstrong then delivered his very brief speech, asking for support on the ground that he knew more now about Municipal affairs than he did twelve months ago, when they elected him before; and, therefore they should elect him again.

But Mr. Francis, his opponent, seemed to destroy all his hopes, with his remarks but that will be seen on the 1st of January next, when I sincerely hope Mr. Armstrong will be defeated.

Finally Mr. Tynell, after telling them that he had completed his 21st year in the Council, and having corrected the many mistakes which has been made by the other nominees during the proceedings, delivered some telling and appropriate remarks to which the audience gave great applause.

Yours, &c., SUBSCRIBER. York, Dec. 27, 1871.

To the Editor of the York Herald. DEAR SIR: I see by your last issue that I am placed in the list of candidates for the office of Deputy Reeve of the Township of Vaughan, for the ensuing year.

I would state to the ratepayers of Vaughan, through the medium of your journal, that I am not a candidate for that position. On account of my private business requiring my whole attention, I resigned at the nomination at the Town Hall, with the concurrence of my proposer and seconder.

Allow me to say in conclusion, that I do not wish my resignation to be taken as signifying any approval of the remaining aspirants for the office.

By inserting this, you will oblige Yours truly, N. CLARKE WALLACE. Woodbridge, Dec. 26, 1871.

The Geneva Commission on the Alabama claims will start all winter. There are 500 cases.

BALLOU'S MAGAZINE FOR JANUARY.

We find in the January number of Ballou's Magazine, which is just issued, such a complete collection of stories, romances, poems, engravings, and real useful information, that we do not wonder Ballou's Monthly is so popular with all classes of society. Here we see a New Year's story, and there a sea yarn, and so we read through the whole publication and wish for more. The magazine is only \$1-50 per year, or 15 cents per copy, and is for sale at all the news depots in the country. Here is a table of contents for the January number. See what a good one it is: "A New Year's Vision;" "The Charge of the Light Brigade;" "Boulogne;" "The Orkney Islands;" "Scenes in Wales;" "St. Augustine Madagasc;" "The City of Adrianople;" "Turkey;" "Marseilles and its harbor;" "The Ogilvie Pride;" "A Ray of Light;" "The Shining Mark;" "Light and Shade;" "Miss Bowlesby's Legacy;" "The Frost Fairies;" "What the New Year brought for Lucy Campbell;" "Sara's Fate;" "The Old and New Year;" "The Fugitive Slave;" "The Rio Topaz;" "Our Young People's Story-Teller—Guess or, The Son of a Politician;" "A Child's Party;" "Kisses and Kissing;" "Curious Matters;" "The Housekeeper;" "Facts and Fancies;" "Winter Scenes"—(Humorous Illustrations). Thomas & Talbot, Publishers, 63 Congress Street, Boston.

Powell's Pumps. POWELL'S PATENT PUMPS are made under genuine patents in Canada and the United States. Are no spurious imitation or infringement. POWELL'S PATENT PUMPS. The only efficient fire engine pump, available in a few seconds, winter and summer, day and night. Infringers beware. POWELL'S PATENT PUMPS are now made, have no castings to come loose or break. Have all steel bearings, guaranteed. POWELL'S PATENT PUMPS, erected within the last few years, can have recent improvements attached, and guaranteed superior to any other make. POWELL'S PATENT PUMPS have already taken the leading place in some of the United States, as well as in Canada. POWELL'S PATENT PUMPS have all the merits of other pumps without their defects. No other possess their peculiar advantageous features. POWELL'S PATENT PUMPS are now perfected, are the successful result of twelve years endeavor to supply a want universally felt. POWELL'S PATENT PUMPS, even in their hitherto imperfect form, have in all instances carried off the highest prizes from all competitors. POWELL'S PATENT PUMPS are adapted for the deepest wells. Resistant to all depths from cistern to one hundred and thirty feet. POWELL'S PATENT PUMPS have a continental reputation, and are fast superseding all other kinds both in wood and metal. POWELL'S PATENT PUMPS, while they cannot be approached in wood, have never yet been equalled in metal at double the cost. POWELL'S PATENT PUMPS cannot be rivalled without infringing Powell's Patents. Users of infringing pumps are liable. C. POWELL, Patentee, Newtonbrook.

POWELL'S PATENT PUMPS are adapted for the deepest wells. Resistant to all depths from cistern to one hundred and thirty feet. POWELL'S PATENT PUMPS have a continental reputation, and are fast superseding all other kinds both in wood and metal. POWELL'S PATENT PUMPS, while they cannot be approached in wood, have never yet been equalled in metal at double the cost. POWELL'S PATENT PUMPS cannot be rivalled without infringing Powell's Patents. Users of infringing pumps are liable. C. POWELL, Patentee, Newtonbrook.
