Editor's Notes. A PUBLIC DEBATE.—A public debate will be held in the Masonic Hall, Richmond Hill, on Tuesday evening, May 14th, under the auspices of the Mechanics' Institute. Subject: "Resolved that free trade between countries is better than a protective tariff." Chair to be taken at 8 o'clock P.M. CHEAP TEA AND COFFEE.—Tea and Coffee drinkers will be glad to learn that the Finance Minister of the Dominion has decided to abolish the duty on these commodities imported into the country after the 1st of July next. This will be a great boon to all and will reduce the revenue of the country somewhere near a million and a quarter dollars. Sir Francis Hincks, we have no doubt, will prepare to meet the deficiency in some other way, perhaps by putting an additional duty on articles, which, compared with tea and sugar, are luxuries.

BALLOU'S MONTHLY MAGAZINE FOR JUNE.—Fresh and brilliant, fragrant with romances and sweet stories, is *Balloy's Monthly Magazine* for June. We open its pages with pleasant anticipations of the good things to be enjoyed, and we find that such expectations are not met with disappointment. We read of travels in other lands, of thrilling sea adventures, of wonderful romances, of delicious love stories, beautiful poetry, with engravings of rare merit. We are never disappointed in *Balloy's Magazine*. It is always up to the mark. It never flags, as will be seen by the following table of contents: "Off Cape Horn;" "An Ocean Steamer;" "Damasus;" "A Spanish Scurvy;" "Chinese Scenes;" "Scene on the Danube;" "Indians and Indian Encampments;" "The Ogilvie Pride;" "Life's Lessons;" "It might have been!" "All's Well;" "Connecting Links;" "The Tables Turned;" "Unsolved Problems;" "Under the Rod;" "Regret;" "A Month in State Prison;" "Spring;" "Charcoal Bill;" "Heart sick;" "A Living Entombment;" "Herm Trussel's Luck;" "A Night Watchman's Adventure;" "Our Young People's Story-Teller-Guess;" "The Son of a politician;" "An Allegory;" "Two Sides to it;" "Ruthven's Puzzle Page;" "Curious Matters;" "The Housekeeper;" "Facts and Fancies;" "The Great Jubilee." (Humorous Illustrations.) It is only \$1-50 per year, or 15 cents single copies. Address Thomas & Talbot, 63 Congress Street, Boston.

News Items. The members of the Japanese Embassy arrived at Liverpool on the 16th inst, from America. A destructive fire occurred in St. Paul, Minn, on Saturday. Loss, \$125,000; insurance only \$20,000. A man named Conroy was burned to death. It is stated by our correspondent at Ottawa that the three companies competing for the construction of the Canada Pacific Railway have amalgamated. At an inquest at Leeds on a railway pointsman, named Hodgson, it was shown that he had died from the effects of the rails, and that his head and legs were cut off. The *Times* says Dr. Walpole has lost his beautiful chestnut mare. She died suddenly in harness, it is supposed from bots or pin worms. If the Doctor had used *Sheridan's Cavalry Condition Powders*, he would, no doubt, have had his mare to-day—they are death on worms. Chapped hands are very common with those who have their hands much in water. A few drops of *Johann's Anodyne Liniment* rubbed over the hands two or three times a day, will keep them soft and white. Fishermen, sailors, and others will do well to remember this. It is not little singular that the "Liberals" of the United States have nominated two newspaper editors for the President and Vice-President; Greeley being, as everybody knows, editor of the *New York Tribune*, and H. G. Grant having been formerly editor of the *Missouri Democrat*. It is said that of the thirty one thousand post offices in the United States, more than a thousand are run by women. Perhaps this is the reason why our neighbors never ventured to adopt the postal card system—business would be liable to a hindrance if such a temptation was placed in the way of female curiosity. Some details reached Liverpool on Saturday of the total wreck of the Pacific Steam Navigation Company's royal mail steamer *Valparaiso*, which ran ashore on a reef called *Largartigas*, situated between Ancel and Port Mont. The crew and passengers were saved, but the vessel and cargo will be a total loss. William Henry Podgers, the son and assistant of the Postmaster at Bloomingdale, Waterloo county, was arrested on a charge of abstracting money from a registered letter and lodged in Berlin jail. The thief was discovered through the efforts of Mr. Sweetnam the inspector at Toronto, by means of decoy letters. Another great tragedy had been enacted in London, a shoemaker who had been out of work for some time murdered his four children, during it is supposed, a fit of frenzy and then committed suicide. The wretched man had hitherto borne a good character. His wife was out at work when the deed was committed.

THE WASHINGTON TREATY.

Sir John A. Macdonald, in a few well placed sentences in his great speech on the Washington Treaty, delivered on Friday last, sums up the disadvantages that will result if the Commons reject the clauses of it so far as it refers to Canada, a course most pitifully recommended by the Grit press of Ontario, in the following words:—"Reject the Treaty and you do not get reciprocity. Reject the Treaty, and you leave the fishermen of the Maritime Provinces at the mercy of the Americans. Reject the Treaty, and you will cut the merchant engaged in that trade off from the American market. Reject the Treaty and you will have a large annual expenditure in keeping up a marine police force to protect those fisheries. Reject the Treaty, and you will have to call upon England to send her fleet and give you both her moral and physical support, although you will not accept her policy. Reject the Treaty, and you will find that the bad feeling which formerly, and until lately existed, against England, will be transferred to Canada; the United States will say, Here, when two great nations like England and the United States have settled all their difficulties, all their quarrels, upon a perpetual basis, all is to be frustrated and endangered by the Canadian people, because they have not got the value of their fish for ten years."
