SIR: The teacher of the public school, Mr. A. Muir, has accepted a position at Newmarket; before leaving here a comsented. The address from the pupils was much. read by the daughter of J. Gibson, Esq., School Trustee and Councillor.

"ALEX. MUIR, Esq., B.A. "DEAR SIR. - I, on behalf of the members of the New Dominion Rowing Club, desire to express the feelings of respect and esteem towards one who has filled the President's chair since its organization, and to whom we owe, in great measure, our present success and prosperity.

"We deeply regret your departure from na hut trust it is for the best, and hope ere long you will occupy your old seat amongst

"Allow me, therefore, to present you with this medal, and it will be our constant prayer that you may be spared many happy New Years to wear it.

"In conclusion, I sincerely trust that after we have pulled this long race of life, found in good condition to take part in that long race of eternity. "Signed, on behalf of the Coub,

"Yorkville, Dec. 20th; 1872. "TO ALEXANDER MUR Esq. B.A.

"DEAR TRACHER, - We are all very, very sorry that you are soon to leave us. You have been so kind, and have taken such pains to explain our lessons and make them pleasant to us, that we feel deeply thankful, and have learned to love and prize you very highly as our teacher.

'You have shown your deep interests in ns not only in the usual school studies, but also in your endeavors to plant in our minds the more precious lessons of truth and vir tue, so as to make us as far as you could, good boys and girls, as well as being good

"We love you also because you have been so gentle and patient with us, although your patience, by us, has too often been tried. We have also been very thoughtless and very mattentive, for which we are now

"Will you please accept from us, the pupils of the Yorkvi le central school, this this city. copy of that Holy Word of God, out of which you have so long and so faithfully taught us, y ur pupils.

" May you be spared for many a year to read and to enjoy those sacred pages and to teach them to others when you are removed from us.

"And new, dear teacher, we must say good bye. · Wherever you go may you find scholars who will love you better and give you more pleasure than we have done, and may all happiness and prosperity attend you, and if we do not meet you again on earth, we hope and play that we will all meet around

"Your affectionate friends

Ball in Honor of Earl Dufferin.

Dufferin having graciously expressed their villingness to leave to the Ball Committee he selection of any day within the period prescribed for their stay in this city after their return from Quebec, the committee, responding to the representations of the Corresponding Secretary of the Montreal Auxiliary Bible Society, that "these societies hold their stated annual meetings in accord ance with their constitution, and also long usage, in the fourth week of January, have decided to postpone the ball to Tues day the 28th January. This has not been done without inconvenience, as considerable progress had been made in the arrangements for the ball, and a contract had been entered into with the proprieter of the Queen's Hall, Cathedral Block, to have the place in readiness within a specified time the hast ening of its completion, necessarily involv ing large outlay on the part of that entle man. This is not the first instance in which the committee have deferred to the wishes of the religious community at large. As to the hall itself a select number of the committee conversant with building matters have personally examined it aud assured hemselves of its perfect security.

His Excellency the Governor General and he Countess Duffierin, who arrived here on Saturday, attended by Lieut Colson of the 60th Rifles, and R. W. Hamilton of the 9th Regiment, aides de camp, were met at the station by His Worship Mayor Coursol. His Excellency immediately drove to the St. Lawrence Hall, where an elegant suite of rooms had been prepared for him. On Sunay morning His Excellency and Lady Dufferin attended service in the English Cathedral. His Excellency is expected to leave for Quebec on Friday next, where he will make a short stay, and then return to

The next meeting of the British Medical Association will be held in London. It is ten years since the association met in Lon-

An open air meeting was held in Stockton plimentary concert was given to him, at which the following addresses were presented. The address from the pupils was conted. The address from the pupils was were injured. The English and the Welsh, who outnumbered the Irishmen, charged on the platforms, carried off the Irish flags and trampled them in the mud.

THE Conservatives have carried Derry. In reference to the result of the election, the Dublin Evening Telegraph (a Liberal paper) says that if the example pursued at MONTREAL, Jan. 8.—His Excellency the Governor General and the Counters of one Ministerialist, and one Home Ruler are started for every Irish constituency, the result will be that a strong phalanx of I ish Conservatives will sit behind Mr. Disraeli.

The following lines, by Moore, are, we believe, now published for the first time:-When life looks lone and dreary, What light can dispel the gloom?

When time's swift wing is weary, What charm can refresh his plume? 'Tis Woman, whose sweetness beameth On all that we feel or see; And if man of heaven e'er dreameth,

'Tis when he thinks purely of thee, Oh! woman! - Athenaeum The rumors of Prince Bismarck's resig nation of the Presidency of the Prussian Council excite much comment. The jour hals of Berlin all discuss the matter, the tenor of the opinions thus far expressed being that Prussia is the heart of Germany; that the eadership of Prussia in the affairs of the onfederation is essential to the leadership of Germany in the affairs of Europe, and that Prince Bismarck's retirement from the Prussian Council is likely to lead to an im

portant crisis in the politics of the country. We learn from St. Petersburg this moreng, that the British ambassador has notified the Russian Government, that if the Russian troops penetrate the countries between Khiva and Affghanistan, England will be compelled to interfere in support of Affghan ndependence. England will not allow Russia to approach too close to our Indian possessions without a struggle; and, of course, in case England draws her sword against Russia she would operate in Russia as well as in Asia. - Leader.

HOW T ENLARGE A CITY. - A correspondent at Rotterdam writes :-- It was long ago decided that our town should be extended, and that a new town should be built on the other side of the river. There was, how ever, a good deal of money necessary to realize this plan, and there was only at disposal an amount of 3.600,000 flories, which was not enough. In the last sitting of the town council, however, some documents were laid before the members, stating that the Rotterdom Commercial Company (established some months ago with a capital A Paris tradesman has been sent to pri of fifteen millions) offered to buy grounds son for two years for displaying in his shop on the other side of the river to the extent placaids containing remarks insulting to of 400,000 cubic metres, and to pay for the National Assembly.

If this The journals of Posen have been threat plan is approved, the new town, with its ened with suppression by the German Gov harhours and commercial establishments, erument, in case they publish that part of the -will be ready within six years.

Do CLIMATES CHANGE? - Many persons believe that no very marked changes ever take place in a section of country where stability in nature is a settled fact, but at mospheric alteration is certainly going on from age to age, and here are illustrations; Two thousand years ago the climate of Italy was far colder than now. The Loire and Rhone, in ancient Gaul, used to freeze over annually. Juvenal says the Tiber froze so firmly in his day that the ice had to be cut to get at the water. Horace indicates the presence of ice and snow in the streets of Rome, and Ovid asserts that the Black Sea freezes over every year. So extreme was NEWMARKET, Jan. 7 .- Some time during the cold at that far off period in history, that last night a barn was broken into and about lit stands chronicled by the ancients that in to refer back to the Council of 1871. sixty bushels of wheat abstracted. OFFICE.

The PUBLIC OF THE BRITISH PROVINCES OF AORTH AMERICA.

I beg most respectfully to acquaint the public of the Bridsh North American provinces that in May, 187, I caused the business at Mo Maiden Lame, New York, for the sale of Holloway's Prils and Unitary, which were my to that time prepared by William Brown, now deconved to the closed deconve deceased, to be closed. I regret to say that I have reason to know that the management of late business had for some years, and in many

ways, been most corrupt, and it may be that the Pills and Ointment were not prepared with the care I have alway-desired.

Those who do not wish to be deceived by buying spurious medicines, which are now likely to emanate from the States or elsewhere. but to possess themselves of the genuine Hon-LOWAY'S PILLS AND OINTMEST, MANUfactured by me in Londou, England, will do well to see that each pot and box bears the British Government stamp on which is engraved the words "Holloway's PILES AND CHYMERT," and that the addresson the label is 5.53 Oxfore STREET, LONDON, where only they are mank-factured, and in no other part of the world

No representative of mine will ever trave Can be had at the Post Office, for 10 CENTS A though any part of the British Provinces to the United States, either to sell, or to take orders for my Pills and Ointment, and and have reason to believe that attempts will very probably be made to deceive the public in this way by persons calling on medicine vendors, falsely re-resenting that they are acting for me

worthless imitations of the genuine Holle-springs of existence, and as nothing can save them from dest notion when this principle leaves them, the discovery of means whereby vitality may be sustained in the living body is indeed a boon to the world.

Modern chemistry has ventilated the question and discovered the ingredients con tituing the brain, muscles and nervors, and finds that by introducing these ingredients in proper proportions the brain and nervous system are strengthened. have supplied them, so as to enable me, for the protection of the public, to institute pro-
