

THE CHANCERY BRIGADE.

The action of the gentlemen forming the above corps in our House of Assembly has fully warranted our remarks from time to time, through the columns of this paper.

THE INTERNATIONAL SERIES OF S. S. LESSONS CONTINUED.

Another advantage derived from the International Series of Sabbath School lessons is the aids which will be available to every earnest teacher, to assist him in preparing for his class.

Another reason in favor of the adoption of the "series" is that it results in overcoming a difficulty experienced in all schools, and that is the irregularity of teachers; every superintendent is painfully acquainted with the inconvenience caused by the absence of teachers.

Again, the scholars are more likely to learn, because the most attractive portions of the Bible have been selected, and all learning the same, are prompted to study, and when leaving that locality for another it would be a pleasing thing for them to find no break in the series, but that they could commence with their new Sabbath School acquaintances at the same lesson as at home, though many miles distant.

Lastly, if adopted the "series" admits of a review. It is not so much what our scholars learn as what they retain that has a tendency to make them mighty in the Scriptures, for doctrines like the multiplication table in our boyhood days take a great deal of getting off, but a rehearsal occasionally, in the shape of a review, fastens them on the memory, and makes them their own.

THE HOUSE.—What a sham is "Reform" as preached by Ontario Grits? Here we are near the end of the third week of the session, and nothing for members to do! On Monday last, the House had to adjourn before five o'clock, the whole "paper" having been exhausted.

VAUGHAN TOWNSHIP COUNCIL.

We beg to assure our correspondent, "X," that the fault is not ours; we are always anxious to publish the minutes of the Township Council proceedings for the benefit of our Vaughan friends, and the public generally. We sent, as usual, to the Township Clerk to ask permission to copy the 'minutes,' but our special messenger was informed that he could not be allowed to copy them, and if we wanted the minutes particularly we must pay a dollar for them. We have complied with the Clerk's "stand and deliver" exaction rather than keep our friends in the dark as to the movements of the Council. We did not want the Clerk to write them for us, we were satisfied to copy them, and only wished to be permitted to take a copy from the minute book. We claim that our request was reasonable, and that Mr. Lawrence is endeavoring to prevent the publicity of the Council proceedings, in exacting from us the sum of one dollar, in this instance. The ratepayers of the Township are beginning to awaken! We shall see what we shall see.

NORTHERN AMBITION.—Our contemporary to the north of us, the Newmarket Courier, has lately got a fresh editor, who appears to be a live journalist, and we would like to give him a "puff," but before doing so we would have him explain what "place" he means when he says: "The York Herald lets out a disconsolate groan because six grits compose the Public School Board of that place this year." It is well known to our readers that the York Herald is not in the habit of letting out "disconsolate groans" about anything, let alone about six paltry grits, besides everybody knows that the said six grits, referred to in the Herald, belong to the Yorkville School Board. Be more cautious in selecting your "editorial melange," Mr. "Courier"—though young in the profession, you may do well yet.

CANADIAN DAIRYMEN'S ASSOCIATION.

The sixth annual convention of the Canadian Dairymen's Association will be held in the town of Ingersoll, Ontario, on Wednesday and Thursday, February 5th and 6th. In preparing the programme for this meeting, the Executive has aimed to introduce such topics for discussion as will be of the greatest interest to all engaged in dairying operations. X. A. Willard, A. M., will deliver the annual address. Prof. Caldwell, of Cornell University, Ithaca, N. Y., will address the convention on "Tainted Milk," and the Hon. George Brown, on "Soiling." Prof. J. T. Bell, of Albert College, Belleville, and the Rev. W. F. Clarke, will also address the convention on subjects of their own selection. Hon. A. McKellar, Commissioner of Agriculture, and Professor Buckland, if their duties will permit, will also be present. The following are some of the topics that will be introduced for discussion:—Marketing Cheese; Floating Curds; Best Pasture for Dairy Stock; Proper Curing of Cheese; Milk and Milking. A question drawer, under competent management, will be one of the most interesting features of the meeting. Prominent cheese makers will be present and prepared to give detailed accounts of their system of manufacture.—Leader.

"I cannot imagine," said a Town Councilor, "why my whiskers turn grey so much sooner than the hair of my head." "Because," observed a bystander, "you have worked harder with your jaws than with your brains."
