To the Editor of the Mail.

Sir.-I herewith beg to enclose you a copy of a letter I wrote on the 17th inst.. to the Hon. George Brown, in refutation of if he, Doctor Ramsay, of Orillia, will take the shameful charge of forgery, &c., which the lead for Cook, is the broth of the whole appeared in the issue of his paper, the Globe, of the 14th inst. Trusting that in the in-terest of justice you will insert this in your Grit, he and his son doing all they can for valuable paper, I remain,

Yours respectfully, A. G. P. DODGE. Ottawa, March 20, 1873.

OTTAWA. March 17, 1873.

The Hon. George Brown, Toronto G'obe:

Sir,—If you have respect for justice and British fair play you will, I feel assured, open your columns to a vindication of the state of self against the foul aspersions of your of these letters was overrun by zealous into his chart room, leaving orders to be leading article of the 14th inst. I said in my address in the Commons that you were cold, merciless, tyrannical, and selfish; that you would stoop to misrepresentation, falsifying the good characters of others for party or selfish ends. No stronger proof of my truthfulness of representation is needed say was personally present in my rooms. than is conveyed in that leading article. First, neither the Hon. J. B. Rodinson nor Col. Fred. Cumberland had anything to whatever with my appearance in the control of th do whatever with my appearance in public life. The former urged me never to enter upon it; the latter had in the States, thoroughly endorsing my chair first information of my intentions from addressing the modifying of these productions by against Sir John unconditionally. I did say that I was a better Reformer than Mr. Parnam or yourself. If Reform is liberality and progression, you have much now to and progression, you have much now to learn from the party in power. On every hustings, wherever I addressed the people, I eulogised the Government of Sir John, his railroad projects, and his administration, and never said all my sympathies were with Blake and Mackenzie. My speeches were all Union, Progress and Reform, which now believe can be better realized by the now pelieve can be better realized by the present Government than by your political friends. I heard grave charges made against the Government. I said I would investigate them, and, if true, I would not support the present administration. Careful study since the clotter presents. the election makes me assured that most of them were of a piece with your misrepresentations of me—untruthful, unreliable. When pasked the question, "If, when you get to Ottawa, your vote alone will keep in or put our the Ministry, how will you give it?" Clark's letters, and say what you want my father to say, and I will assume all the restawa, the public condemnation of Sir John with Doctor Clark's communications before With Doctor Clark's communications before With Doctor Clark's communications before vote alone, and under these circumstances my vote is wanted to turn out Sir John A. Macdonald, the Opposition shall have my vote." Again and again and always I promised to give the Government a cordial he would have made it, if addressed to mised to give the Government a corular hearty support while they had strength to to do, I passed the proof sheet, roughly corner on, and not to vote against them copied to Mr. Morgan or Doctor Ramsay, and the proof sheet, roughly copied to Mr. Morgan or Doctor Ramsay, and the proof sheet, roughly copied to Mr. Morgan or Doctor Ramsay, and the proof sheet, roughly copied to Mr. Morgan or Doctor Ramsay, and with run authority states the proof sheet, roughly copied to Mr. Morgan or Doctor Ramsay, and with run authority states the proof sheet, roughly copied to Mr. Morgan or Doctor Ramsay, and with run authority states the proof sheet, roughly copied to Mr. Morgan or Doctor Ramsay, and with run authority states the proof sheet, roughly copied to Mr. Morgan or Doctor Ramsay, and with run authority states the proof sheet, roughly copied to Mr. Morgan or Doctor Ramsay, and with run authority states the proof sheet, roughly copied to Mr. Morgan or Doctor Ramsay, and with run authority states the proof sheet, roughly copied to Mr. Morgan or Doctor Ramsay, and with run authority states the proof sheet, roughly copied to Mr. Morgan or Doctor Ramsay, and with run authority states the proof sheet, roughly copied to Mr. Morgan or Doctor Ramsay, and with run authority states the proof sheet, roughly copied to Mr. Morgan or Doctor Ramsay, and with run authority states the proof sheet, roughly copied to Mr. Morgan or Doctor Ramsay, and with run authority states the proof sheet, roughly copied to Mr. Morgan or Doctor Ramsay, and with run authority states the proof sheet, roughly copied to Mr. Morgan or Doctor Ramsay, and with run authority states the proof sheet, roughly copied to Mr. Morgan or Doctor Ramsay, and with run authority states the proof sheet, roughly sheet the proo as possible to make up my mind on which side I would be most useful to the country. It only required the study of the interval and watching the tactics of your friends for a few days, to enable me to make up my mind where my heart and head told me to go, and where a large majority of my sup-porters would have me go, I feel assured. I thought it honest and manly to come out at once and show where I stood. Neither character, as you are, or being known as too partial a friend, I should prefer the Sir John or others have influenced me. He has said "I don't ask for your support, Mr. Dodge, nnless you have confidence that my measures are for the good of the country,"

istry.

And now for the charge of forgery which After the most contemptible efforts for months to levy blackmail from me, forgetful of every instinct of manliness, of every sacred claim of honor and truthfulness, they threatened me with a law suit, which I did not shrink from. They dropped this foolish purpose, and have now imposed on you their sneaking tale. I told them and others, as far as I was concerned, that not one thing said or done by me during the election, was I afraid to justify and repeat before my electors and the whole country. You say, "It was, we understand, from ap-Tou say, "It was, we understand, from applications coming to Canon Ramsay for copies of the document, that he was first apprised of the use Mr. Dodge had made of plications coming to Canon Ramsay for apprised of the use Mr. Dodge had made of his name and position." Dreadful Calamity. SEVEN HUNDRED PERSONS DROWNER

HALIFAX, April 1 .- This afternoon a steamer was wrecked on the coast. The White Star Line steamer Atlantic, Captain Williams. from Liverpool for New York coming into Halifax for coal, struck on Meagher's Rock, near Prospect, 22 miles west of Halifax, becoming a total wreck. Out of about 1,000 souls on board upwards of 700 were drowned. The third officer, Mr. Bradley, arrived in town this evening. says the Atlantic left Liverpool on the 20th of March, with upwards of 800 steerage passengers, and about 50 cabin passengers; they experienced boisterous weather, but all went well till noon on Monday, the 31st ult., when the supply of coal being nearly exhausted the Captain determined to put in to Halifax. The Captain and third officer were on deck till midnight. The position was then judged to be Sambro Light bearing N. N. W. 39 miles. The Captain then went called if there was any change in the vessel's position. Bradley went to hed at the same time. The next thing the latter remembers his being thrown out of his bunk. He felt the ship strike several times, and rushing on deck found the Captain and other officers there and the deck crowded with the pas-sengers. He got an axe and commenced to clear away a hoat, the Captain and other officers doing the same. Bradley got his boat out and put two women into it; a num ber of men also attempted to get into it, and about a dozen succeeded. At that moment forward and unrove the halvards, being as sisted by Speakmen and Owen, quartermasters. Bradley took the halrards and all three swam to the rock; a line was then hauled ashore and a number of the passen gers landed by it. A great many had got on the rock, but as the tide was rising their it was given the moment the telegraph reached him. On my return from an ex. in boats and rescried those on the rock and also a large number from the rigging. Bradley remained at the scene till noon to day, when all who were alive on board had been saved, except the chief officer, Mr. Frith, who was in the rigging shouting for help, Bradley said that he tried to get a turn, and would have nothing to do with help, Bradley said that he tried to get a that part of it. His son, Doctor Ramsar, crew to go out to rescue Frith, but the sea was running so heavily that nobody would venture. Altogether about 250 were saved, including Capt. Williams, the fourth officer Mr. Brown, the doctor, and several engineers and sailors. Not a single woman or child was saved; most of them, as well as hundreds of the men, were drowned in their berths. The ship struck at two o'clock this morning. At that time it was dark but not thick, and the sea rough. Steamers are Canon Ramsay, and with full authority so going down to night to render what assist-to do. The late election in Quebec County seems to have had a wonderful effect upon the trade and commerce of the constituency We read of "farm-house cats bringing \$10 per head," cordwood finding purchasers at not a servile follower, to crush me and my \$16, and country grocers being favored with, business; and yet I have hopes of being of lavish orders." The Quebec Chronicle some use to my adopted country, for, insinuates that M. Fabre, the defeated "threatened men live long." You say my Opposition candidate, knows something about it.

Two drunken men disposed of themselves in Hoboken, N.Y., the other night in a way that closely resembles the proverbial Kilkenny cats. They had been infesting a street car with their uncomfortable presence, but finally left it near Ferry street. Soon after several ptstol shots were heard, and those who hastened to view the fight found a pool of blood, and the hats which had been worn by the drunken men. Of the men themselves nothing whatever was found. The conclusion seems inevitable that they had engaged in sterrible fight, and so completely riddled one another with bullets that no trace of the bodies remained. Fellows' Compound CYRUP OF HYPOPHOSPHITES.

As alllife-endowed bodies, whether they be Beast. Birds. Reptiles, Insects or even Zoo-phites, and subjects of the Vegetable Kingdom are governed by vital force, which binds all the prings of existence, and as nothing can save them from destruction when this principle leaves them, the discovery of means whereby vitality may be sustained in the living body is ndeed a boon to the world.

indeed a boon to the world.

Modern chemistry has ventilated the question and discovered the ingredients con tituting the brain, muscles and nerves, and finds that by introducing these ingredients in proper proportions the brain and nervous system are strengthened. This, then, is substantially the basic on which FELLOW'S HYPOPHOSPHITES is built its

direct action is upon the Blood, the Brain and Nervous System, and the Muscles. Strength-euing the nerves, it causes the rapid distribu-tion of Vitalized Blood in the Muscular Organs of the Body.
Rousing the Sluggish Heart and Liver,

Caution!! Caution!!!

TO THE PUBLIC OF THE BRITISH PROVINCES OF KORTH AMERICA.

I beg most respectfully to acquaint the public of the British North American provi ces that in May, 187, I caused the business at "O Maiden Lane, New York, for the sale of Hol-LOWAY'S PILES AND CINTERENT, which were up to that time prepared by William Brown, now deceased, to be closed. I regret to say that I have reason to know that the management of Richmond Hill P. O. late business had for some years, and in many ways, been most corrupt, and it may be that the Pills and Ointment were not prepared with

the care I have always desired.

Those who do not wish to be deceived by buying spurious medicines, which are now likely to emanate from the States or elsewhere, but to possess themselves of the genuine Holloway's Pills and Ointment, manufacture! by me in London, England, will do well te see that each pot and box bears the British Government stamp on which is engraved the words "Holloway's Pills and Unitment," and that the address on the tabel is 5.33 (Xronm Street, London, where only they are manufactured and in the state of the st factured, and in no other part of the world. The retail prices are on the labels in British currency, and not in dollars and cents.

No representative of mine will ever trave Mo representative of mine will ever trave through any part of the British Provinces the United States, either to sell, or to take orders for my Pills and Ointment, and as I have reason to believe that attempts will very probably be made to deceive the public in this way by persons calling on medicine vendors, falsely re-resenting that they are acting for me and with my knowledge and consent I deem

it advisable to put the public on their guard against any such deceptions.

I most earnestly entreat all those whe may read this advertisement that they be pleased. in the public interest, to communicate the purport of the same to their friends that they may not be defranded of their money by purchasing worthless imitations of the genuine Hollo

way's Pills and Ointment.
