THE HIGH SCHOOL QUESTION.

On Monday, the 16th instant, the County Council will assemble, when it is expected that the fate of the High at the moment he intended leaving Eng-Schools of Richmond Hill, Markham and Newmarket will be decided-"to be or not to be?" We shall then learn whether the higher educational institutions of this county are to be closed, and the grammar school fund -heretofore divided among these three establishments -taken to swell the income of similar institutions in Toronto and elsewhere. It will be a sad day for the intelligent youth of the County of York, when the High Schools of the three villages named are closed, and closed they will be if Mr. Porter and his abettors can carry their point. We are aware that there is a class of people who are opposed to educating the sons and daughters of farmers, mechanics, and the working classes generally, beyond that which is commonly understood by the three R's; indeed, we recollect when the present High School building was about to be erected, some twenty years ago, an aristocratic individual was called upon to subscribe towards the building fund, and the answer given was in keeping with the notions of those who are now endeavoring to close our High Schools in positions, and always obtained and rethe county; it was in words like the tained the respect of those most deeply following: "I doubt very much, sir, if opposed to him in politics.
