

OUR SIDEWALKS.

To the Editor of the York Herald. SIR: If sidewalks were built along Yonge street it would encourage mechanics, retired gentlemen and others, to locate in our neighborhood. Many people have an aversion to living in towns and villages, and will keep in the suburbs so that they may have the advantages of the village without being in them. If we had sidewalks it would encourage small manufacturers and gentlemen of wealth and influence to come amongst us. It is unfair to compel a large portion of the residents along the street to go a mile and a half or two miles to perform their statute labor, upon a road which they never travel. The laborer now is compelled either to perform two days work or commute for the same. This should not be so, but a sidewalk should be built upon which he, his wife and family can go to church or school at all times. The mechanic has to perform his statute labor, yet he derives no direct benefit from it. The man of means, wishing to reside convenient to a leading road and near a village, so that he can enjoy all the advantages he possibly can,—such as a daily paper, church, &c.—yet if they want a plank walk they must build at their own expense, besides performing their statute labor for which they are not a whit benefited. It might be said that the farmers would object to commuting a portion of their statute labor for such a purpose, but I believe a large majority would be in favor of building a sidewalk; it would be the means of bringing the consumer in close proximity to the producer. And is that not what every farmer should strive for? not to be depending upon so many middlemen or commission agents before their produce arrives at the consumers, or upon railroads for he is in danger of monopoly. Nor should he depend so much upon a foreign market, where the rates of tariff may rise so as to almost exclude his products. Having the necessary conveniences, (of which a sidewalk is a very important one,) will bring men of wealth and encourage industrious persons to locate in our vicinity. Perhaps there might one or two garrulous farmers who do not want to see any improvements because they or their fathers' have done so long without such conveniences. They think people should still continue to plod through the mud. Again, he does not like to give any of his money towards statute labor, he being accustomed to perform it by sending his team and men or boys—warning them before leaving not to overwork themselves or horses, which generally is needless advice, as it is performed in a lazy, listless manner. Now if the people would petition our Municipal Councils of Vaughan and Markham, asking them to pass a by-law authorizing the commutation of one half of the statute labor of all residents and ratepayers on Yonge street, for the purpose of building a sidewalk and appointing commissioners to supervise the same.—Of course both townships would have to act jointly in the matter as it would be a mutual benefit to the residents of both. Leaving the subject for some abler pen, who may deal out arguments which will arouse the public to ask and obtain their rights.

Yours &c. A. WALKER. Thornhill Suburbs, May 23, 73.

THE MODOCS.

CAPTAIN JACK'S SURRENDER—THE WAR AT AN END.

LANGELL'S VALLEY, June 2.—At six o'clock yesterday morning the troops left Willow Creek for a sharp and decisive scout, and met with admirable success. The Warm Springs trailed the Modocs across the creek in a north-easterly direction, then due north, and finally to the rocky cliff bounding Langell's Valley on the east. This scout, from the outset, was the most exciting one of the campaign. The freshness of the tracks, and the apparent proximity to the Modocs, created continual excitement. The route was travelled with difficulty by the best trained horses, and miles upon miles of lava in a fragmentary form were crossed. The scouts once lost the trail, and we suffered a detention of two hours. The halt was broken by a sudden yell from the Warm Springs Indians and cheers from the soldiers, and the command "forward" was given by Col. Green. The scouts were called to the right and left of the line to cover the trail, then came Troop K of the First Cavalry, Major Cresson commanding, and Lieutenant Bacon in charge of the skirmishers. Captain Hasbrouck's squadron had another equally important position along the crest of the bluff. Down the steep trail, on its side, charged the entire force of 250 men. Suddenly four rifle shots were fired from the rocks, and four bullets whizzed over the soldiers. A line of skirmishers was deployed along the crest of the bluff, which started the Modocs from their lair. About this time Scar-faced Charley and two or three other Modocs rushed down the rocks, and cried out, "We surrender." "Don't shoot." Five Modocs came in at once. Hostiles ceased, and Dr. Cabaness, of Yreka, a contract surgeon, who has long

been acquainted with the Modocs, went up among the rocks and made peace negotiations. All the Indians, including Captain Jack, agreed to come in. Dr. Cabaness slept with them last night. A few moments since, Scar-faced Charley, Old Schinolin and ten warriors surrendered.

LANGELL'S VALLEY, Lost River, Oregon, Green's Camp, May 31, evening, via San Francisco, June 2.—After a thorough examination of the Modoc captives gathered in during the present scout under Col. Green, it has been ascertained that the last haul netted 34 men, women and children, 13 of them being able-bodied warriors, 16 rifles of various patterns, 113 cartridges, and several lean and hungry ponies. Boston Charley and Schonchin are anxious about the disposition to be made of them. The former murdered Dr. Thomas, and the latter mutilated Meacham. Boston Charley and Schonchin look like desperadoes. Each carries his character in his face. Dr. Cabaness, of Yreka, the surgeon who slept in their retreat last night, says of Captain Jack that he presented a most war-begone appearance. The wily warrior sat upon a rock in the centre of a little lava bed a few yards from the crest of a bluff, and seemed as lonely as his surroundings. His sister Mary, captured at Willow Creek the day before yesterday, talked to him with tears in her eyes and asked him to enter our camp. He did promise that he would surrender to-day. In the night he stole away. The Modocs say that Jack is insane. There is much method in his madness. Scouts were made to-day in three sections of the country under Colonel Perry, Maj. Trimble and Maj. Cresson. The war with the Modocs, as a tribe is over. Fighting after the guerilla fashion will be probably continued until the last outlaw is captured or killed.

CLEAR LAKE, June 1, via San Francisco, June 2.—A series of prolonged yells and cheers aroused this camp from a pleasant siesta half an hour after the departure of my last courier. Generals Davis and Wheaton, and the other officers, and all the men rushed forward from the house and tents to find the cause of the uproar, and at once the whole camp was in commotion. "Captain Jack is captured," shouted a sturdy sergeant. Again and again, the valley resounded with cheers and yells. This morning the Warm Springs scouts struck a trail, and after a brief search the Modocs were discovered. Col. Perry surrounded the Indian retreat. His men were bound to fight. Suddenly a Modoc shot out from the rocks with a white flag. He met a Warm Spring and said Capt Jack wanted to surrender. He came out, cautiously glanced around, a moment and then, as if giving up all hopes, came forward and held out his hand to his visitor. Then two of his warriors, five squaws and seven children darted forward and joined him in the surrender. Captain Jack is about forty years old, he is five feet eight inches high, and compactly built. He has a large and well formed face, full of individuality.

INCENTIVE TO RISE EARLY.—Two lads, Bob and Fred, agreed to go on a fishing expedition, and wished to be off very early in the morning, but a difficulty presented itself on account of Fred stating that he never could awake in time for an early start. It was arranged that Fred should tie one end of a cord to his toe and throw the other end out of the window, so that Bob might easily awake him. The boys separated late in the evening in expectation of having a glorious time on the morrow. Fred fixed one end of the cord to his toe, and tying a bone to the other end threw it out of the window. During the night a large Newfoundland dog passing by made an attack upon the bone. The bone jumped, then the dog jumped, and you may imagine the feeling of that boy when the dog attempted to run away with the bone. The toe was not equal to the morning tramp.

YOUNG WOMEN'S CHRISTIAN ASSOCIATION.—The managers of this excellent association are desirous that the organization shall be widely known as possible, and as its formation has been alluded to but casually in these columns, we are now glad to find space for a more extended notice of the designs and composition of what, we hope, is destined to be a prosperous, as it will most certainly be a useful association. It was organized on the 20th ult., at Shaftesbury Hall, and its spirit being entirely unsectarian, it comprises among its members ladies of all denominations. Its design is to supply the want so long and seriously felt in this city of a proper boarding house for young women coming to the city and seeking employment; also a permanent boarding house for the many females now engaged as machinists, &c., in the lighter manufacturing carried on to such a great and increasing extent in Toronto. In such an institution a comfortable home would not only be supplied, but an interest would be taken by the ladies in management to find suitable and congenial employment, to impart kindly counsel, and generally to surround the inmates with such benign influences as may avert them from evil and lead them to respectability and independence. Considering the many temptations in a crowded city to which the young and thoughtless, away from home, are exposed, it is evident that such an undertaking, if properly supported and carried out, must exercise a great influence for good. The intention is to place the price for board at a figure within the resources of those whose benefit is thus aimed at, yet sufficiently approximate to the services rendered as to make all the partakers feel that they are participating in advantages which are theirs by right of purchase. The destitute will be supplied with work whereby they can earn their living at the institution. The managers hope that the house may thus be made self-supporting; but at the outset of the work funds are indispensable, and they place their scheme before the public in the hope that it will be heartily responded to. They earnestly invite the co-operation of all interested in the cause, who may become members by payment of \$1 francs money, and who may find opportunity of employing themselves in various fields of usefulness as the association progresses.—Mail.

Musical Instruments.

H. B. REESOR, DEALER IN Prince's Organs & Melodeons, Chickering, Stainway and Durham Pianos. Also, the celebrated HUMMING BIRD PIANO

Which is adapted to parlors where space is an object. The mode of its construction is entirely new, and based upon the best known principles of science.

Notice. MR. H. B. REESOR HAS SUCCEEDED in his agency in this section for the sale of Messrs G. A. Prince & Co's celebrated Organs and Melodeons, in favor of which we give our most unqualified approval and recommendation as the leading and most reliable and durable instruments now manufactured.

(Signed) H. G. COLLINS, W. M. FLUMERFELT. Markham, Nov. 3, 1871.

Testimonial from Professor H. G. Collins. I have carefully examined the pianos sold by Mr. H. B. Reesor, called the Humming Bird, or Colibri Pianos, manufactured by W. Mauchese, and think they are wonderfully sweet and pure in tone, and from their peculiar construction, calculated to remain in tune longer than other pianos, and consequently to stand a greater amount of wear.

HENRY GUEST COLLINS. Toronto Feb. 28, 1872. 714-1/2

W. E. CORNELL, Watch Importer, 83 King Street East, TORONTO, ONT.

Patent Medicines, Fellows' Compound SYRUP OF HYPOPHOSPHITES.

A All-life-endowed bodies, whether they be Beasts, Birds, Reptiles, Insects, or even Zoophytes, and subjects of the Vegetable Kingdom are governed by vital force, which binds all the springs of existence, and as nothing can save them from destruction when this principle leaves them, the discovery of means whereby vitality may be sustained in the living body is indeed a boon to the world.

Modern chemistry has ventilated the question and discovered the ingredients constituting the brain, muscles and nerves, and finds that by introducing these ingredients in proper proportions the brain and nervous system are strengthened.

This, then, is substantially the basis on which FELLOWS' HYPOPHOSPHITES is its direct action is upon the Brain and Nervous System, and the Muscles. Strengthening the nerves, it causes the rapid distribution of Vitalized Blood in the Muscular Organs of the Body.

Rousing the Sluggish Heart and Liver, strengthening the action of the Stomach and Bowels and enabling the Lungs to be fully inflated with Oxygen.

It is adapted for all cases of Weakness and Emaciation, whether arising from sedentary life, a tropical climate, from fever or debility from any cause, and is efficacious in Pulmonary Consumption, many confirmed cases having been cured and all benefited, where its use has been continued over a fortnight.

In Bronchitis it is a specific, and in Asthma it gives relief where every other remedy fails. For Nervous Debility it stands unrivalled, and may be used with confidence in all cases. As this is entirely distinct and different from every other preparation of Hypophosphites, be careful to ask for FELLOWS' SYRUP, and take no other.

SOLD BY APOTHECARIES, Price, \$1.50; Six for \$7.50. JAMES I. FELLOWS, Chemist, St. John, N.B.

Caution!! Caution!!! TO THE PUBLIC OF THE BRITISH PROVINCES OF NORTH AMERICA. I beg most respectfully to acquaint the public of the British North American provinces that in May, 1871, I caused the business 80 Maiden Lane, New York, for the sale of Holloway's Pills and Ointment, which were up to that time prepared by William Brown, now deceased, to be closed. I regret to say that I have reason to know that the management of the business had for some years, and in many ways, been most corrupt, and it may be that the Pills and Ointment were not prepared with the care I have always desired.

Those who do not wish to be deceived by buying spurious medicines, which are now likely to emanate from the States or elsewhere, but to possess themselves of the genuine Holloway's Pills and Ointment, manufactured by me in London, England, will do well to see that each pot and box bears the words "HOLLOWAY'S PILLS AND OINTMENT," and that the address on the labels is 533 OXFORD STREET, LONDON, where only they are manufactured, and in no other part of the world. The retail prices are on the labels in British currency, and not in dollars and cents.

No representative of mine will ever travel through any part of the British Provinces in the United States, and sell, or take orders for my Pills and Ointment, and as I have reason to believe that attempts will probably be made to deceive the public in this way by persons calling on medicine vendors, falsely representing that they are acting for me and with my knowledge and consent, it seems advisable to put the public on their guard against any such deceptions.

I most earnestly entreat all those who may read this advertisement that they be pleased, in the public interest, to communicate the name of the same to their friends that they may not be defrauded of their money by purchasing worthless imitations of the genuine Holloway's Pills and Ointment.

I would ask, as a great favor, that should it come to the knowledge of any person that spurious medicines are being made or sold in my name, he be pleased to send me all the particulars he can collect respecting the same, that is to say, the name and address of the vendor who is selling the spurious medicines, and likewise the name and address of the House in the United States, or elsewhere, which may have supplied them, so as to enable me, for the protection of the public, to institute proceedings against such persons, and to engage to remunerate very handsomely any person who may give me such information, the informant's name never being divulged.

Should any person have reason to believe that he has been deceived by buying spurious imitations
