MARKHAM VILLAGE CLERK.

Markham, Aug. 4th, 1873. DEAR SIR,—One of our village fathers handed me a copy of the minutes of the County Council for the session in June. On page 117 is the "second report of the Standing Committee on Equalization of Assessments." The report says "they have examined the several assessment rolls for the current year, and find upon the whole that they are carefully prepared, and without apparent technical errors, with the exception of the roll for the village of Markham, which does not appear to have been duplicated, and is without the usual qualification of the assessor." This is reflecting severely on Mr. Corson, who is supposed to be competent to perform the duties of Village Clerk. He was once one of the auditors of the County, and blundered there; I hope he is not at the commencement of a series of them. I and many others here think that he undertakes more than he is able to accomplish—his management of the editorial department of the Economist is fair evidence of that. Mr. J. D. Phillips, the chairman of the County Council Committee, dealt Mr. Corson a hard blow that time—more power to his elbow! Grits all!!! Yours, THE PARISH BEADLE.

FACTS FOR RATEPAYERS AND OTHERS.

SIR,—It may not be amiss, in view of the public meeting announced for Monday next, to submit the probable receipts and expenditure of the village for the current year, exclusive of school rates: Outlay for all village purposes \$564 00 Deduct Licenses, &c. 264 00 To be raised by rate. \$300 00 There are items included in the above expenditure, amounting to \$150.15, which will not be required in any future year, viz: Debt paid on Fire Engine. \$50 00 Estimate for Hose Reel and Tank. 40 00 Corporation Books. 8 00 Seal. 8 00 Survey. 36 60 Expenses of first election. 7 55 \$150 15

By deducting these items from the amount to be levied for this year, it will be clear that only one-half will be required next year, if the public do not demand any larger expenditure for walks and repairs.

I think no reasonable man will say that the above is an indication of bad management or extravagance; five more economical men could not be selected than those who have been elected, and if their successors will be as cautious about incurring expenses as they have been, the ratepayers have nothing to fear in regard to village tax. It is the demands of our School Trustees that are pressing heavily; they ask from the School Section \$1000—a very much larger amount than has ever been demanded before.

News Items.

The Ottawa printers are on strike. The SHAR is now visiting the Vienna Exhibition. Forty thousand slaves have been set free in Khiva, as the result of the Russian expedition. It is stated that the recent excesses of the Carlists is creating a reaction in favor of the Government.

Brown of Halifax, has agreed to row Biggin for \$1,000. The time for the race is not yet known.

The Spanish Cortes have a bill before them making provision for the separation of Church and State.

A fire occurred in the Vienna Exposition on Saturday morning, which did a considerable amount of damage.

A terrible rain storm visited Lima on the 9th ult., which destroyed property to the value of a million dollars.

Don Carlos is in Guernica, in the Province of Biscay. On Sunday he took the oath of fidelity to the Province.

The Provincial Government of Nova Scotia intend giving a ball in honor of the Governor General's visit on Friday evening.

Ex-President Theiss considers the troubles in Spain purely internal, and that the attitude of France should be one of strict neutrality.

A very serious fire occurred in Portland, Oregon, on Saturday, which destroyed twenty three blocks of buildings. The loss extends into the millions.

The visit of the Comte de Paris to the Comte de Chambord is regarded as politically significant. The former was received by the Emperor of Austria.

Strenuous exertions are to be made by the English, French, and Americans to obtain a revision of the Treaty of '58 with China, securing greater privileges for foreigners in that country.

The English Government has succeeded in finding coal in the central provinces of India. The mineral extends over an area of sixty miles in length, and from fifteen to twenty miles in breadth.

The English revisers of the "Authorized Version of the Bible" have received a very handsome offer for the copyright of their new version. But the New Testament will not be ready for three years, nor the Old Testament for six years.

is continually falling and sinking, and accidents (though not attended by any fatal results) are very frequent; so uneven is the motion that one experiences a feeling similar to sea-sickness." The cars are carried across the Mississippi river on a transfer boat the same as at Detroit; but at Little Rock they have only a ferry for passengers over the Arkansas river—the station being at Argenta, on this side directly opposite Little Rock.

I posted up town; saw very few persons about except no end of "nigger-policemen," it being about half past four a.m.; registered at the Metropolitan Hotel; had a good wash; got outside of my breakfast, and commenced work in earnest. It was terrible hot 98° and 99° in the shade.

Little Rock has grown to be a town of 20 to 25,000 inhabitants in the last two years, but a great many expect a reaction to come now; new railways have been opening up the country, and people "rush on" further south and west, and the fever for emigration to Texas is keen. I made a good number of strong friends in Little Rock, and in the course of my business transactions struck a good many Canadians—one in particular left Toronto five years ago with just enough money to land him in the town. He is now member of the State Legislature; President of the Board of County Supervisors; married; has a family; and all in five years. His name is John M. Murphy, and he is a very affable gentlemanly man, who looks well after "No. 1." I remained in Little Rock ten days; visited eight or ten other little towns along the river and railway line, and returned here yesterday, feeling very much benefited by my trip.

The great trouble with Arkansas is the "exemption laws;" honest men have "no show." A man is allowed \$2000 personal property, and if he is married he can keep his homestead, worth \$5000; that is, they are not liable for his debts. Business is done over there mostly on honor, and none can be made to pay unless they choose; because a good deal of property can be covered up under the \$7000 exempt by law. Besides a man going into business in Arkansas, generally "prepare to merchandise" as they say by putting whatever property he has in his wife's name.

The men who got the exemption law through the Legislature were nothing more than thieves and swindlers who obtained their election by negro votes, and the state never will be anything until this law is repealed. It is a very prolific state, corn and cotton being as good as any of the southern states, the great lack is want of reliable honest business men.

Yours, &c.,

TORONTO YOUNG MEN'S CHRISTIAN ASSOCIATION. CORNER OF QUEEN AND JAMES STS., TORONTO, JUNE, 1873.

To Parents, Guardians, Pastors, and others whose Sons, Wards, or Friends may be leaving home for residence in the City of Toronto.

The Young Men's Christian Association take pleasure in informing their friends and the Christian Public generally of the facilities for usefulness which they now enjoy.

Their beautiful and commodious building, with its Halls, Library, Free Reading Room and Gymnasium are intended at once to invite and improve all young men who enter. Prayer Meetings, Literary and Musical Entertainments are frequently held and open to all.

Parents, Guardians, Pastors, or others who have young friends in the City or about to come to it, are invited to urge them to come to us. A Reception Committee has been formed, the members of which gladly call on all strangers whom they may hear of from those interested. Communications from friends at a distance are gladly received.

Yours respectfully, THOS. J. WILKIE, Secretary.

PATENT MEDICINES, FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES. As a life-endowed bodies, whether they be Beast, Birds, Reptiles, Insects or even Zoophytes, and subjects of the Vegetable Kingdom are governed by vital forces, which binds all the springs of existence, and as nothing can save them from destruction, unless this principle leaves them, the discovery of means whereby vitality may be sustained in the living body is indeed a boon to the world. Modern chemistry has ventilated the question and discovered the ingredients constituting the brain, muscles and nerves, and finds that by introducing these ingredients in proper proportions the brain and nervous system are strengthened. This, then, is substantially the basis on which FELLOW'S HYPOPHOSPHITES is built, its direct action is upon the Blood, the Brain and Nervous System, and the Muscles. It strengthens the nerves, it causes the rapid distribution of vitalized Blood in the Muscular Organs of the Body. Rousing the Sluggish Heart and Liver, strengthening the action of the Stomach and bowels and enabling the Lungs to be fully inflated with Oxygen. It is adapted for ALL cases of Weakness and Emaciation, whether arising from sedentary life, a tropical climate, from fever or debility from any cause, and is efficacious in Pulmonary Consumption. Many confirmed cases having been cured and all benefited, where its use has been continued over a fortnight. In Bronchitis it is a specific, and in Asthma it gives relief where every other remedy fails. For Nervous Debility it stands unrivalled, and may be used in all cases, and as it is entirely distinct and different from every other preparation of Hypophosphites, be careful to ask for FELLOWS' SYRUP, and take no other.
