

THE HIGH SCHOOL QUESTION.

Opinion of R. A. HARRISON, Esq., D. C. L.

An opinion is required on the following case:

In 1851 a Grammar School was established at Richmond Hill, not then incorporated, but forming part of the Township of Vaughan, in the County of York. The building was erected by private subscription. In 1872 the High School Inspector, or some other person in authority, gave the Trustees to understand that the building then in use did not afford sufficient accommodation suitable for the purposes of the schools. The result was that the Trustees decided to erect a new school house, and before the passing of the By-law next mentioned, entered into a contract for the new building. On 23rd June, 1872, the Council of the County of York, under and pursuant to S. 40 of Stat. 34, Vic. Cap. 33, passed a By-law No. 204, directing the County of York into four High School districts, of which No. 3 was described as being composed of the Township of Vaughan and, so much of the Township of the Township of Markham as is not comprised and included in district No. 2; also the first fifteen lots throughout the several concessions of the Township of King, and lots one to fifteen inclusive of the first three concessions of the Township of Whitechurch. In 1872, the sum of \$20,000 was collected from this High School district for building purposes. On 1st January, 1873, Richmond Hill was incorporated. The County Council afterwards, on 18th June, 1873, passed a By-law, No. 233, reconstructing the High School districts, and providing that district No. 3 should consist of the incorporated village of Richmond Hill. On 25th June, 1873, a further By-law, No. 233, was passed by the County Council, amending By-law No. 233, so far as relates to the time when the said By-law shall take effect. It recites among other things that legal opinion had been obtained that all contracts entered into by the Boards of the High School districts previous to the passing of the said By-law, for the maintenance of the said High School districts, should be levied on said High School districts, and enacts that By-law No. 233, changing the High School districts of the County of York, shall not take effect in so far as refers to contracts entered into by the different High School Boards for the maintenance of the said High Schools, until on or after 25th December, 1873. There is still a sum of about \$1170 due in respect of the High School building. The questions for opinion are in effect two. 1st. Had the Trustees power to enter into the contract for the building of the new school house, without the previous consent of the ratepayers? 2nd. If they had the power, should the balance due under the contract be paid by the High School District as constituted under By-law No. 204, or by the village of Richmond Hill alone, being the district as constituted by the By-law 233. As to the first. It is by S. 25 of Con. Stat. U. C. Cap. 63 made the duty of the trustees "to do what ever they deem expedient with regard to erecting, repairing, warming, furnishing, and keeping in order the buildings of such School and its appendages, lands, and enclosures belonging thereto, and to apply (if necessary) for the requisite sums, to be raised by Municipal authority for any such purpose." This, in my opinion, authorized the Trustees, without the previous sanction of the ratepayers, to enter into the contract for the building of the new school house. As to the second. Section 40 of Stat. 34, Vic. Cap. 33, Out to every County Council "to determine the limits of each High School district for each Grammar School now existing within the County, and to form the whole or part of one or more Townships, Towns and Villages within its jurisdiction into a High School district." It is by the said section declared that "the limits of the High School districts already established shall be called High School Districts, and continue as such until otherwise altered by By-law." The power conferred is, it will be observed, to determine—not from time to time to alter. Once a determination is made by the County Council there is no express power to unsettle it and make a different one. The County Council, by the By-law No. 204, determined the limits of the High School districts; that determination, in the absence of legislative authority to the contrary, must, I think, be held to be a final determination. The exercise of such a power is the exercise of a delegated legislative power, and can only be exercised to the extent, and not beyond the extent, to which it was conferred. This being the case, I can form on the reading of an act that is a masterpiece of confusion. I have come to the conclusion that By-law No. 233 is void. If By-law No. 233 were a valid By-law, I do not think that By-law No. 239 would postpone its operation, as regards contracts for the construction of school houses. I do not think that the "maintenance" as used in By-law No. 239, is of sufficiently broad significance to include such contracts. If the word "accommodation" had been used, my construction of By-law No. 239 might have been different. It does not follow that the village of Richmond Hill is not alone responsible to raise the requisite \$1170. It is by S. 36 of Stat. 34, Vic. Cap. 33, enacted, "that in the case of a High School in Towns, Townships, Villages, or Townships, one-half of the amount paid by the Government shall be paid by the Municipal Council of the County in which the High School is situated, upon application of the High School Board," and that "such other sums as may be required for the maintenance and school accommodation of the said High School shall be raised by the Council of the Municipality in which the High School is situated, upon the application of the High School Board;" or in the event (which is the case here) of the County Council forming the whole or parts of a County into one or more High School Districts, then such other sums as may be required for the maintenance, not as before, "maintenance and school accommodation," of the said High School, shall be provided by the High School district." It is by S. 8 of Con Stat. U. C. Cap. 63, declared that the money apportioned by the Government to each County for Grammar School purposes, "shall be expended in the payment of the salaries of teachers, and for no other purposes." Then it is provided by S. 6 of Stat. 29 Vic. Cap. 23, "That no Grammar School shall be entitled to share in the Grammar School fund unless a sum shall be provided from local sources, exclusive of fees equal to at least half the sum apportioned to such school, and expended for the same purpose as the said fund." So that, as I read the acts, no portion of the halfpenny valuation raised from local sources, but be legally applied otherwise than in the payment of salaries of teachers. I do not think that either S. 8 of Con. Stat. U. C. Cap. 63, or S. 6 of 29 Vic. Cap. 23, can be said to be overruled by S. 36 of Stat. 34, Vic. Cap. 33, which declares that "the Grammar or High School Board shall be responsible for the maintenance and school accommodation of the said High School, and that in the case of a High School in a Township, one-half of the amount paid by the Government shall be paid by the Municipal Council of the County in which the High School is situated." I think the whole of the Government grant, and the money apportioned to the County in the County of York, shall be applied in

payment of the salaries of teachers; other sums, required for the maintenance and accommodation of the High School, must be raised as directed by S. 36 of Stat. 34 Vic. Cap. 33. Where a County Council has not passed any By-law determining the limits of the High School districts, moneys requisite for maintenance, as well as school accommodation, must be raised by the Council of the Local Municipality in which the High School is situated. Where such a By-law has been passed, then moneys required for maintenance must be raised by the High School district; and moneys required for accommodation, such as building a new School House, must apparently be raised by the Council of the Local Municipality in which the High School is situated. I am forced to this conclusion by the dropping of the words "and accommodation" by the legislature in the latter part of S. 36 of the Stat. 34, Vic. Cap. 33. I cannot say that it was accidentally done, and if not accidentally done, I must assume that the legislature intended for some purpose to do it. The only purpose, it appears to me, is to transfer a portion of the expense, say that relating to mere maintenance, to the High School District, leaving the remainder of expense, viz., that relating to accommodation, involving the erection of new buildings, to be borne by the local Municipality. In this view it seems to me that the Council of the village of Richmond Hill is alone bound to raise the requisite amount. In the event of the Council refusing to do so, an application might be made by the Trustees to the Court, or a Judge, for a mandamus, in which event the question would necessarily be raised, and as necessarily determined.

I cannot say that I am entirely free from doubt on the points raised: it may be that the legislature intended differently to what I have supposed, but I can only judge of the intention of the legislature from the language used by the legislature. The whole question turns on the meaning of the word "maintenance," as used in the latter part of S. 36 of Stat. 34, Vic. Cap. 33. If the word stood alone, it might be open to a broader interpretation than I have put upon it, but used in connection with the words "and accommodation" in a former part of the same section, I think that when used without these words it cannot be taken to involve all that these words express.

ROBERT A. HARRISON. August 29, 1873.

News Items.

Elora has instituted a museum. Boston uses about 5,000 gallons of soda water on a hot day. Water from the Springfield, Mass., aqueduct has only 899 little worms to the gallon. An ancient Christian church, in perfect preservation, has been discovered in the interior of Japan. More than 51,000 postage stamps were found loose in the different post-offices in Great Britain in 1872. From five to seven refrigerator cars, loaded with butter, are said to be shipped East every day from Chicago. Water is selling at one bit per bucket in Gold Hill, Nevada. Deer is about as cheap, and in greater demand. The iron trade in the United States gives employment to 137,545 operatives, and the lumber trade to 163,397 operatives. Golden City, Colorado, is rejoicing over a bar of black sand nine miles long and one mile broad, which yields \$200 gold to the ton. S. M. Smith, Secretary of the Illinois State Farmers' Association, says that sevenths of the farmers of Illinois are most gaged. The German authorities have decided to employ women in the telegraph department—their labors in the post-office having given every satisfaction. The genuine tea plant grows abundantly at Jacksonville, Fla. The people there dry it and use it. It is as good as any imported black tea. The hull of the British ship "Confidence," the flagship in the battle of Lake Champlain, is being raised from the bottom of that lake near Whitehall. Chicago's new directory catalogues 212 churches, 89 newspapers, 31 railroad companies, and names enough to form an "estimated" population of 465,170. In the San Francisco city prison, recently, a cherry root pipe was discovered in one of the cells, in the stem of which were concealed four fine steel saws. A Brakesman named J. McConnell fell from a train on the Northern Railway at Stayner on Thursday and received injuries which proved fatal. It is stated that upwards of a million copies of the penny edition of the "Pilgrim's Progress" have been sold by the Religious Tract and Book Society. Californians are drying grapes into raisins with success. One hundred pounds of grapes worth a dollar will produce twenty pounds of raisins worth \$2.50. The mean lifetime of the English people is 40.86 years, or in round numbers, 41 years; that is the average numbers of years that people born in England live. A Rebellion recently broke out in Khiva, and the Russians stamped out the revolt by destroying the town and levying exactions upon six hundred of the leaders of the revolt. Minnesota liquor dealers refuse to pay the ten dollar tax for the support of the Inebriate Asylum. They contend that the druggists who sell temperance bitters should also contribute. The Modocs have a history, according to the Rev. R. Weisen, who makes them out to be lineal descendants of a band of Welshmen who came to America about 320 years before Columbus. A pair of horses, in Oxford, Mass., are said to be so intelligent as to work a mowing machine without the aid of driver, taking a straight track and turning the proper corners as well as if directed by human agency. The White Star passenger clipper "Dumail," while leaving Meyer in charge a pilot on the 10th inst. drifted on the bar. In a short time she broke up and sank, but the crew and passengers, 62 in all, had previously been rescued by tugs. Lake Tahoe, Nevada, has a curiosity. Half a mile from shore a two stands perpendicular in eighty feet of water. It projects ten feet above the surface, and is fastened so firmly to the bottom that it affords safe moorage to the largest crafts on the lake. In Mayville, Ky., there is a woman named Jane Young, who, two or three years since, was as black as the daughters of Ethiopia were then. Now there isn't a lady in all the State paler of a stealer skin. The change has not been sudden, nor has the cause been discovered. Such instances have occurred before, but they are rare.

TORONTO YOUNG MEN'S CHRISTIAN ASSOCIATION.

CORNER OF QUEEN AND JAMES STS., TORONTO, JUNE, 1873.

To Parents, Guardians, Pastors, and others whose Sons, Wards, or Friends may be leaving home for residence in the City of Toronto.

The Young Men's Christian Association take pleasure in informing their friends and the Christian Public generally of the facilities for usefulness which they now enjoy.

Their beautiful and commodious building, with its Halls, Library, Free Reading Room and Gymnasium are intended at once to invite and improve all young men who enter. Prayer Meetings, Literary and Musical Entertainments are frequently held and open to all.

Parents, Guardians, Pastors, or others who have young friends in the City or about to come to it, are invited to urge them to come to us. A Reception Committee has been formed, the members of which gladly call on all strangers whom they may hear of from those interested. Communications from friends at a distance are gladly received.

Yours respectfully, THOS. J. WILKIE, Secretary.

FOR SALE BY R. E. LAW, Druggist, April 9, 1873. Richmond Hill

BOGUS MEDICINES. HOLLOWAY'S PILLS AND OINTMENT. I have for a considerable time past considered it to be my duty to advertise the public of the British North American Provinces against buying from unprincipled dealers medicines emanating from New York, and sold as my "Holloway's Pills and Ointment," in which much injury has been displayed in passing them off as my make. It is very difficult indeed to attempt to enumerate the many devices to which the parties have had recourse. They say, amongst other things, that a new label has been adopted by them, and with bare-faced effrontery caution the public against being deceived by spurious imitations.

A poor man by the name of Holloway is employed by the so-called Chemical Company in New York, who lends his name for a small weekly sum. The medicines sold by this Company are palmed off upon the public as my "Holloway's Pills and Ointment," so that were they to injure half the community no discredit would fall upon the fabricators of the compounds, but would considerably damage the reputation of my make.

As it is not at all necessary for this Crew to incur any expense in the sale of their productions, (as they do upon my name), they are in a position to offer them at a very low price in Canada, where they are purchased by a few Wholesale Houses that I can name, and will name hereafter, if they continue to vend the same. The following are the names and addresses of some of the Houses who get my medicines from here direct:— Messrs Avery, Brown & Co., Halifax, N.S. Messrs Forth & Co., Halifax, N.S. Messrs T. B. Barker & Sons, St. John, N.B. M. T. Des Bross, Charlotte Town, P.E.I. Messrs Langley & Co., Victoria, B.C. Messrs Moore & Co., Victoria, B.C.

My Pills and Ointment are sold at the lowest wholesale net prices, in quantities of not less than £20 worth—viz., 36 fd., 22s., 3s. 4d., per dozen boxes of Pills or pots of Ointment, for which remittances must be sent in advance. These medicines are not sold in the United States. Each Pot and Box of my preparation bears the British Government Stamp, with the words, "Holloway's Pills and Ointment, London." (Signed) THOMAS HOLLOWAY, 533, Oxford Street, W. C. London, July 1, 1873. 785

MISCELLANEOUS BOOKS SUITABLE for presents at the HERALD Book Store.

The Russell Watch.

THE RUSSELL WATCH is made in all sizes suitable for Ladies and Gents, both in gold and silver. But the accompanying cut represents THE \$25 RUSSELL HUNTING LEVER WATCH. In sterling silver case and gold points, full jewelled, warranted for five years— together with a gold-plated Albert chain—which will be sent to any part of Canada on receipt of \$25, or C. O. D., per express. W. E. GONNELL, Watch Importer, 83 King Street East, TORONTO, ONT.

Musical Instruments, H. B. REESOR, DEALER IN Prince's Organs & Melodeons, Chickering, Steinway and Durham Pianos. Also, the celebrated HUMMING BIRD PIANO

Which is adapted to parlors where space is an object. The mode of its construction is entirely new, and based upon the best known principles of science. Notice. MR. H. B. REESOR HAS SUCCEEDED in the agency in this section for the sale of Messrs G. A. Prince & Co.'s celebrated Organs and Melodeons, in favor of which we give our most unqualified approval and recommendation as the leading and most reliable instruments ever manufactured. (Signed) H. G. COLLINS, WM. PLUMERFELT, Markham, Nov. 3, 1871.

Testimonial from Professor H. G. Collins I have carefully examined the piano sold by Mr. H. B. Reesor, called the Humming Bird, or Colibri Piano, manufactured by Messrs Prince & Co., and find that they are wonderful in sound and pure in tone, and from their peculiar construction, calculated to remain in tune longer than other pianos, and consequently to stand a greater amount of wear. (Signed) HENRY GUEST COLLINS, Toronto Feb. 28, 1872. 714-1y

FATTENS HORSES, COWS, CALVES, Sheep and Pigs. It fattens in One-fourth the usual time, and saves food. Price 25 cents and \$1.00 per box. A dollar box contains two hundred feeds.

CATERPILLARS. THE CHINESE GARDEN POWDER. Destroys Caterpillars, worms, and other insects on Currant and Gooseberry Bushes. Sold by Druggists and Storekeepers at 25 cents per box. HUGH MILLER & CO., Agricultural Chemists, Toronto.

TICKS ON SHEEP. USE MILLER'S TICK DESTROYER. It destroys the Ticks, promotes the growth of the wool, and improves the condition of the animal. A 35 cent box will clean 200 sheep of 35 lambs. HUGH MILLER & CO., AGRICULTURAL CHEMISTS, 167 King Street East, Toronto. For Sale by Druggists and Storekeepers. R. E. LAW, Agent, Richmond Hill.

Patent Medicines, Fellows' Compound SYRUP OF HYPOPHOSPHITES. As all life-endowed bodies, whether they be Beasts, Reptiles, Insects or even Zoophytes, and subjects of the Vegetable Kingdom are governed by vital force, which binds all the springs of existence, and as nothing can save them from destruction when this principle leaves them, the discovery of means whereby vitality may be sustained in the living body is indeed a boon to the world. Modern chemistry has ventilated the question and discovered the ingredients constituting the brain, muscles, and nerves, and finds that by introducing these ingredients in proper proportions the brain and nervous system are strengthened. This, then, is substantially the basis on which FELLOW'S HYPOPHOSPHITES is built. Its direct action is upon the Blood, the Brain and Nervous System, and the Muscles. Strengthening the nerves, it causes the rapid distribution of Vitalized Blood in the Muscular Organs of the Body. Rousing the Sluggish Heart and Liver, strengthening the action of the Stomach and Bowels and enabling the Lungs to be fully inflated with Oxygen. It is adapted for all cases of Weakness and Emaciation, whether arising from sedentary life, a tropical climate, from fever or debility from any cause, and is efficacious in Pulmonary Consumption, many confirmed cases having been cured and all benefited, where its use has been continued over a fortnight. In Bronchitis it is specific, and in Asthma it gives relief where every other remedy fails. For Nervous Debility it stands unrivalled, and may be used with confidence in all cases. As this is entirely destitute of alcohol, and from every other preparation of Hypophosphites, be careful to ask for FELLOW'S SYRUP, and take no other. SOLD BY APOTHECARIES, Price, \$1.50; Six for \$7.50. JAMES I. FELLOWS, Chemist, St. John, N.B.
