# GRANDSON.

BY MRS. E. B. DUFFEY.

Lonely, so lonely, the old man sits; In his arms his grandson quietly sleeps, In the room the gloom of the twilight flits, So he bends his head and weeps.

In the long ago there were children five Who called him father, and sat on his knee Yet now of them all there are none alive: Could a father more lonely be?

Ah! four of them scarcely had claimed their place In their father's heart when they sought the skies;
The one who was left looked up in his face
With his mother's own dark eyes.

Only Willie remained, the noblest lad For whom e'er a father to heaven g thanks: Who worried his mother, yet made her glad, With his many boyish pranks.

\* \* \* \* \* Then war brooded dark o'er the sorrowing land,
And there came a day, a terrible day,
When eager to serve at his country's com-

Their Willie went away.

He went, though his father's heart was sad, And his mother plead with her boy to stay; And the fairest bride that a man ever had Shed bitter tears that day.

He went; and anxiously waited at home His father, mother, and sad-eyed wife, For the day when their soldier-boy should

If Heaven should spare his life.

But Heaven did not! A telegram eame, And only a single werd it said, Besides a date and besides a name, And that single word was—"Dead!"

A piercing shrick rang out on the air,
A woman's shrick, so wild and shrill!
Then the sad-eyed wife with the golden hair
Lay in her chamber, still. I he mother in terrible grief made moan,

But the father no word of sorrowing said: In the chamber nextmorning, cold as a stone, The sad-eyd wife lay dead. She lay there dead in her wondrous grace, No more to know either grief or joy; But a babe looked up in the old man's face With the dark eyes of his boy.

\* \* \* No wonder the old man sits and weeps And clasps the boy to his heaving breast-The son of his son who peacefully sleeps In his last unbroken rest!

You cannot pay too careful attenion to business if you want to succeed, that is. ## Luxurious Traveling.

The Empress of Russia knows nothflies across the country in her private train, which is perhaps the most complete and luxurious in the world. It consists of eight saloon carriages and offices, connected by covered passages, and is divided into dining and drawing-rooms, bed-rooms, and kit-chens. The dining-room has large oval windows, which give uninterrupted views over the country through which the train passes; the drawingroom is an elegant apartment, prettily furnished; and the bed-rooms might be those of a comfortable house. The beds are seemingly of the ordinary kind, but are in reality hammocks, which enable their occupants to sleep without sustaining any annoyance from the vibration of the train. Attached to the train are apartments for servants, of whom there are a great number, ranging from butlers to engine drivers and porters.
