THE DOMINION PARLIAMENT.

The second session of the second Parand the speech delivered by Lord Dufferin referred to two very important subjects which will occupy considerable time ing that some one more competent would of the House. The first was the " Pa. furnish you with certain facts respecting our eific Scandal," and the other the Pacific Railway. The Royal Commissioners church in Fredonia, for the past six years have handed in their report on the evidence taken before them. Their christ endeavor to make out of the Pacific tian character, their amiable and friendly Scandal is not to be estimated.

We are in the same happy condition as the country where legs of mutton grow on trees and roast pigs run about squeaking "come and eat me." So we may expect the Chancery crew led by Blake and Huntington, to move that all the evidence be retaken by the House. And this is how it will be done: the question is written out for the witness by against it, it is then debated upon, and after the debate and the vote it is decided to put the question or not. What a glorious chance for the lawyers, in and

Sir Francis Hincks, with his great knowledge of the country and its public men, made an exhaustive speech, going over the whole history of the question. Mr Huntington, the Hon, James Mac donald (of Pictou) E. B. Wood and others have given their views on the question before the house. Mr Jas. Macdonald moved the following amendment to the amendment of Mr Macken. sie: "We desire to assure your Excel lency that, after consideration of the statements made in the evidence before us, and while we regret the outlay of money by all political parties at Parlia mentary elections, and desire the most stringent measures to put an end to the practice, we at the same time beg to express continued confidence in your Excellency's advisers, and in their administration of public affairs."
