Patent Medicines,
Fellows' Compound
SYRUP OF HYPOPHOSPHITES.
An allife-endowed blood, whether they be Beasts, Birds, Reptiles, Insects, or even Zoophytes and subjects of the Vegetable Kingdom are governed by vital force, which binds all the springs of existence, and as nothing can save them from destitution when this principle leaves them, the discovery of means whereby vitality may be sustained in the living body is indeed a boon to the world.
Modern chemistry has ventilated the question and discovered the ingredients constituting the brain, muscles and nerves, and finds that by introducing these ingredients in proper proportions the brain and nervous system are strengthened.
This, then, is substantially the basis on which FELLOW'S HYPOPHOSPHITES is built, its direct action is upon the Blood, the Brain and Nervous System, and the Muscles. Strengthening the nerves, it causes the rapid distribution of Vitalized Blood in the Muscular Organ of the Body.
Rousing the sluggish Heart and Liver, strengthening the action of the Stomach and bowels and enabling the Lungs to be fully inflated with Oxygen.
It is adapted for ALL cases of Weakness and Emaciation, whether arising from sedentary life, a tropical climate, from fever or debility from any cause, and is efficacious in PULMONARY Consumption, many confirmed cases having been cured and all benefited, where it has been continued over a fortnight.
In Bronchitis it is a specific, and in Asthma it gives relief where every other remedy fails.
For Nervous Debility it stands unrivalled, and may be used with confidence in all cases. As this is entirely distinct and different from every other preparation of Hypophosphites, it is a careful test for FELLOW'S SYRUP, and is no other.
