RICHMOND HILL. March 13, 1874.

SHALL THE MUNICIPALITIES DO AS THEY PLEASE WITH THEIR OWN MONEY?

A debate took place in the Local Legislature on Wednesday, on the distribution of the Municipal Loan Fund. The Toronto Mail cleverly makes the Plunder following remarks on this very important NATHANIEL DICKEY'S BILL CERTIFED COR- ship Engineer in reference to a bridge at question-important at least to the Municipalities in the County of York :--

in the House on Wednesday last on the motion of Mr Rykert: 'That in the Plunder opinion of this House it is expedient that NANHANIEL DICKET'S BILL CERTIFIED CORRECT Walmsley et al RE old Yonge St. From provision should be made by which Municipalities entitled to payment under the Municipal Loan Fund Act of 1873 shall be permitted to expend their appropria- 5 1 inch elbows, 10c..... Councils or by by-laws to be passed and approved of by them.'

"In this instance, as in many others the 12 ft. I is a second with the standard of the standard

pure Reform Government of Ontario is bitterly opposed to letting the people 42 ft. 1 1 in. pipe, at 15c ......... have the guidance of their own financial affairs, and as soon as it became apparent from the turn of the discussion that there exists a strong feeling in favor of letting the people dispose of this fund as they please, the Treasurer rose to a point of order, urging that the resolution was out of order as it related to the application of money by the House, and must be recommended by a message from the Lieutenant-Governor. There the matter stands at present, as the Speaker has not yet ruled on the point. We suppose there is little doubt that the Speaker's ruling will be in favor of the resolution, as it is an obvious fallacy to say it involves an appropriation of money; as the money to be dealt with has already been | Plunder appropriated to the Municipalities by act of the House, and the motion only in-· volves the uitimate application of the money by the Municipalities and not by the Legislature. It does seem strange, however, that when the wish of the people is so plainly expressed in favor of a relaxation of the inconvenient rule criginally imposed upon them, that the Government should persist in hampering their action. It was forcibly and clearly argued by Messrs Rykert, Boultbee, Lauder and others that the present restriction suit one Municipality will by no means meet the wants of another; morcover, Plunder . . . . 22 121 the hill between lots 15 and 16, 4th con. that there exists a very general feeling in NATHANIEI DICKEY'S BILL CERTIFIED CORRECT West York. the country on the question, at least, where railways are not being promoted, in favor of investing this fund and using the interest to supplement the fund required for schools, which is the most onerous of our Municipal burdens. Nor Surely this fund caunot be used more beneficially than in promoting education, or in furthering any legitimate purpose the Municipality may have in view. The real objection to the proposed legislation indeed seems only to be found in the ob | Plunder hans be Reform, but to our mind it seems rather worse despotism than was ever attempted in the days of old Tory-

Dickey the hungriest Government Contractor on earth, spoke words of gospel truth, His appetite for a job is of wolfish ravenous. ness. He scents plunder from afar, and like the buzzard he waits watching calmiv for the chance to gorge himself. Nathan Dickey first jumped jim crow from the Grit the converge of the conver Dickey hist jumped jum crow from the Grit to the Conservative camp, in the latter enclosure he was never trusted, but as he was morning. Mr Dain hearing them got up a useful tool to work with, occasionally he and threw a chair at them, and then had some scrap iron thrown to him as an called to his brother to follow. One burindulgent moster would throw his dog a gular ran one way, followed by Major bone. But when the Grit star began to rise Dain, Joseph following the other one in Ontario Nathaniel Dickey made no secret of his intention to look after No. 1, and in furtherance of that determination he again hard pressed drew a pistol and fired went over to the Grits. From that time till three times, the third shot taking effect and he is now reaping his reward at the expense of the tax payers of the Province.

There was a chance for him to practice his peculiar forte and he went at it with a will, he knew he could do as he liked with Mc-Kellar, therefore there was no bar to prevent him dipping his hands deep down into the public chest. Let us see to what extent he has done it in this his first bill of \$1785, there are numerous other ones to follow, equally as fraudulent as this.
