THE SOUND OF THE COMING STRIFE.

The notes of preparation for the coming Local Legislative Election are alrendy heard. The Grits are taking time dence and push, have already done wonders for that party, and they are perfectly conscious that nothing but that can Fave them now. They are determined to commence early and leave no stone unturned. They are also conscious that there are explanations wanted by the people, which for obvious reasons will not be forthcoming. They are determined to have their story first told, but we hope that the friends of the people will be prepared to baffle their efforts, that their hollow-heartedness will be demonstrated, and their hypoerisy unmasked. The opposition though overshadowed by the momentary success of a gigantic conspiracy, are neither discouraged nor dismayed, and will always be found ready mayed, and will always be found ready mitted in or with regard to said Roll.—Carto take up the gauntlet and battle gallantly for the true interests of the country. There is in reality every encouragement given in the signs of the times, that the opposition will be largely and enthusiastically sustained by the country. The disgraceful shuffling in regard to the McKellar affair, the shameful wire-pulling, the wholesale auctioncering of political pationage, rats rewarded and renegades in undiminished request-all this has disgusted the country. And who are the men that practised these things? Who but the men whose purity, while in opposition, was so unimpeachable, who were almost too good for this wicked tory world, who were ever quoting seripture against worldly and unscrupulous politicians, who drew heavy sighs and turned up melancholy eyes, and uplifted pious hands towards heaven in holy hor- 148 ror over the iniquities of a degenerate community. But now that they are in office, a change seems to have come over the spirit of their dream. The country stands aghast, and will hardly believe in the hideous transformation. AN IMPOSTOR.

To the Editor of the York Herald.

A short time ago Carrville and vicinity was visited by one Doner, trying to collect money, as he said, to prosecute some one for making use of an invention of his. Now I would warn any person against giv-ing him anything as he is an old vagaboud, entering houses when there are no men near and using indecent language to any female who may be alone there; he has done it at more than one house here. If he puts in another appearance on the 3rd of Vaughan in like manner the hands of the Philistine will be laid upon him, or he will be handed to justice under the Vagrant Act.

# DIAMOND RHEUMATIC CURE.

In its history, this invaluable Medicine occulpies the most honorable position possible for any remedy to attain. A few years since it was known only to the friends and neighbors and patients of the propretor, and always sought for by them whenever troubled with Rheumatism, and in this way came to the motice of Physicians generally, and through favorable expression, and its acknowledged value as a Rheumatic Remedy, the demand for it became so frequent and urgent as to oblige its proprietor to increase his caushilities for its proprietor to increase his capabilities for its manufacture. Its reputation rapidly extended, and soon orders, letters of inquiry, letters of thanks, and cert ficates of oranse were daily recoived from all sections of the United States, coived from all sections of the United States, and in this way on a basis of its merits alone—unaided by "tricks of the trade." or special afforts—it has risen to its present enviable position. Wherever introduced it has received the most flattering preference in the treatment of all Rheumatic complaints. In this way we are really grateful and happy, not alone because our medicine finds ready sale, and is consequently profitable to us do we say this, but because we open a new field in medical science, and cure at once what the best medical science, and cure at once what the best medi-cal practitioners have for ages found so diffi-cult to relieve. We fill a place heretotore unoccupied. We relieve the suffering and min ister to God's poor; we restore the laboring man to the use of his injused limbs, and save
