

The York Herald.

RICHMOND HILL, July 24, 1874.

THE MUNICIPAL LOAN FUND.

In the disposition of our share of the Municipal Loan Fund the greatest amount of good to the greatest number should be taken into consideration. Many schemes of local importance in the shape of improvements might be thought of, such as the opening up of new streets, the gravelling of roads—a Park, and the building of a Fire Hall, Council Chamber, and Belfry. Each of these has its own intrinsic merits, and each, doubtless, its advocates, who think that their own particular ideal is the only legitimate one to which the money should be appropriated.

Whilst we think that each, or all of these projects, would be excellent acquisitions to our Village, yet we think that each has its objections, and were the money invested in either of the proposed improvements it would come short of giving satisfaction to a majority of our people. The streets petitioned for to our Council are necessary, and we must have them soon, but their cost will prove but a small item and can be provided for out of our income without breaking into the fund. Gravelled roads are excellent, but the sum at our disposal would not go far on our half dozen streets if the work was properly done; and, besides, we do not think that our community will be so unwise as to sink the money in the mud with the probability of periodically sending more after it, when our short roads can be kept in good order out of the commutation tax.

The most attractive investment suggested is a Driving Park, especially to lovers of "speed" and owners of "pacers," with considerable "get-up" in them, but by the time the lot is purchased, fenced, laid out and set with trees and shrubbery the money will be reduced to a cypher, and we then shall only have paid the first instalment of what will prove an expensive luxury, for it will require an annual outlay to keep the "Park" in proper condition for razing either as equestrians or pedestrians.

Perhaps the most useful as well as the most ornamental advantage to our Village projected is the erection of a Fire Hall, to contain a Council Chamber, surmounted by a belfry. We are rather disposed to favor this idea because we think that a large number would be interested in it, but we are somewhat dubious as to the advisability of our commencing building operations on so small a capital. To construct a Hall suitable for all the purposes required would necessitate our running into debt, a step which we are all evidently anxious to avoid as long as possible, from the course we pursued last year in paying off at once the balance of the debt on the High School, for we know that municipal indebtedness has a great propensity to double itself when once contracted.

Correspondence.

FARMERS' CLUBS.
(To the Editor of the York Herald.)
Hoping, Mr Editor, that you will accommodate an enquiring friend, I venture to ask a few questions about the above subject. There are two so-called Farmers' Clubs, in the vicinity—the Langstaff and Markham—but their policies are so different, that in my opinion what you call one cannot be the other. From what I have been able to ascertain, the Langstaff Club is composed of farmers and men who earn their livelihood upon the farm. Manufacturers, &c., being excluded; while, with a few exceptions, the members of the Markham Club are Manufacturers. Is it that the Langstaff Club is the one to join and that the Markham is the more perfect and that the Langstaff has not yet received that class of members? Trusting that yourself, or the Editors of those clubs will answer my enquiries.
I remain, Yours, &c.,
Markham, July 10, '74. EQUITER.

ANOTHER RAMBLER.
(To the Editor of the York Herald.)
Sir,—Being a reader as well as a subscriber for the Herald, I read with interest every Friday's mail arrives, when I can scan every nook and corner of the paper to learn its contents. In so doing I found that I was debtor to the Editor for some months. I saw at once that it was my duty to pay up, as every paid up subscriber feels to make the paper better. I also read the "Rambler's" account of a visit to Patterson, and was pleased to see that he had taken a wider range, expecting that he would extend his visit to Carville and its vicinity last week, but was disappointed.

Now, Sir, we have some improvements at Carville. The large brick house of Mr. Wm. Cook, jr., of the firm of Cook & Bros., is being rapidly pushed forward with all the energy of the builders, Messrs Woods & Harris, and will be a stately structure when finished.

The lumbering firm of Jones and Hewitt is doing a thriving business; Mr Sheppard is the head sawyer.

The Flour Mill of Cook & Bro. is doing a thriving trade, under the able management of Mr. J. Hamble.

Denton's store has great attractions. Carville has a brick Church, School and Post Office. Population increasing—shall soon want a larger share of the Municipal Loan Fund.

Harvest prospects are good—no grumbling amongst farmers here for a wonder. Turkey Town has a Church and the prospects of the people are, to all appearance, good.

Greenfield has improved in its buildings, and has enlarged, built and rebuilt anew a large part of the place within the last few years. The house of Mr. Wm. Lund being an ornament to the Village. Some other improvements yet to be made. A Good Templars' Lodge meets in this Village every Wednesday evening. Only one draw-back to this Village, there are no babies.

Little footstools, of how gentle, Gliding by the cottage door,
How you tempt to hear them trundle
As I did it down of yore.

Yours,
"HERALD" READER.
Carville, July 13, '74.

implement, and if he can induce an individual of the above calibre to take an interest in it and give it a fair trial he would not think of employing an agent. The manufacturer wants to sell his implements as cheaply as possible; and why? Well, the problem is very simple! The great masses are always poor, or at least in moderate circumstances. The manufacturer wants to reach the masses. He knows he cannot do so as long as he produces a dear article. He cannot produce a cheap article as long as he employs an army of agents, consequently the manufacturer hires an agent clearly against his own interests, and against the interests of the great farming community, for the addition to the price places it beyond their reach. Now, the Grangers propose to organize themselves into a society for the purpose of testing, examining and introducing all kinds of Agricultural implements, and pronouncing a decision upon every movement connected with farm work. When they do this they are accomplishing a great object for the good of society. They will benefit themselves, the manufacturers and everybody concerned. And if the agent and the middleman have thoroughly aroused them to the necessity of doing this, then their mission is accomplished and they may as well subside or seek new fields where Granges do not flourish. At the same time we may as well understand that the agency work must be done by somebody.

THE GEORGIAN BAY CANAL.

It is not at all a matter of surprise that this mammoth project is meeting with difficulties and opposition. It would be very surprising indeed if it did not meet so many mighty interests as at stake. Montreal regards with unconcealed jealousy, every movement that tends to centralize the western trade in Toronto, and will go any lengths in order to defeat any scheme that shows a tendency in that direction. She has wielded the sceptre of the Canadian Commercial World now for such a length of time that she anticipates with dread the approach of the evil day when she will be obliged to abdicate. There is no doubt that the day is fast approaching, for it is a crying sin against the laws of commerce and the welfare of humanity, that the head of ship navigation should be at Montreal when there are such magnificent inland seas as Lake Ontario, Erie, Huron and Superior untraversed and unvisited by an ocean Keel. The progress and prosperity of the Dominion must not be dwarfed for the sake of a mere unit like Montreal, and the path of commerce cannot be left fettered and bound when the Great West—both British and American—is calling out for cheap transportation perceptibly demanding an outlet to the sea. Let not the friends of the scheme feel discouraged or dismayed, thousands of plans more unpromising have been carried through triumphantly, and this one is already a national necessity, and pressure will be brought to bear that cannot be overlooked. Meanwhile, let the Counties most interested keep their shoulder to the wheel, for the immediate benefits to be conferred upon them will be very great.

Editor's Notes.

Messrs Long & Holmes, of Islington, are importing eight heavy draught entire horses from Britain this season.

The Division Court will be held in the Court Room, at this Village, on Tuesday, 4th prox.

The farmers in this quarter are very busy harvesting their fall wheat. We have not had better crops, as a whole, for many years.

The workmen at some of the departments in Patterson Implement Works are working overtime, in order to get out the machinery for the harvest.

The free and independent electors of Richmond Hill meet on Monday next, at 10 p.m., in the Court Room, to discuss as to the best means of disposing of the Municipal Loan Fund.

Preparations have commenced in earnest for the reception of Lord Dufferin at New Market tomorrow (Saturday) Aches are being built all along Main St., and the citizens have commenced to decorate.

CAUTION TO FARMERS.—Mr C. Fisher, Market Inspector, yesterday seized 54 cwt of butter, which were at once forfeited, owing to light weight. The butter was distributed to several local dairies by his Worship the Mayor. It is to be hoped that this will serve as a caution to persons whose honesty is as doubtful as their weight.—*Leader of Wednesday.*

The N. Y. World winds up in favor of the Treaty with the following sentences the significance of which let its Canadian advocates ponder:—"Canada is our geographical inheritance. The time for whipping or forcing people into annexation has passed. Free trade is the chief annexation and the best, and the only precursor of political annexation."

THE ASSIZES AND GENERAL SESSIONS.—The County of York, for the future, will have four Courts of Assize and Oyer and Terminer, and four County Courts and general sessions of the peace in each year. The time for holding the County Courts and General Sessions is fixed by law; the time for holding the Assizes and Oyer and Terminer rests with the Judges. The sittings of the County Court and the General Sessions will commence on the second Tuesdays in March, May, September, and December, in each year, and will in general occupy three weeks, or perhaps a longer time.

SCIENCE AT THORNHILL.—On Friday night last an inquest was held at Cook's tavern, before Coroner Reid, upon the body of Peis Mooney, who was found with his head nearly severed from his body. Mooney had come to Toronto about a month ago, while he was hired by Mr. Russel. While employed by Mr. Russel they never supposed that anything was wrong with him. On Sunday morning, the 12th inst., he went for a walk, and was not heard of until found as before stated. He leaves a wife and four children in Leeds, Eng. His remains were interred in the Thornhill cemetery.

ORILLIA CORRESPONDENCE.

(From our own Correspondent.)

ONE OLD LANDMARK GONE.
The calm of last Sunday morning was rudely interrupted by the clang of bells and the din of a "Fire." In the very heart of the Village rose the terrible radiance that threw its baleful radiance upon the verbiage of the sky. The afflicted Village—stung by the remembrance of a former catastrophe—sprang into woful activity like a man and the streets were soon full of excited crowds. The Orillia House, one of the oldest landmarks in the Village, was found to be in flames. It was a frame building of considerable capacity and had long sustained the reputation of being the chief public house in the place. Fortunately the burning was calm and still, scarcely a zephyr disturbing its serenity; and very fortunately the building was completely isolated; so that the cause to be adopted was clear, and it was at once adopted, that of keeping the surrounding buildings from catching. Blankets and cloth materials of that kind were displayed in profusion and were kept continually moistened in order to ward off the pestilently falling cinders. There with the whole village looking on, the old building which had existed amidst so many changes for a period of nearly thirty years, burnt slowly to the very ground and hadly left a vestige to mark where it had been. It was owned by Mr. Jas. Quinn, who has been for many years the energetic Reeve of this village, and who is at present at work putting up a building just beside the one that has been burnt, with an entire front of cut stone and which is to cost something like \$10,000. He was not insured; he had been for a period of nearly twenty years, but had inadvertently let it run out. The mischief is fully believed here to have been the work of an incendiary, and is a total loss. The old Orillia House had many associations clinging to it. For example, it was its dining room that the Presbyterian Congregation of Orillia first met. They have still their first and only pastor the Rev. Jno. Gray, B. A., much beloved and respected by all denominations in the village. A liberal minded and true-hearted Christian gentleman in every sense of the term is the Rev. Jno. Gray, B. A., of Orillia. The County of Simcoe, and especially this northern district, owe him much for his loyalty to his arduous duties as a minister, as well as for his unflinching devotion during a period of about thirty years to the cause of education. Every good cause has found in him a staunch supporter and loyal friend on both pulpits and platforms. He has been a hard and laborious worker during his long career in this village, and now we find him in charge of the largest and most influential congregation in the Village.

THE FIRE ENGINE.

During the fire it could be seen that the appliances for averting the fire were woefully deficient. The fire engine was well worked, but its capacity is of the smallest, and as usual, it could only be brought to bear at a period when the main building had caught fire so effectively that nothing could be done with it. It was wonderful to witness the self complacency with which corporations will fling away the public money upon machines of this kind that are broken than useless. They are only a worse need to lean upon in the day of need.

ORIGIN OF THE FIRE.

It began in one of the outbuildings and could easily have been checked before reaching the main building had it been noticed a little earlier and had a good engine been immediately on the ground. The Orillia people have a splendid spring at an elevated point above the village, and it is to be hoped that they will only make use of it, and that would draw out any fire in a moment it it were conveyed into the village by pipes as proposed by several prominent men in the village.

Right.

The Carleton County Council, through the County Clerk, has written to the Sheriff as follows:—"COUNTY CLERK'S OFFICE, OTTAWA, July 4th, 1874. "SIR,—I have the honor to inform you that the *Citizen* newspaper of Ottawa is also the official newspaper of this County; also to state that if any advertising for which the County funds is given to any other newspaper, without the consent of the Council, the accounts for the same will not be paid for by the County."

The Carleton Council has set a good example, and very properly tells the Ontario Government that they are capable of spending their own money, and will not tolerate any interference on the part of the Government. Wonder what Mr. Mowat will do about it?—*Belleisle Intelligencer.*

BIRTHS.

BENSON.—At Oak Ridge, on the 21st inst., the wife of Mr. David Benson, of a son.

MARRIED.

BRACKIN—LIVINGSTONE.—On Wed, 22nd inst., at the residence of the bride's father, by the Rev. J. Fidiar, B.A., Mr. Jas. Brackin, public school teacher of Elgin Mills, to Miss Sara A. Livingston, daughter of Jas. Livingston Esq., of the township of Vaughan.

DIED.

BOYNTON.—At Victoria Square, on the 22nd inst., Mary Monkman, wife of Mr. Wm. Boynton, aged 35 years.

NAUGHTON.—At his late residence, Elgin Mills, on Monday, 20th inst., Jno. Naughton, sen., in the 74th year of his age. A native of the Co. of Limerick, Ireland.

Special Notices.

BREAKFAST.—EPPS'S COCOA.—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine process of well-selected cocoa, Mr. Epps has prepared his breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills.—*Crest Service Gazette.* Made simply with Boiling Water or Milk. Each packet is labelled—"JAMES EPPS & CO. HOLLOWAY'S CHEMISTS, LONDON." We will now give an account of the process adopted by Messrs James Epps & Co., manufacturers of the above articles, at their works in the Eastern Rd., London.—See article in *Gazette* of October 31, 1873. 739-ly

To Nervous Sufferers.

Dr. J. Bell Simpson's *Specific and Tonic Pills*, the Great English Remedy for all nervous debility from whatever cause arising, have already been so thoroughly tested in Canada as to require little to be said in their favor—as a certain cure for those distressing symptoms arising from nervous debility.—J. Bell Simpson was a pupil and friend of the late Dr. Wm. Lewis, of London, England, the most celebrated authority in the world on this subject. His planer is now visiting Canada, and is prepared to give advice free to all, and forward circulars, etc., if applied to—addressing Dr. J. Bell Simpson & Co., Drawer 91 P. O. Hamilton. Two boxes of Pills will also be sent by mail to any part of Canada, securely wrapped in paper, on receipt of \$1.00. Special treatment if desired. Pills sold retail by all retail Druggists, and wholesale by all wholesale Druggists and Patent Medicine Dealers.

VAUGHAN COUNCIL.

The above Council met at the Town Hall on Thursday, the 12th inst., at 10 a.m., as a Court of Revision. The Reeve in the chair. Members present: Messrs Wallace, Elleryby, Webster and Keenan.

The Clerk before the Court the following appeals: From Thos. McAllister, on real property; Sam. Peterman, a dog; G. H. Matterson, a dog; T. Riddell, real property; D. McDougall, real property.

Mr Wallace, seconded by Mr Elleryby, moved that alterations be made in the following assessment, as entered on the assessment roll of this township for the present year: S. Peterman, dog tax of \$1 taken off. D. McDougall's real property, \$5.00, reduced to 3.00, on account of the destruction of his mill by fire; and that the dog tax of G. H. Matterson be refunded, if the owner take the dog away in ten days.

The appeals of Thos. McAllister and T. Riddell were not entertained by the Court. Mr Webster, seconded by Mr Keenan, moved that the assessment roll as revised, be finally passed by this Court, and certified by the Clerk as so passed, and that it shall be valid and binding on all parties concerned, notwithstanding any defect or error committed in or regards said roll.

The Court then adjourned sine die. The Council then met for general business. The minutes of last meeting were read and adopted.

The Reeve presented a communication from W. A. Wallace, J. P., in reference to the detectives cost incurred in the burning of the Woodbridge Agricultural Works.

A petition from E. Sheppard and 11 others asking for an alteration in road beat No. 6. A claim for loss of sheep killed by dogs, was presented by Jas. Spurling.

Mr Webster, seconded by Mr Elleryby, moved that the sum of \$111 paid by Mr. Abell to Detective Warren, for the purpose of endeavoring to trace the guilty parties who set fire to his premises, on the 14th of March last, be repaid to Mr. Abell and that the Treasurer be authorized to pay the same.

Mr Keenan, seconded by Mr Webster, moved that this Council deem it inexpedient to make any alteration at present, in road beats Nos. 6 and 13.

Mr Webster, seconded by Mr Wallace, moved that the Treasurer be hereby authorized to pay to John Spurling \$12, being two thirds of damage done to one sheep and three lambs.

Mr Keenan, seconded by Mr Elleryby, moved that the Council cannot entertain the petition of David Witherspoon, William Hartman and William Jeffrey asking compensation for a sidewalk between Pine Grove and Woodbridge, this Council having no jurisdiction over said road.

Mr Elleryby, seconded by Mr Keenan, moved that the Treasurer be and is hereby authorized to pay to Messrs Hart & Rawlinson, the sum of \$1.67, as per bill for voters' list.

Mr Elleryby, seconded by Mr Wallace, moved that Mr Keenan be and is hereby authorized to procure the services of Mr. Gibson, P.L.S., to make a survey and plan of that portion of road asked to be revised, linked by Anton Prentice and others, thro' the west part of Lot 38, on 1st Con. of this township.

The following By-Laws were then passed: By-Law 307, confirming the population of that portion of the Village of Richmond Hill, formerly belonging to the township of Vaughan, as agreed to by the Clerks of the two municipalities, who were appointed to arrange the same, whereby said Village could draw its share of the surplus distribution. By-Law No. 308, dividing the township into seven polling subdivisions, was then passed. Also By-Law No. 309, appointing T. Page road commissioner in district No. 1, in place of Jas. McNair, who removed from the township.

On motion the Council adjourned to meet on Tuesday, 14th inst., at 10 a.m.—*Economist.*

MILLIONS OF PEOPLE IN AGONY.

PHYSICIANS CORNERED.
I suppose there is not in the whole country a Physician who has not experienced in himself suffering which extends far beyond his ordinary pains of a poor mortal, suffering to the extent that few feel, Rheumatism. Heretofore he has been a generalist, and has not had any special study of this disease, and he has seen many a case of this disease arising from a poison circulating in the blood. The circulation of the blood is the life of the body, and its stoppage is death. No disease can be in the body without first being generated in the blood, and no disease can possibly be in the body if the blood is pure. Rheumatism can never be thoroughly cured without exterminating the poison circulating in the blood by a constitutional internal remedy. We feel confident that none will feel better satisfied and rejoice more than the conscientious physician who has discovered that a sure cure for this stubborn disease has been found. The following testimony from a gentleman of standing and high respectability, and well known to the Canadian public cannot fail to satisfy all that do

DIAMOND RHEUMATIC CURE
IS A WONDERFUL MEDICAL DISCOVERY.
Montreal, 21st March, 1874

Messrs Devins & Bolton:
DEAR SIRS.—I with pleasure conceed to the agent's wish that I give my endorsement to the immediate relief I experienced from a few doses of the Diamond Rheumatic Cure, having been a sufferer from the effects of Rheumatism, I am now, after taking two bottles of this medicine, entirely free from pain. You are at liberty to use this letter, if you deem it advisable to do so.

I am, Sir, yours respectfully,
JOHN HELDER ISAACSON, N. R.

The proprietor of this medicine has walked the miles of the hospitals of London, Eng., for the past twenty years, making rheumatism a specialty, and the prescriptions from which this remedy is compounded shall all be ever used in the treatment of this disease.

In simple cases sometimes one or two doses suffice. In the most chronic cases it is sure to give way by the use of two or three bottles. By this efficient and simple remedy hundreds of dollars are saved to those who can least afford to throw it away, as surely as by the purchase of useless prescriptions.

This medicine is prepared by a careful, experienced and conscientious physician, in accordance to the desire of numberless friends in the profession, in the trade and among the people. Every bottle is warranted to contain the full strength of the medicine in its highest state of purity and development, and is superior to any medicine ever compounded for this terrible complaint.

"This medicine is for sale at all the Druggists throughout Canada. If it happens that your Druggist has not got it in stock, ask him to send for it.
