RICHMOND HILL, Aug. 29, 1874.

A SIGN OF THE TIMES.

The Conservative demonstration in the North is already bringing forth fruit. In Bracebridge, it most unmistakably marked the direction of the sentiments of the people, and gave a firm and abiding character to public opinion. The result is, that the *Northern Advocate*, of Bracebridge, the principal newspaper there, and hitherto a consistent supporter of the present Government, has come completely over to the opposition. It says:—"The more the truths uttered by Messrs. Cameron and Boulton, on the 7th, are pondered over the more glaring the shortcomings of such rulers as Mowat, McKellar and Co., become. In this district, the people are becoming alive to the fact that their interests have been ignored in the past, without any prospect of being bettered in the future, so long as the present men remain at the head of affairs; and that they have been made the tools of unscrupulous men whose sole wish has been to attain certain selfish ends and evade the promises made at the hustings to benefit the country. The money granted for improving roads, instead of being intrusted to reliable men has been scrambled on party favorites, whose only aim (with one or two exceptions) has been to pocket the funds, ride round with fast horses and let the work get on as it best could, under their superintendence." It says much more in the same strain condemning the faithlessness and want of consideration shown to newly settled districts by the present government in the way of roads and railway subsidies, while older sections whose political support could be bought, were supplied far beyond what was justly their due. It introduces comparisons between the present one and government of the late Mr John Sandfield McDonald in which it points out that the utmost faith was kept with the district in his time, and the road system extensively and thoroughly developed. Then the late unseemly Sunday processions of Mr Mackellar, down in that region, are fully commented upon and condemned. It seems that this remarkable Cabinet minister, who seems to be hastening his own fate and those of his associates by every means in his power, actually cruised around Lake Muskoka and vicinity for a whole Sunday without any definite object in view except that of pleasure, supposing perhaps that his delinquencies in that remote region would not be found out and exposed. However, he has been faithfully tracked out and deservedly lashed by the northern conservative press, and it will very likely be some time before he will venture to trespass on Sabbath again. That is unless he is fairly crazed by that madness which the gods were supposed to send upon those whom they had doomed to destruction.

RECIPROCITY.

It is very probable that Mr George Brown did not sit down and calculate the swarm of hornets—Grit and otherwise—which would buzz angrily about his elephantine auricles when he undertook the unblest task of patching up a treaty between Uncle Sam and Cousin Kanuck. "But a wilful man maun he his way, and he who gangs to Coupar maun to Coupar gang!" George should have remembered that his talents and temper are better suited to the work of discord and destruction, and on that account he should carefully refrain from meddling with things that speak of concord and construction. The genius of Voltaire was suited only to that kind of work and, like a sensible man, he did not meddle with work for which he knew he was totally unsuited. So that although we can blame him for being a bad man we cannot despise him for being a weak one. George's handwork does not seem to suit any one and neither friend nor foe are satisfied. So much for the flourish of trumpets which announced the triumph of the Grit Dictator. We thought that the *Jo Triumphe* was rather premature and that the great diplomatic miracle would ultimately shrivel into very small proportions. Now it is extremely problematical whether even a slight majority of the press will support the pet scheme of the Grit Copyists and that George will have his trip to Washington for nothing as far as results are concerned.

TAVERN KEEPERS IN TROUBLE.

The Tavern Keepers of Orillia are undergoing martyrdom at the hands of the new Inspector. We think the public opinion will have to succumb, as law and order must be upheld; if the law is too oppressive, and the general public petition for its amendment, Parliament will provide the remedy. We do think that compelling Innkeepers to close their premises on Saturday evening at seven o'clock is unreasonably severe; it may be well suited for manufacturing cities and towns, but in the country or rural sections ten o'clock should be the time for closing Inns—after that hour, we would say compel them to shut down, or take the consequences.

Correspondence.

To the Editor of the York Herald.

My Dear Sir,—According to previous design I send you a short account of the seventh Annual Convention of the Young Men's Christian Association in Ontario and Quebec, held during the past three days in this town. Port Hope is one of the most beautiful towns in our country, its people have large hearts, its many churches are generally filled with devout worshippers. Many who, like myself, had old friends here, and others who had never seen it before, met with an equally hearty welcome, not only in public, but at the christian homes of the people, on Wednesday last. The delegates to this Convention, met, according to arrangement, in the Baptist Church, at two o'clock. The afternoon session was spent in exercises of devotion, hearing reports, principally verbal, appointment of committees and election of officers for the ensuing year. Mr Muir of London, a young gentleman of refinement, education, and what is still better, earnest piety, was appointed to the Presidential chair. Mr Muir performed the onerous duties of his office with dignity and christian urbanity, and thereby gave general satisfaction to the Convention. In addition to the ordinary business of the Convention, the delegates held various other meetings. Thus, on the three evenings while there, open air services were held on the wharf and on one of the streets of the town. One young man was appointed to take the lead, and, assisted by others, singing, prayer, and brief addresses were given, urging sinners to decide for Jesus. This continued for forty minutes or an hour, before going to the hall or church where the public gatherings took place.

CONCERT.

Mr Andrew Newton, Elgin Mills, has left with us a very large hen's egg; it measures 8 1/2 inches by 7 1/2 inches, and weighs 8 1/2 ounces. The hen is only 1 year old, of the Cochon China breed, and is a wonderful chicken. We have for the interest of all concerned she will continue doing well.

TEMPERANCE ENTERTAINMENT.

The L.O. G. T. will give a Temperance Entertainment on Thursday evening next, in the Temperance Hall, consisting of plays, readings, recitations etc. Admission 15 cents. Children, under 12 years 10 cents. Proceeds for liquidating the debt on the new organ. For further particulars see "bills."

GRAND PICNIC.

The annual picnic in aid of the Roman Catholic Church Mission will be held on Wednesday, September 2nd, at Thornhill, in Mr Seager's grove. An excellent quadrille band has been engaged, and various amusements will be provided for the occasion. Dinner will be served at 12 o'clock noon. Tickets 30 cts; children under 14 years, half price.

LAMENTABLE OCCURRENCE.

A painful accident happened on Sabbath night last, on Isabella street, Toronto, whereby a young lady Miss Mary E. Dav, daughter of the Rev. E. Dav, of Holy Trinity Church, lost her life. We learn from the evidence given to the Coroner's Jury that the deceased was making up the bed for a sick brother, when a younger one in the room with her. He took up a gun and playfully threatened to shoot her. The weapon being charged, without looking at it, he fired, and the result was she lost her life. It adds one more to the numerous instances of accidents occurring through the careless use and playing with firearms.

Local News.

Markham Township Council meets tomorrow, (Saturday) at Hunter's hall Unionville.

Mrs Campbell's Banding and Dressing for young ladies' reapens on Tuesday the 1st proximo.

The Carrville Union Sabbath School will hold their anniversary on Thursday the 17th proximo, in the P. M. Church there.

LACROSSE.

The Newmarket Courier of last week seemed to be quite indignant at the manner in which the Hermit spoke of the "Star" Club as the champions of the north. Judging from the play of the Clubs during the past two seasons, we think that the "Star" are entitled to the championship. Bradford has defeated Orillia three straight games, and the Newmarket Club claim to have had the best of Collingwood, and the Stars have defeated both the Newmarket and Bradford clubs this season. The "Stars" are not only willing but able to stand by any thing the *Herald* has said in reference to the championship. For the benefit of any clubs who are still doubtful of it, we insert the following Challenge:—"The "Star" lacrosse club do hereby challenge any club north of Toronto to play a match game of lacrosse on the Richmond Hill lacrosse grounds, for the Championship of the North. Notification of the acceptance of the above to be given to the Secretary one week before the match—the challenge to be open until the 15th of September. For further particulars apply to JOHN COULTER, Sec."

BETTER THAN IT IS REPRESENTED TO BE.

REV. F. C. IRELAND LACUTE, P. O. 875-1. —When GRAHAM'S PAIN EXHAUSTOR was first introduced here, I was doubtful of its virtues, but since then it has been used in my own family, and we find it possessed of that rare quality in a patent medicine of being better than it is represented to be. Many are astonished to find obsolete and obscure remedies cured by a few applications, and that it possesses similar power over other forms of disease and pain. I have kept it constantly on hand for the past three years, and would not let my home be without it. For sale by all respectable druggists and dealers in medicine. Price 25 cents.

PHYSICIANS CORNERED.

I suppose there is not in the whole course of a Physician's experience anything in human suffering which calls forth his sympathy and pity to such an extent as to witness the excruciating pains of a poor mortal, suffering from that fearful disease, Rheumatism. Hereafter, there has been a considerable diversity of opinion among medical men, as to the true character of this disease, some locating it in the fibrous or muscular tissue of the system, and others viewing it as an acute, nervous disease, but it is now generally admitted, to be a disease arising from a poisonous circulation in the blood. The circulation of the blood is the life of the body, and its stoppage is death. No disease can be in the body without it being generated in the blood, and no disease can possibly be in the body if the blood is pure. Rheumatism can never be thoroughly cured without exterminating the poison circulating in the blood by a constitutional internal remedy. We feel confident that none will feel better satisfied and rejoice more than the conscientious physician who has discovered that a sure cure for this distressing disease has been found. The following testimony from a gentleman of standing and high respectability, and well known to the Canadian public cannot fail to satisfy all that the

DIAMOND RHEUMATIC CURE

IS A WONDERFUL MEDICAL DISCOVERY.
