SANITARY.—Elsewhere in this issue, is a letter from a resident of our village, signed "Vulcan," asking a remedy for what we, early in the spring, pointed out, as a matter which should have been taken in hand by our village fathers...

York County Council.

A special meeting of the members of York County Council was held on Monday afternoon last.

The Warden, Mr. W. Cane, took the chair at two o'clock. The members present were: Messrs Thorne, Bull, Duncan, Fleury, Harrison, Irwin, Jones, Jackson, Lundy, Laue, Leslie, Macklin, Milliken, Marratt, Miller, Oth, Phillips, Patterson, Robinson, Reid, Rogers, Speight, Stevens, Stokes, Tyrrell, Watson, Wheeler, Webster, Wickson, Wallis, Wallace.

The Warden briefly addressed the members of the Council, stating that the object in calling this special meeting, was the appointment of a Superintendent for the York Roads, in consequence of the resignation of Mr. Silas James, and for the Council to take what steps they thought proper with respect to the levying of rates, the mode of schedule having been adopted at the previous meeting of the Council.

The Clerk then read a communication from Mr. S. James, respecting his resignation as Superintendent of York Roads. He asked that a committee might be appointed to investigate any matter of complaint so as to arrive at a correct opinion as to any losses the county may have sustained by damages or otherwise.

The following applications were received for appointment of Superintendents: From J. P. Eakin, Aurora; Wm. Meadows, Leslieville; M. Jones, Bloomington; A. Correll, Newmarket; J. T. Stokes, Sharon; Wm. Jackson, Toronto; H. Noble, Toronto; J. W. Peterham, Streetsville; J. P. Wheeler, Scarborough; A. Duncan, Toronto; J. Crona, Newmarket; J. W. Fenwick, Unionville; F. H. Layler, Toronto.

Mr. Jackson gave notice that he would tomorrow move that the Finance Committee be instructed to bring in a by-law with respect to the levying of rates.

Mr. Jackson explained that legal opinion had been sought on the changing of the by-law about the levying of rates, which had been passed in Council at their last meeting, which he would submit to the Council.

It was ultimately decided to leave the matter over until the legal opinion be obtained. Mr. Tyrrell moved, seconded by Mr. Wallace, that the Committee on County Property be and are hereby instructed to prepare a by-law for the appointment of a Superintendent for the County of York, and define his duties with as little delay as possible.

Mr. Jackson presented the report of the Committee on County Property, which related to the appointment of a Superintendent of the York Roads.

Mr. Wickson moved that the consideration of the first clause of the report which relates to the appointment of the Superintendent be suspended.

Mr. Thorne moved that the clause be struck out. He considered that there should be a separate by-law introduced appointing the Superintendent.

Mr. Lane thought that the clause might be placed last in the report, but he could not concur with Mr. Thorne in having a separate by-law.

Mr. Thorne's amendment was declared lost. The Warden moved that the first clause be placed last on the report.—Carried.

The second clause referred to the annual salary to be given to the Superintendent. Mr. Thorne moved that the salary be \$1,500 per annum. He contended no man could look after the roads properly for less sum than he named. If the Council appointed a man at \$800, they would lose money.

Mr. Lane moved as an amendment, that the sum of \$1,000, at which salary he considered they could obtain a good man. Mr. Wickson considered the first step the Council should take was to make the salary worth the acceptance of an efficient and practical man.

Mr. Tyrrell thought that \$1000 would be too small to offer any practical engineer, but if only they wanted merely an overseer of the roads, then that sum would be ample. If the Council decided to employ an engineer, they must pay him a sufficient salary.

The Warden considered that the Council should appoint an engineer. Mr. Thorne said the salary of the late engineer was far too small; he could not live on it, and had to engage in other work; consequently the roads were neglected, and would continue to be if they engaged an engineer at a low salary.

Mr. Macklem moved that the salary be fixed at \$1,200. He considered that the Council should give a fair salary, and keep to it. Mr. Lane's resolution that the salary be \$1,000 a year was put to the vote and declared carried.

shall be the aggregate valuation for such towns and villages for the purposes of the Act of 1871. The capitalized value, or, as it may more properly be called, the equalized value of any the village of Newmarket, was thus ascertained to be \$22,000 in the year 1871. By an act of the present year, the rate upon the assessed value of the property in the village of Newmarket is directed to be equalized to the rate upon the assessed value of the property in the village of Newmarket, in other words, before proceeding to equalize the rate, the assessment to be levied on the assessed value of the property in the village of Newmarket is to be reduced by forty per cent.

The Council has passed a by-law to levy the county rate taking the equalized value of last year as a basis, and not the capitalized value. It is contended that the rate should be levied or apportioned on the capitalized value of last year.

We have given the subject our careful consideration, and in our opinion the action of the Council, in its resolution to levy the rate upon the equalized value of last year is illegal.

The assessment act of 1869-70, c. 36, 37, seems to point out very clearly the duty of the Council.—In apportioning a County rate upon the assessed value of the property in the village of Newmarket, the Council should have raised and equalized in the preceding year, the assessed value of the property in the village of Newmarket to the assessed value of the property in the village of Newmarket, as to the mode in which the illegal action of the Council is to be met, we think that the appeal to the County Judge, even if it were too late to adopt it, is not the proper course. It does not apply to the case at hand.

If the by-law is illegal it may be quashed on application to the courts, or its validity may be tested in a writ of certiorari to the County Court, or by an application to the County Court to quash the by-law. It is entirely in the discretion of the Court to refuse to interfere to quash the by-law, but even if they decline to do so the remedy by action is still open.

It is determined to move to quash the by-law the motion must be made within two next weeks. Yours truly, HARRISON, OSLER & MOSS.

Mr. Wallace, of Etobicoke, said he did not see why the second column, headed "Equalized Value," had been introduced unless it was to have been a basis of taxation.

Mr. Phillips, of King, said the "Capitalization" column was the basis for assessment. Mr. Jackson said he did not think there was a member of the council who did not feel that last year the villages were taxed higher in proportion than the towns.

Mr. Speight added to the arguments for dividing the taxation in towns and villages by remarking on the perishable character of the property and in many cases its unproductive nature. He said if it was understood that village property was assessed, as township property was, at its full value, and then 40 per cent struck off the village assessment, he would accept this.

Mr. Wallace declined to accept the argument that village property being of a more risky nature was a reason for reducing the assessment, and read the method of assessment from cap. 36, Vic., 1868, B. He noticed, in replying to Mr. Phillips, that a reduction in the village of Holland Landing had been met by an increase of the rate of taxation in the township.

Mr. Wickson explained how slight excess had been put on the village last year to provide for their all bearing a share with the village of York. The Warden said it was plain that equalization was to be effected first, and capitalization afterwards.

On the motion being put, it was carried without division. Mr. Duncan moved, in amendment, seconded by Mr. Reid, that before passing a by-law the question should be submitted to the County Surveyor. Mr. Duncan, speaking to his motion, said he did not think it was right that a member of the Council should procure an opinion from lawyers who would in case of litigation, be very probably the losers for the adverse party.

The motion was lost. It was resolved that it be an instruction to the Commissioners on public works not to proceed with the building of the Registry Office, but wait till certain new plans are laid before them and considered by the Council.

The Council then adjourned till 8 o'clock on Tuesday morning, the 1st inst.

ORILLIA CORRESPONDENCE. (From our own Correspondent.) LACROSSE! The prowess of our Richmond Hill "Stars" has been heard of and commented upon in this northern locality, and our boys are determined to dispute the "Championship of the North" with them at some future period.

To that end they have been practicing more assiduously, and with more earnestness than ever before. They disposed of the Bradford club in a summary manner last Monday. Bradford came here with a strong and well-appointed team and many of us thought at first that our boys would find a "hard row to travel," but some of our new recruits displayed a great many points of surprising good play.

The following is the summary up:— First game, won by Orillia in 25 minutes, ball sent through by Fred Walker. It was a great deal of excellent play on both sides. Second game, won by Orillia in 17 minutes, the ball being sent through by a magnificent long throw by Jas. Henderson which reached very nearly from one end of the field to the other.

Third game, won by Orillia in 7 1/2 minutes the ball being sent in by a grand rush and finally disposed of by a swift thrust from James Sutherland.

AFTERWARDS The Bradford boys were entertained to a sumptuous repast at Messrs Restaurant, by their Orillia "crumbers at arms," where, judging by the happy and jovial faces that glistened around the social board, all their little differences on the field of battle seemed to be set aside and they all proceeded to make the most of the occasion.

Special Notices.

BREAKFAST.—EPPS'S COCOA.—GRATEFUL AND COMFORTING.—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, M. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctor's bills.—Civil Service Gazette.

MANUFACTURE OF COCOA.—We will now give an account of the process adopted by Messrs James Epps & Co., manufacturers of, &c., at their works in the Kingston Road, London.—See article in Cassell's Household Guide, October 31, 1872. 739-1v

To Nervous Sufferers. Dr. J. Bell Simpson's Specific and Tonic Pills, the Great English Remedy for all nervous debility from whatever cause arising, have already been so thoroughly tested in Canada as to require little to be said in their favor.—A certain cure for those distressing symptoms arising from a nervous system, Dr. J. Bell Simpson was a pupil and friend of the late Dr. Wm. W. Wood, of London, England, the most celebrated authority in the world on this subject.

MILLIONS OF PEOPLE STORE. RICHMOND HILL. FRESH ARRIVALS!

PHYSICIANS CORNERED. I suppose there is not in the whole course of a Physician's experience anything in human suffering which calls forth his sympathy and pity to such an extent as to witness the excruciating pain of a poor mortal, suffering from that fearful disease, Rheumatism. Herefore there has been a considerable diversity of opinion among medical men, as to the true character of this disease: some locating it in the fibres or muscular tissues of the system, and others viewing it as an acute, nervous disease, but it is now generally admitted, and disease arising from a poison circulating in the blood. The circulation of the blood is the life of the body, and its stoppage is death. No disease can last in the body without its being generated in the blood, and no disease can possibly be in the body if the blood is pure. Rheumatism can never be thoroughly cured without exterminating the poison circulating in the blood by a constitutional internal remedy. We feel confident that none will feel better satisfied and rejoice more than the conscientious physician who has discovered that a sure cure for this stubborn disease has been found. The following testimony from a gentleman of standing and high respectability, and well known to the Canadian public cannot fail to satisfy all that the

DIAMOND RHEUMATIC CURE IS A WONDERFUL MEDICAL DISCOVERY. Montreal, 21st March, 1874. Messrs Devins & Bolton: DEAR SIRS,—I with pleasure concede to the agent's wish that I give my endorsement to the immediate relief experienced from a few doses of the Diamond Rheumatic Cure, having been a sufferer from the effects of Rheumatism, I am now, after taking two bottles of this medicine, entirely free from pain. You are at liberty to use this letter, if you deem it advisable to do so. I am, Sir, your respectfully, JOHN HELDER ISAACSON, N. P.

The proprietor of this medicine has walked the aisles of the hospitals of London, Eng., for the past twenty years, making rheumatism a specialty, and the prescriptions from which this remedy is compounded is all he ever used in the treatment of this disease. In simple cases sometimes one or two doses suffice. In the most chronic cases it is sure to give way by the use of two or three bottles. By this efficient and simple remedy hundreds of dollars are saved to those who can least afford to pay for it. Every bottle is warranted to contain a full course of the medicine in its highest state of purity and development, and is superior to any medicine ever compounded for this terrible complaint.

IF This medicine is for sale at all the Druggists throughout Canada. If it happens that your Druggist has not got it in stock, ask him to send for it. NORTHROP & LYMAN, AGENTS FOR THE PROVINCE ONT., DEVINS & BOLTON, AGENTS FOR QUEBEC AND MONTREAL. Price, \$1 per Bottle. Large Bottles, \$2. May 14, 1874. 85 fm.

IN GROCERIES, PROVISIONS, WINES & LIQUORS. WE HAVE OUR USUAL LARGE & Well-Selected STOCK. A call from all is solicited. FLOUR AND FEED. Kept constantly on hand, PARCELS DELIVERED. P. G. SAVAGE, Richmond Hill, June 10, 1874.

A. WRIGHT, CARRIAGE BUILDER, RICHMOND HILL. Hogs to announce to the Inhabitants of Richmond Hill, and surrounding neighborhood that he has built a new Hearse and commenced the

UNDERTAKING BUSINESS. A FINE NEW HEARSE. For hire, Funeral Furnishings, Coffins and Caskets in every style. Richmond Hill, July 23, 1874. E35 1f
