THE ELECTIONS.

Polling day has come and gone, and the results from all the constituencies in Ontario are by no means encouraging to have secured 42, including 2 Independents, which, we are assured, they will not get. The Opposition again have elected all of 36 representatives who may be considered opponents to the Government. Nine members were elected by acclainst; eight of whom were Grits and one Opposition. There is one election to be held yet, that of Algoma, for which the writ has not yet been issued. The Op position, and those who are in sympathy and Pogue. with them have great reason to be well satisfied with the verdict given by the country. True there are some good men O'Brien, Wilson and Pogue. who have done battle for the cause in past years, among whom are Mr Rykert, Mr Fitzimmous, Capt. Gifford, Mr Hargraft, Mr Scott, of West Peterboro', Mr Daly and McRae who have been defeated. We regret the result of the vote in East

FARMERS AND IMMIGRANTS.

Would you allow me a few lines in your Paper, while I draw the attention of the community to the immigrants we may expect to arrive in our midst during the Spring and Summer months. It must be evident to all that our wealthy farmers should make arrangements during the Winter for married men and their families., many of such will come to Ontario with a desire to settle. If encouraged by having comfortable houses prepared, they may become valuable settlers. serves. The stock around the farm premises are well provided for, which is all right, yet we must all strive to encourage the new comers by enabling families to see around difficulties which all will meet during the in-Auditors-J. K. Falconbridge, Esq., clemency of Winter. It is surely not right that new immigrants should rush to our large cities and depend on the charities established especially for the poor and aged. Let the matter be fully discussed by our intelligent farmers; they, above all others, must feel its great importance. If many are driven out of Canada, they will bring disgrace on all the movements carried on both here and in Great Britain to encourage industrions laborers.

AT LAST !- The Grits, with care not to damage their chance of carrying the local elections in Ontario, refrained from issuing the notice of the commutation of the senti-ance of Lapine to two years imprisonment, till Wednesday last: now they turn round and hold the imperial authorities responsible.

Another Victim of Intemperance .-Last Thursday, while a man, by the name of Allan, who had been on a spree for about a week, was taking dinner at Spece's hotel, Aurora, he was seen suddenly to turn black in the face and gesticulate with both hands as it in a fit.
