THE GEORGIAN BAY CANAL.

man with a greatly weakened vitality, his restless energy, perseverance and push would be fully equal to the task of keeping the great scheme before the public. To a great extent the Pacific Railway scheme has withdrawn public attention from it though it should not by any means do so. In fact, the Canal should be adopted as one of the great links of water-stretches which must be utilized until it be found practicable to build the railway. The eastern section of the Railway is, under present circumstances, so absurd a project, that no man of common sense will urge it. Its course will extend through a wild, barren, unproductive, unsettled portion of country, beset with engineering difficulties of a most aggravated character, having no ettractions whatever for settlers. It is very questionable whether such a long line of railway through a comparatively unproductive country is justifiable. A ratiway should, to a great extent, support itself. In regard to the ¿Georgian Bay Canal there can be no question as to its vast utility. The great grain freights of the West, and North West will never reach the European markets at paying prices, unless the Canal is an accomplished fact. And there is no time at which it would pay us better than at the present moment, for it would answer a double purpose: it would place the North West in direct communication with Europe at present during the summer months, and it would be the great highway of the future for the produce of the Great West and North West. In regard to usefulness and practicability ted by the Government, have lately been the Eastern section of the Pacific Rail-

DOMINION DAY,

Thursday, the 1st inst., being what is termed our National Holiday, was observed throughout the Dominion as a day of general rejoicing. OUR VILLAGE presented an unusual quiet appearance on the occasion, elsewhere. The camp at

Remember the Strawberry Festival in connection with the M. E. Church, Headford, this (Friday) afternoon.

The somewhile "Local" of the "late lamented 'Liberal is ruralizing around the romantic village of Thornbill, at present. Sir W. Armstrong is constructing agan weighing 100 tons. It is to be a muzzle load-er, 17 inch bore, and, if successful, will be the most powerful weapon ever constructed.

The Rev. John Bredin, prior to his de parture from Bowmanville to Barrie, was presented by the members of his congre

SCCCESSFEL .- At the Brass Band Com petition, held in Toronto, on the 1st inst., open to the whole Dominion, the Patterson Brass Band were successful in carrying off the 2nd prize, amounting to \$250. This speaks well for the "boys" and especially for their leader, Mr A. Spaulding, who has fully established his reputation as a teacher of more than ordinary ability.

The Orangemen of West York, Vaughan and King Districts, intend celebrating the forthcoming Anniversary of the Battle of the Boyne, on Monday, the 12th inst, by a Grand Demonstration and Festival, in Mr Fleming's Grove, Kleinburg. Several Rev. gentlemen and other prominent men of the Order are expected to address the Brethren. The Committee have determined to spare no pains to make this one of the most such cessful gatherings of the kind ever held in the county.

VICTORIA SQUARE. - Notwithstanding the many and varied attractions held by our neighboring towns and villages as places of neusement, on Dominion Day, the good people of Victoria Square seemed to possess their share of the attracting power, and according to previous announcement, held that day, no amusement of any kind having been provided by the "leading spirits."

RETURN OF TROOPS .- Last Friday, No. 2 Troop of Cavalry, under command of Capt. McConnell, Markham Troop, under Capt. Elliott, the Toronto Field Battery, accompanied by their mounted band, and the Gov. Gen's Body Guard, made their ap pearance in the village on their return from camp. The men all seemed in excellent spirits, and are a good deal more soldier-like in appearance than when they went out, old king Sol having kept up a pretty steady fire and never mis ing his aim leaving some sadly bronzed countenances. On Saturday The monthly Cattle Fair, which was been here on Wednesday last, was not quite so under the leadership of Mr A. Morting, well attended as usual, owing, no doubt, to some choice music. Political Catechism for Young Boginners.

BY JIMUEL BRIGGS, D. B.

The session is over. Silence and desola-tion reigns in halls of legislation and the voice of the blatterer is no longer heard. What is home without a Local Legislature ? I shall now have more leisure to pursue my literary undertakings.

I am engaged at present on an important educational work—a political catechism for use in Coboconk University, compiled from the most authentic sources.

The following is a specimen of this much
