As alllife-endowed bodies, whether they be Beast, Birds, Raptiles, Insects or even Zoo philes, and subjects of the Vegetable Kingdom are governed by vital force, which binds all the springs of existence, and as nothing can save them from destruction when this principle leaves thom, the discovery of means whereby vitality may be sustained in the living body is

indeed a boon to the world.

Modern chemistry has vontilated the question and discovered the ingredients constituting the brain, muscles find nerves, and finds that by introducing these ingredients in proper proportions the brain and nervous system are proportions the brain and nervous system are strengthened.

This, then, is substantially the basis on which Fellow's flyrophosphites is built, its direct action is upon the Blood, the Brain and Nervous System, and the Muscles. Strengtheuing the nerves, it causes the rapid distribution of Vitalized Blood in the Muscular Organs

of the Body.
Rousing the Sluggish Heart and Liver. strengthening the action of the Stomach and Bowels and enabling the Lungs to be fiully inflated with Oxygen.

It is adapted for Alm cases of Workness and Emaciation, whether arising from and the Emaciation whether arising from the Emaciation whether are the Emaciation whether arising from the Emaciation whether are Emaciation, whether arising from sedentary life, a tropical climate, from fever or debility from any cause, and is efficacions in Pulmonary Consumption, many confirmed cases having been cured and all benefitted, where its use has been continued over a fortnight.

In Bronchitis it is a specific, and in Asthma t gives relief where every other remedy fails For Nervous Debility it stands unrivalled and may be used with confidence in all cases, As this is entirely distinct and different from every other preparation of Hypophosphites, be careful to ask for Fellows' Synur, and take
