RICHMOND HILL, July 23, 1875.

POOR MR. CROOKS

For six long months Mr. Crooks has been holding office in the Ontario Government without having a constituency. and he seems likely to remain so for some time. In West Wellington, they are about to elect a representative for the Ontario Legislature, and the leading duty! "Reformers" thought to do a neat thing, nominated him as their candidate. Mr Crook's visited the West Wellington people last week, and the Globe, of Saturday, tells the public of his rejection in that constituency in the following

" Our readers will remember that the " Hon Adam Crooks was lately nomin-" ated unanimously by the Reform Con-"vention of West Wellington. Mr " Crooks thought it was his duty to visit that County and see as many leading Reformers as he could in a short time, " and explain to them the reasons which "compelled him to decline the nomi-"nation, as weil as to confer with them " as to the course to be pursued to re-"deem the County from its present

What a beautiful way of a cknowledging defeat. Mr Crooks did not go to West Wellington to see what chance there was for his election-not at all, he merely went to "confer with them." The great financier could not stand a second defeat and he acted very wisely Rose, the Late Rose, and the Brownwell's the field. Finding his chance for any thing but defeat very small, he concluded to remain without a seat for the present, rather than run any risk. This would come nearer the truth, but a good and true "Elevator" will never acknowledge defeat, and now the various Grit organs throughout the country wiil be looking in vain for a "precedent."

ECONOMICAL.

We commend the following to some of our Grit friends, who are continually praising the various "economics" as practiced by our present Government. Mr Mackenzie bought two and a half anything in regard to your own county?

The Pacific Nothing! Do they contain notices of your millions of steel rails, for the Pacific Railway, which will not be required for use for three years. The interest on this sum at five per cent for three years say a word calculated to draw attention to \$225,000 and the rails can amounts to \$375,000, and the rails can now be bought for \$10 per ton less than Mr Mackenzie paid for them. This one transaction alone by the Premier, with-indeed freeding meter in their unless they are getting as many square that unless they are getting as many square introduce a Rylaw for the matterial and building a bridge in front of lot No. 28, in the 3rd Con.

Mr Marsh gave notice that the sum of \$73.46 be paid by the Treasi uncertainty to the order of Jno. McCague, said and aid in their progress and enterprise?

Not a line! And yet there are men who take such contracted views of this matter that unless they are getting as many square in the contraction of the material and building a bridge in front of lot No. 28, in the 3rd Con.

Mr Marsh gave notice that the sum of \$73.46 be paid by the Treasi uncertainty to the order of Jno. McCague, said and aid in their progress and enterprise?

Not a line! And yet there are men who take such contracted views of this matter.

Mr Marsh gave notice that the sum of \$73.46 be paid by the Treasi country \$875,000, and yet he is extolled by the Grit journals, great and small, as a kind of heaven born statesman, and the present Government as the most conomical the world ever saw. This is " Reform !"

McKellar AND WENTWORTH .-The exact standing of Archibald Mc-Kellar in the Cabinet is a subject of much speculation at present. People begin to inquire how long he can retain both offices and draw a salary for the performance of duties which he makes no attempt to do. His name has been mentioned in connection with the shrievality of Wentworth for some months. The position was actually accepted by ans be compensated for their property when him to meet the heavy expenses entailed it is taken from them as any other people upon him by the trial. A short time ago a Yate's County man crushed several potatoe bugs in his fingers.
Shortly afterwards he chanced to touch his finger to his tongue, and in less than two hours it had swollen to such an extent that he could not shut his mouth, his hands were also badly swollen and turned black. Mr Coupland, the proprietor, after everal years of success, having gone into the Ministry, has left the business with all that pertains thereto, for sale. Accordingly, every preparation having been made for the "event," on Tuesday night last, between 11 and 12 o'clock, the young man procured a horse and buggy from Mr Brown's Livery Stable, and accompanied by the "fair one," who had made her escape through the window, departed for parts unknown.
